The Jacaranda Dictionary And Grammar Of Melanesian Pidgin:

The Jacaranda Dictionary and Grammar of Melanesian Pidgin Francis Mihalic, 1994 *The Jacaranda Dictionary and Grammar of Melanesian Pidgin* Francis Mihalic, 1986 *The Jacaranda Dictionary and Grammar of Melanesian Pidgin* Francis Mihalic, 1971 Toward a Reference Grammar of Tok Pisin John W. M. Verhaar, 1995-01-01 **Social Lives in Language** □ **Sociolinguistics and multilingual speech communities** Miriam Meyerhoff, Naomi Nagy, 2008-09-26 This volume offers a synthetic approach to language variation and language ideologies in multilingual communities Although the vast majority of the world's speech communities are multilingual much of sociolinguistics ignores this internal diversity This volume fills this gap investigating social and linguistic dimensions of variation and change in multilingual communities Drawing on research in a wide range of countries Canada USA South Africa Australia Papua New Guinea Solomon Islands Vanuatu it explores connections between the fields of creolistics language dialect contact and language acquisition how the study of variation and change particularly in cases of additive bilingualism is central to understanding social and linguistic issues in multilingual communities how changing language ideologies and changing demographics influence language choice and or language policy and the pivotal place of multilingualism in enacting social power and authority and a rich array of new empirical findings on the dynamics of multilingual speech communities *Creoles, Their Substrates, and Language Typology* Claire Lefebvre, 2011-01-01 Since creole languages draw their properties from both their substrate and superstrate sources the typological classification of creoles has long been a major issue for creolists typologists and linguists in general Several contradictory proposals have been put forward in the literature For example creole languages typologically pair with their superstrate languages Chaudenson 2003 with their substrate languages Lefebvre 1998 or even creole languages are alike Bickerton 1984 such that they constitute a definable typological class McWhorter 1998 This book contains 25 chapters bearing on detailed comparisons of some 30 creoles and their substrate languages As the substrate languages of these creoles are typologically different the detailed investigation of substrate features in the creoles leads to a particular answer to the question of how creoles should be classified typologically The bulk of the data show that creoles reproduce the typological features of their substrate languages This argues that creoles cannot be claimed to constitute a definable typological class **Sickness and Healing** Simon Herrmann, 2022-12-20 Long before the Lele people of Papua New Guinea had significant contact with the Western world and Christianity they had developed a framework for understanding sickness and healing with a strong emphasis on the unseen world This study examines how mature Lele Christians of the Evangelical Church of Manus assess traditional health concepts in light of their Christian faith and Scripture By using cognitive theory as an interpretive approach this research serves as a case study to illustrate the mental processes that take place when Christians in an animistic context make sense of their traditional culture Simon Herrmann spent 15 years in Papua New Guinea the United States and Malaysia He now works as a lecturer in Intercultural Theology at the Internationale

Hochschule Liebenzell IHL Code-switching Between Structural and Sociolinguistic Perspectives Gerald Stell, Kofi Yakpo, 2015-02-17 The study of code switching has been carried out from linguistic psycholinguistic and sociolinguistic perspectives largely in isolation from each other This volume attempts to unite these three research strands by placing at the centre of the enquiry the role played by social factors in the occurrence forms and outcomes of code switching The contributions in this volume are divided into three parts code switching between cognition and socio pragmatics multilingual interaction and identity and code switching and social structure The case studies represent contact settings on five continents and feature languages with diverse linguistic affiliations They are predictive and descriptive in their research goals and rely on experimental or naturalistic data But they share the common goal of seeking to explain how social structures ideologies and identity impact on the grammatical and conversational features of code switching and language mixing and on the emergence of mixed languages Given its scope this volume is a significant addition to the empirical and theoretical foundations of the study of code switching It is also of relevance to the general debate on the inter relationships between language and society **Perception Metaphors** Laura J. Speed, Carolyn O'Meara, Lila San Roque, Asifa Majid, 2019-02-15 Metaphor allows us to think and talk about one thing in terms of another ratcheting up our cognitive and expressive capacity It gives us concrete terms for abstract phenomena for example ideas become things we can grasp or let go of Perceptual experience characterised as physical and relatively concrete should be an ideal source domain in metaphor and a less likely target But is this the case across diverse languages And are some sensory modalities perhaps more concrete than others This volume presents critical new data on perception metaphors from over 40 languages including many which are under studied Aside from the wealth of data from diverse languages modern and historical spoken and signed a variety of methods e g natural language corpora experimental and theoretical approaches are brought together This collection highlights how perception metaphor can offer both a bedrock of common experience and a source of continuing innovation in human communication Cultural Keywords in Discourse Carsten Levisen, Sophia Waters, 2017-10-15 Cultural keywords are words around which whole discourses are organised They are culturally revealing difficult to translate and semantically diverse They capture how speakers have paid attention to the worlds they live in and embody socially recognised ways of thinking and feeling The book contributes to a global turn in cultural keyword studies by exploring keywords from discourse communities in Australia Brazil Hong Kong Japan Melanesia Mexico and Scandinavia Providing new case studies the volume showcases the diversity of ways in which cultural logics form and shape discourse The Natural Semantic Metalanguage NSM approach is used as a unifying framework for the studies This approach offers an attractive methodology for doing explorative discourse analysis on emic and culturally sensitive grounds Cultural Keywords in Discourse will be of interest to researchers and students of semantics pragmatics cultural discourse studies linguistic ethnography and intercultural communication
