

A promotional poster for the Star Trek: Strange New Worlds television series. The central figure is Captain Pike, played by Anson Mount, in a yellow command uniform, standing with his hands clasped. Behind him are the other main cast members: Spock (Zachary Quinto) in a blue uniform, Ilia (Persia White) in a yellow uniform, T'Pol (Persuance Monaghan) in a light blue uniform, and Trip Tucker (Ethan Phillips) in a red uniform. To the left, a young T'Pol (Jade E. Smith) is crouching in a red uniform. To the right, a young Trip Tucker (Ethan Phillips) is crouching in a red uniform. The background is a vibrant, colorful nebula with a large, dark, triangular shape in the center. A Starship Enterprise is visible in the upper left, and a planet with a ring is in the upper right. The text "STAR TREK" is in a smaller font above "STRANGE NEW WORLDS", which is in a large, bold, white font. Below the title, it says "NEW SEASON STREAMING JUNE 15". At the bottom, the "Paramount+" logo is displayed with the word "ORIGINAL" underneath it.

Strange Worlds:

The Weird World of Eerie Publications Mike Howlett, 2010 Eerie Publications horror magazines brought blood and bad taste to America's newsstands from 1965 through 1975 Here's the sordid background behind this mysterious comics publisher featuring astonishingly red reproductions of many covers and the most spectacularly creepy art **The Weird Indexes of Eerie Publications** Mike Howlett, 2012-10-08 Meticulously detailed indexes to the Eerie Publications horror comics the dreadful bad boys of black and white horror mags THERE ARE NO STORIES REPRINTED HERE Just hard core pure information *Building Imaginary Worlds* Mark J.P. Wolf, 2014-03-14 Mark J P Wolf's study of imaginary worlds theorizes world building within and across media including literature comics film radio television board games video games the Internet and more Building Imaginary Worlds departs from prior approaches to imaginary worlds that focused mainly on narrative medium or genre and instead considers imaginary worlds as dynamic entities in and of themselves Wolf argues that imaginary worlds which are often transnarrative transmedial and transauthorial in nature are compelling objects of inquiry for Media Studies Chapters touch on a theoretical analysis of how world building extends beyond storytelling the engagement of the audience and the way worlds are conceptualized and experienced a history of imaginary worlds that follows their development over three millennia from the fictional islands of Homer's Odyssey to the present internarrative theory examining how narratives set in the same world can interact and relate to one another an examination of transmedial growth and adaptation and what happens when worlds make the jump between media an analysis of the transauthorial nature of imaginary worlds the resulting concentric circles of authorship and related topics of canonicity participatory worlds and subcreation's relationship with divine Creation Building Imaginary Worlds also provides the scholar of imaginary worlds with a glossary of terms and a detailed timeline that spans three millennia and more than 1 400 imaginary worlds listing their names creators and the works in which they first appeared **Worlds to Shatter, Shattered Worlds** Paul Payack, 2003-07 Worlds to Shatter Shattered Worlds is a classically styled dramatic work often compared to the style and substance of Tom Stoppard's Rosencrantz and Guildenstern are Dead In Worlds to Shatter you will encounter the all too strange world inhabited by such denizens as Sea faring Time worshippers and the Keeper of the Nothingness Paul JJ Payack is a Silicon Valley marketing executive by day but by night he constructs the elaborate all too strange worlds such as that found in Worlds to Shatter Shattered Worlds Over his career as a writer Payack has created hundreds of metafiction in the various forms of novella short stories polyplays essays and collage narratives that have been published in some dozen collections and hundreds of reviews and anthologies around the world including The Paris Review New Letters Creative Computing and Boulevard At the same time Payack has served as a senior executive for some of the world's leading high technology companies Currently Payack serves as Chairman President The WordMan at yourDictionary.com the leading global language portal According to Sylvia Berkman What continues to even more forcefully distinguish Paul Payack's later work is the nature

of the creative intelligence from which it stems This is an intelligence cool yet engaged composed witty immensely concerned with the broad pivotal elements of the human experience *C. S. Lewis -- A Life* Alister McGrath,2013-02-18 ECPA 2014 Christian Book Award Winner Non Fiction Fifty years after his death C S Lewis continues to inspire and fascinate millions His legacy remains varied and vast He was a towering intellectual figure a popular fiction author who inspired a global movie franchise around the world of Narnia and an atheist turned Christian thinker In *C S Lewis A Life* Alister McGrath prolific author and respected professor at King s College of London paints a definitive portrait of the life of C S Lewis After thoroughly examining recently published Lewis correspondence Alister challenges some of the previously held beliefs about the exact timing of Lewis s shift from atheism to theism and then to Christianity He paints a portrait of an eccentric thinker who became an inspiring though reluctant prophet for our times You won t want to miss this fascinating portrait of a creative genius who inspired generations *Knowledge and Colonialism* Siegfried Huigen,2009-07-15 The establishment of a settlement at the Cape of Good Hope in the seventeenth century and an expansion of the sphere of colonial influence in the eighteenth century made South Africa the only part of sub Saharan Africa where Europeans could travel with relative ease deep into the interior As a result individuals with scientific interests in Africa came to the Cape This book examines writings and drawings of scientifically educated travellers particularly in the field of ethnography against the background of commercial and administrative discourses on the Cape It is argued that the scientific travellers benefited more from their relationship with the colonial order than the other way around *The Mara Contact* H. M. Porteous,2019-01-17 From her vantage point within the Spiritual Realms the wonderful and loving Mara the Rose of Antiquity explains how looking within our physical mental emotional and spiritual worlds help us unleash self awareness and maximize our personal power In an inspirational guidebook the Spirit of Mara shares uplifting words and pearls of wisdom that bring internal drama into the open in an unusual and imaginative manner Through her advice others will learn how to understand the mighty powerhouse they are as well as the unlimited possibilities that exist within the framework of their powerhouse While Mara s words gently nudge people away from their comfort zones and suggest that they investigate new ideas and ways of looking at everyday issues and concepts they also encourage reflection inward toward the place where magic happens to find strength and the answers The Mara Contact shares guidance and wisdom from a beloved Spirit who leads others down a path of enlightenment to become alive in all ways *Fault Lines of Globalization* Hans Lindahl,2013-09-26 The question whether and how boundaries might individuate and thereby be constitutive features of any imaginable legal order has yet to be addressed in a systematic and comprehensive manner by legal and political theory This book seeks to address this important omission providing an original contribution to the debate about law in a global setting Against the widely endorsed assumption that we are now moving towards law without boundaries it argues that every imaginable legal order global or otherwise is bounded in space time membership and content The book is built up around three main insights Firstly that

legal orders can best be understood as a form of joint action in which authorities mediate and uphold who ought to do what where and when with a view to realising the normative point of acting together Secondly that behaviour can call into question the boundaries that determine who ought to do what where and when a legality Thirdly that this a legality reveals boundaries as marking a limit and to a lesser or greater extent a fault line of the respective legal order Legal boundaries reveal ways of ordering the who what where and when of behaviour which have been excluded yet which remain within the range of practical possibilities accessible to the collective limits However legal boundaries also intimate an order which exceeds the range of possibilities accessible to that collective the fault line of the respective legal order Careful analysis of a wide range of legal orders including nomadism Roman law classical international law ius gentium multinationals cyberlaw lex mercatoria the EU global regimes of human rights and space law validates this thesis What sense then can we make of the normativity of the law if there can be no inclusion without exclusion Arguing that legal and political theories misunderstand how legal boundaries do their work of including and excluding the book develops a normative theory of legal order which is alternative to both communitarianism and cosmopolitanism

The Divine Manifold Roland Faber, 2014-07-30 The Divine Manifold is a postmodern enquiry in intersecting themes of the concept and reality of multiplicity in a chaosmos that does not refuse a dimension of theopoetics but rather defines it in terms of divine polyphilia the love of multiplicity In an intricate play on Dante s Divine Comedy this book engages questions of religion and philosophy through the aporetic dynamics of love and power locating its discussions in the midst of and in between the spheres of a genuine philosophy of multiplicity This philosophy originates from the poststructuralist approach of Gilles Deleuze and the process philosophical inspirations of Alfred N Whitehead As their chaosmos invites questions of ultimate reality religious pluralism and multireligious engagement a theopoetics of love will find paradoxical dissociations and harmonizations with postmodern sensitivities of language power knowledge and embodiment At the intersection of poststructuralism s and process theology s insights in the liberating necessity of multiplicity for a postmodern cosmology the book realizes its central claim If there is a divine dimension of the chaosmos it will not be found in any identification with mundane forces or supernatural powers but on the contrary in the absolute difference of polyphilic love from creativity Yet the concurrent indifference of love and power its mystical undecidability in terms of any conceptualization will lead into existential questions of the insistence on multiplicity in a world of infinite becoming as inescapable background for its importance and creativeness formulating an ecological and ethical impulse for a mystagogy of becoming intermezzo
