Stranger On The Planet The Small:

Littell's Living Age Eliakim Littell, Robert S. Littell, 1893 The Living Age , 1868 **Experimenting on a Small Planet** William W. Hay, 2016-06-01 This book is a thorough introduction to climate science and global change The author is a geologist who has spent much of his life investigating the climate of Earth from a time when it was warm and dinosaurs roamed the land to today's changing climate Bill Hay takes you on a journey to understand how the climate system works He explores how humans are unintentionally conducting a grand uncontrolled experiment which is leading to unanticipated changes We follow the twisting path of seemingly unrelated discoveries in physics chemistry biology geology and even mathematics to learn how they led to our present knowledge of how our planet works He explains why the weather is becoming increasingly chaotic as our planet warms at a rate far faster than at any time in its geologic past He speculates on possible future outcomes and suggests that nature itself may make some unexpected course corrections Although the book is written for the layman with little knowledge of science or mathematics it includes information from many diverse fields to provide even those actively working in the field of climatology with a broader view of this developing drama **Experimenting on a Small Planet** is a must read for anyone having more than a casual interest in global warming and climate change one of the most important and challenging issues of our time This new edition includes actual data from climate science into 2014 Numerous powerpoint slides allow lecturers and teachers to more effectively use the book as a basis for climate change education Littell's Living Age , 1878 American Perceptions of Immigrant and Invasive Species Peter Coates, 2007-01-09 Sometimes by accident and sometimes on purpose humans have transported plants and animals to new habitats around the world Arriving in ever increasing numbers to American soil recent invaders have competed with preyed on hybridized with and carried diseases to native species transforming our ecosystems and creating anxiety among environmentalists and the general public But is American anxiety over this crisis of ecological identity a recent phenomenon Charting shifting attitudes to alien species since the 1850s Peter Coates brings to light the rich cultural and historical aspects of this story by situating the history of immigrant flora and fauna within the wider context of human immigration Through an illuminating series of particular invasions including the English sparrow and the eucalyptus tree what he finds is that we have always perceived plants and animals in relation to ourselves and the polities to which we belong Setting the saga of human relations with the environment in the broad context of scientific social and cultural history this thought provoking book demonstrates how profoundly notions of nationality and debates over race and immigration have shaped American understandings of the natural world **Municipal Gazette** , 1848 **New York Municipal Gazette (New York, N.Y.)** Ebenezer Meriam, 1847 Appletons' Journal , 1869 **Unity** , 1880 **The Stranger's Long Neck** Gerry McGovern, 2010-06-17 The long awaited new title from THE corporate expert on building the right web presence to drive sales In an age that is exploding with information it's now critically important for companies to identify what truly matters on

their Web site The web customer is a stranger online to web teams who must work in a medium where it is very difficult to know who is clicking around on your site Every Web site has a long neck or a small set of tasks that are very important to its customers If you don't make these tasks easy and fast to complete your customers will go to your competition This book will give you practical advice and case studies on how to tune in effectively to deliver precisely what your web customers want to make the sale Gerry McGovern is widely regarded as the number one worldwide authority on managing web content as a business asset Named as one of the 100 most influential figures in e-commerce in the UK and Ireland he has appeared on CNN CNBC and BBC television and has been featured in numerous print media publications

Top 5 Tips for Improving Your Website by Gerry McGovern

- 1 On the Web content may be king but the customer is dictator There's one word to describe the web customer IMPATIENT
- 2 Traditional marketing and communication is about GETTING ATTENTION Web marketing and communication is about PAYING ATTENTION When customers are at your website you already have their attention Don't waste their time by telling them things they already know
- 3 Every website has a small set of top tasks what I call the long neck that customers expect to complete quickly and easily The customers top tasks are often not what the organisation thinks they are or wants them to be
- 4 The BIGGEST key to website improvement and efficiency of long neck consumer tasks is most often overlooked companies must do rigorous methodical and continuous testing Great web management is based on facts about your consumers not opinions offered by the smartest people in your company
- 5 The Web is about doing not talking about doing A great website puts task completion features on the homepage In Web 1.0 you saw a picture of a hotel room on the homepage of a hotel website Now you book your room on the homepage Find out more in The Stranger's Long Neck
