and movies in modernist fiction largely stem from worries about the competition for modern audiences and the desire for control over storytelling and reflections of the modern world This book looks at a moment of major change in media the dominance of mass media that began with the primarily visual media of newspapers and movies and the ways that authors like Ernest Hemingway Zora Neale Hurston James Joyce Djuna Barnes and others responded The author contends that an examination of this moment may facilitate a better understanding of the relationship between media and authorship in our constantly shifting media landscape The Storied Self Bruce A. Stevens,2018-10-15 We are multistoried each story contributing to who we are the storied self A number of undeveloped stories are identified in this book This includes the hidden story before language Others include the lazy story the trauma story the messy story the body story the problem story and the dark story The God story brings the spiritual realm into focus The challenge in spiritual care is to help people find an integrative deep story which can be re authored with new and exciting possibilities This book draws on the insights of narrative gerontology for a natural engaging and more comprehensive spiritual care of the aged one that results in psychological and spiritual growth This is a unique idea which will challenge the way we think about pastoral care
