Structure and Variation in Language Contact Ana Deumert, Stephanie Durrleman-Tame, 2006-01-01 This volume presents a careful selection of fifteen articles presented at the SPCL meetings in Atlanta Boston and Hawai i in 2003 and 2004 The contributions reflect from various perspectives and using different types of data on the interplay between structure and variation in contact languages both synchronically and diachronically The contributors consider a wide range of languages including Surinamese creoles Chinook Jargon Yiddish AAVE Haitian Creole Afro Hispanic and Afro Portuguese varieties Nigerian Pidgin Sri Lankan Malay Papiamentu and Bahamian Creole English Hackert A need to question and test existing claims regarding pidginization creolization is evident in all contributions and the authors provide analyses for a variety of grammatical structures VO ordering and affixation agglutination negation TMAs plural marking the copula and serial verb constructions The volume provides ample evidence for the observation that pidgin creole studies is today a mature subfield of linguistics which is making important contributions to general linguistic theory

Creolization and Contraband Linda M. Rupert, 2012-07 When Cura ao came under Dutch control in 1634 the small island off South America's northern coast was isolated and sleepy The introduction of increased trade both legal and illegal led to a dramatic transformation and Cura ao emerged as a major hub within Caribbean and wider Atlantic networks It would also become the commercial and administrative seat of the Dutch West India Company in the Americas The island's main city Willemstad had a non Dutch majority composed largely of free blacks urban slaves and Sephardic Jews who communicated across ethnic divisions in a new creole language called Papiamentu For Linda M Rupert the emergence of this creole language was one of the two defining phenomena that gave shape to early modern Cura ao The other was smuggling Both developments she argues were informal adaptations to life in a place that was at once polyglot and regimented They were the sort of improvisations that occurred wherever expanding European empires thrust different peoples together Creolization and Contraband uses the history of Cura ao to develop the first book length analysis of the relationship between illicit interimperial trade and processes of social cultural and linguistic exchange in the early modern world Rupert argues that by breaking through multiple barriers smuggling opened particularly rich opportunities for cross cultural and interethnic interaction Far from marginal these extra official exchanges were the very building blocks of colonial society

Synchronic and Diachronic Perspectives on Contact Languages Magnus Huber, Viveka Velupillai, 2007-09-27 This collection of selected conference papers from three SPCL meetings brings together a cross fertilization of approaches to the study of contact languages The articles are grouped into three coherent sections dealing with respectively phonetics and phonology including Optimality Theory synchronic analyses of both morphology and syntax and diachronic tracings of language change with special focus on sound patterns as well as semantics An added value of the volume is that most of the articles are in various

ways significant for more than one linguistic subgrouping and there is a significant overlap of interests the sections also cover sociolinguistic subjects give both theoretical and functional linguistic analyses of language data and discuss issues of grammaticalization Thus in discussing a number of issues relevant far beyond the study of pidgin and creole languages as well as providing a wealth of linguistic data this volume also contributes to the broader field of linguistics in general
