The Johnston Collection William Robert Johnston 1911 1986:

The Johnston Collection Anthony Knight, John Rogan, Bill Donlevy, Harry F. Blackburn, 1997 Australian National Bibliography, 1998-03 Lonely Planet Pocket Melbourne Lonely Planet, **William and Henry Walters, the Reticent Collectors** William R. Johnston, 1999-10-25 Surprisingly the story of how William Walters and his son Henry created one of the finest privately assembled museums in the United States has not been told BOOK JACKET Italian Forgers Carol Helstosky, 2024-05-15 Italian Forgers takes an unorthodox approach to the fascinating topic of art forgery focusing not on art forgery per se but on the major forgery scandals that shifted the Italian art market in response to constant and often intense demand for Italian objects By focusing on power dynamics that both precipitated forgery scandals and forged Italian cultural identities this book connects the debates and discussions about three well known Italian forgers Giovanni Bastianini Icilio Joni and Alceo Dossena to anchor and investigate the mechanics of the Italian art market from unification through the fascist era Carol Helstosky examines foreign accounts of transactions and Italian writings about the art market The actions and words of Italian dealers illustrate how the Italian art and antiquities market was an undeniably modern industry on par with tourism in terms of its contribution to the Italian economy and to understandings of Italian identity These accounts also reveal how dealers artists go between guides and restorers worked to not only meet the intense demand for Italian products but also to develop highly sophisticated business practices to maintain financial stability and respond to shifts in demand consciously but not always conscientiously Italian Forgers weaves a compelling narrative about the history of Italian identity forgery and the value of the past As a result Helstosky brings historical perspective to the study of art forgery and art fraud She reveals how historical circumstances and structural imbalances of cultural power shaped the market for art and antiquities and amplified incidents of art deception and forgery scandals *Transactions of the Oriental Ceramic Society* Oriental Ceramic Society, 2005 Unruly Nature Scott Allan, Edouard Kopp, Line Clausen Pedersen, 2016-06-21 Thodore Rousseau 1812 1867 arguably the most important French landscape artist of the mid nineteenth century and a leader of the so called Barbizon School occupies a crucial moment of transition from the idealizing effects of academic painting to the radically modern vision of the Impressionists He was an experimental artist who rejected the traditional historical biblical or literary subject matter in favor of unruly nature a Romantic naturalism that confounded his contemporaries with its bizarre compositional and coloristic innovations Lavishly illustrated and thoroughly documented this volume includes five essays by experts in the field Scott Allan and Edouard Kopp alternately examine Rousseau's diverse techniques and working procedures as a painter and as a draftsman as well as his art's mixed economic and critical fortunes on the art market and at the Salon Line Clausen Pedersen's essay focuses on Mont Blanc Seen from La Faucille Storm Effect an early touchstone for the artist and a spectacular example of the Romantic sublime in the Ny Carlsberg Glyptotek's collection This catalogue accompanies an eponymous exhibition on view at the J Paul Getty Museum from June 21 to September 11 2016 and at the Ny Carlsberg

Glyptotek from October 13 2016 to January 8 2017 *Masterpieces of European Painting, 1800-1920, in the Metropolitan Museum of Art* Metropolitan Museum of Art (New York, N.Y.), Kathryn Calley Galitz, 2007 Genealogies Cataloged by the Library of Congress Since 1986 Library of Congress, 1991 The bibliographic holdings of family histories at the Library of Congress Entries are arranged alphabetically of the works of those involved in Genealogy and also items available through the Library of Congress **Plants and Gardens as Artefacts in Transcultural Contexts** Minna Törmä, 2025-09-30 This edited volume explores the ways in which the object biography or object itinerary approach could be adapted to frame research on animate objects such as plants and gardens in transcultural contexts By treating these animate elements as objects in the manner of artefacts and looking at their individual histories we gain a more nuanced sense of how data accumulated how new knowledge developed through printed texts and specimen collections and how the creators of gardens or landscapes formed their collections Chapters explore the shifts in meanings when objects from diverse origins meet in new cultural contexts where their new owners create assemblages based on their perception of the world The book will be of interest to scholars working in art history material culture and cultural geography
