Quality Teaching in Primary Science Education Mark W. Hackling,Jörg Ramseger,Hsiao-Lan Sharon

Chen,2016-10-24 This edited volume explores how primary school teachers create rich opportunities for science learning higher order thinking and reasoning and how the teaching of science in Australia Germany and Taiwan is culturally framed It draws from the international and cross cultural science education study EQUALPRIME Exploring quality primary education in different cultures A cross national study of teaching and learning in primary science classrooms Video cases of Year 4 science teaching were gathered by research teams based at Edith Cowan University Deakin University the Freie Universität Berlin the National Taiwan Normal University and the National Taipei University of Education Meetings of these research teams over a five year period at which data were shared analysed and interpreted have revealed significant new insights into the social and cultural framing of primary science teaching the complexities of conducting cross cultural video based research studies and the strategies and semiotic resources employed by teachers to engage students in reasoning and meaning making The book's purpose is to disseminate the new insights into quality science teaching and how it is framed in different cultures methodological advancements in the field of video based classroom research in cross cultural settings and implications for practice teacher education and research The chapters of this book address issues of contemporary relevance and theoretical significance embodiment discursive moves the social unit of learning and instruction inquiry and reasoning through representations Through all of these the EQUALPRIME team manages to connect the multiple cultural perspectives that characterise this research study The meta reflection chapters offer a different form of connection linking cultural and theoretical perspectives on reasoning quality teaching and video based research methodologies The final two chapters offer connective links to implications for practice in teacher education and in cross cultural comparative research into teaching and learning These multiple and extensive connections constitute one of the book's most significant accomplishments The EQUALPRIME project as reported in this book provides an important empirical base that must be considered by any system seeking to promote sophisticated science learning and instructional practices in primary school classrooms By exploring the classroom realisation of aspirational science pedagogies the EQUALPRIME project also speaks to those involved in teacher education and to teachers I commend this book to the reader It offers important insights together with a model of effective collegial collaborative inter cultural research It will help us to move forward in important ways Professor David Clarke Melbourne University Deep Learning Michael Fullan,Joanne Quinn,Joanne McEachen,2017-11-06 New Pedagogies for Deep Learning NDPL provides a comprehensive strategy for systemwide transformation Using the 6 competencies of NDPL and a wealth of vivid examples Fullan re defines and re examines what deep learning is and identifies the practical strategies for revolutionizing learning and leadership **Educating for Sustainability in Primary Schools** Neil Taylor,Frances

Quinn,Chris Eames,2015-06-17 Education for Sustainability is a key priority in today s schools as our society seeks to find a balance between environmental social cultural political and economic imperatives that affect our future As young children will become the next generation of adults it is vital that they are educated about sustainability issues so that they can learn to make informed decisions and take positive action for a sustainable world Teachers are ideally placed to educate for sustainability issues and indeed have a responsibility to do so However they often lack support and experience in this area and constraints of current curriculum priorities can inhibit Education for Sustainability being taught effectively in many classrooms Educating for Sustainability in Primary Schools Teaching for the Future addresses this problem by showing how Education for Sustainability can be developed within and across all areas of the primary curriculum in the Australian and New Zealand contexts The book provides a range of educational approaches and examples of activities to support teachers in addressing national requirements for teaching the major primary curriculum learning areas while simultaneously educating for sustainability This integrative approach to primary education can promote knowledge of positive attitudes towards and suitable action for sustainability in relevant meaningful enjoyable and creative ways This book is a valuable resource for all primary teachers who wish to make a real difference to educating children for the future **Activities for Using the**
