Strange Parallels: Volume 2, Mainland Mirrors: Europe, Japan, China, South Asia, and the Islands Victor Lieberman, 2003 Blending fine grained case studies with overarching theory this book seeks to rethink 1 000 years of Eurasian history *Strange Parallels* Victor B. Lieberman, 2007 **Strange Parallels** Victor B. Lieberman, 2003 Annotation In an ambitious effort to overcome the extreme fragmentation of early Southeast Asian historiography this study connects Southeast Asia to world history Victor Lieberman argues that over a thousand years each of mainland Southeast Asia s great lowland corridors experienced a pattern of accelerating integration punctuated by recurrent collapse These trajectories were synchronized not only between corridors but most curiously between the mainland as a whole much of Europe and other sectors of Eurasia Lieberman describes in detail the nature of mainland consolidation and dissects the mix of endogenous and external factors responsible **Strange Parallels: Volume 1, Integration on the Mainland** Victor Lieberman, 2003-06-09 In an ambitious effort to overcome the extreme fragmentation of early Southeast Asian historiography this study connects Southeast Asia to world history Victor Lieberman argues that over a thousand years each of mainland Southeast Asia s great lowland corridors experienced a pattern of accelerating integration punctuated by recurrent collapse These trajectories were synchronized not only between corridors but most curiously between the mainland as a whole much of Europe and other sectors of Eurasia Lieberman describes in detail the nature of mainland consolidation and dissects the mix of endogenous and external factors responsible **Strange Parallels: Volume 2, Mainland Mirrors: Europe, Japan, China, South Asia, and the Islands** Victor Lieberman, 2009-10-30 Blending fine grained case studies with overarching theory this book seeks both to integrate Southeast Asia into world history and to rethink much of Eurasia s premodern past It argues that Southeast Asia Europe Japan China and South Asia all embodied idiosyncratic versions of a Eurasian wide pattern whereby local isolates cohered to form ever larger more stable more complex political and cultural systems With accelerating force climatic commercial and military stimuli joined to produce patterns of linear cum cyclic construction that became remarkably synchronized even between regions that had no contact with one another Yet this study also distinguishes between two zones of integration one where indigenous groups remained in control and a second where agency gravitated to external conquest elites Here then is a fundamentally original view of Eurasia during a 1 000 year period that speaks to both historians of individual regions and those interested in global trends **Strange Parallels** , 2009

Lieberman, Lieberman Victor, 2014-05-14 Blending fine grained case studies with overarching theory this book seeks to rethink 1 000 years of Eurasian history **Strange Parallels** Victor B. Lieberman, 2003 This ambitious work has two novel goals to overcome the extreme fragmentation of early Southeast Asian historiography and to connect Southeast Asian to world history Combining careful local research with wide ranging theory Lieberman argues that over a thousand years each of mainland Southeast Asia s great lowland corridors experienced a
