The Journal Of Charles Lennox Stretch Grahams Town Series:

The Journal of Charles Lennox Stretch Charles Lennox Stretch,1988 **Writing the Ancestral River** Jacklyn Cock,2018-03-01 Writing the Ancestral River is an illuminating and unusual biography of the Kowie River in the Eastern Cape This tidal river runs through the centre of what used to be called the Zuurveld a formative meeting ground of different peoples who have shaped our history Khoikhoi herders Xhosa pastoralists Dutch trekboers and British settlers Their direct descendants continue to live in the area and interact in ways that have been decisively shaped by their shared history Besides being a social history this is also a natural history of the river and its catchment area where dinosaurs once roamed and cycads still grow As the book shows the natural world of the Kowie has felt the effects of human settlement most strikingly through the establishment of a harbour at the mouth of the river in the 19th century and the development of a marina in the late 20th century Both projects have had a decisive and deleterious impact on the Kowie People are increasingly reconnecting with nature and justice through rivers Acknowledging the past and the inter generational racialised privileges damages and denials it established and perpetuates is necessary for any shared future By focusing on this little river the book raises larger questions about colonialism capitalism development and ecology and asks us to consider the connections between social and environmental injustice **Colonial Connections 1815-1845** Zoe Laidlaw,2005 This groundbreaking book challenges standard interpretations of metropolitan strategies of rule in the early nineteenth century By the 1830s the conviction that personal connections were the best way of exerting influence within the imperial sphere went well beyond the metropolitan government as lobbyists settlers and missionaries also developed personal connections to advance their causes **Mfecane Aftermath** Carolyn Hamilton,1995 The idea that the period of social turbulence in the nineteenth century was a consequence of the emergence of the powerful Zulu kingdom under Shaka has been written about extensively as a central episode of southern African history Considerable dynamic debate has focused on the idea that this period the mfecane left much of the interior depopulated thereby justifying white occupation One view is that the time of troubles owed more to the Delagoa Bay Slave trade and the demands of the labour hungry Cape colonists than to Shaka s empire building But is there sufficient evidence to support the argument The Mfecane Aftermath investigates the very nature of historical debate and examines the uncertain foundations of much of the previous historiography **The Journal of Commonwealth Literature** ,1989 Issues for 1965 include section Annual bibliography of Commonwealth literature 1964 *Colonial South Africa:Origins Racial Order* Tim Keegan,1997-01-01 It is a story that is strong in notable events slave emancipation the arrival of the 1820 British settlers a series of frontier wars the Great Trek of Boer emigrants as well as in striking personalities among them Dr John Philip Andries Stockenstrom John Fairbairn Moshoeshoe and Sir Harry Smith In Keegan s pages these familiar historical landmarks and characters emerge in entirely novel ways the subject of fresh interpretations and original insights *Colonial connections, 1815-45* Zoë Laidlaw,2013-07-19 This groundbreaking

book challenges standard interpretations of metropolitan strategies of rule in the early nineteenth century After the Napoleonic wars the British government ruled a more diverse empire than ever before and the Colonial Office responded by cultivating strong personal links with governors and colonial officials through which influence patronage and information could flow By the 1830s the conviction that personal connections were the best way of exerting influence within the imperial sphere went well beyond the metropolitan government as lobbyists settlers and missionaries also developed personal connections to advance their causes However the successive crises in the 1830s exposed these complicated networks of connection to hostile metropolitan scrutiny This book challenges traditional notions of a radical revolution in government identifying a more profound and general transition from a metropolitan reliance on gossip and personal information to the embrace of new statistical forms of knowledge The analysis moves between London New South Wales and the Cape Colony encompassing both government insiders and those who struggled against colonial and imperial governments

Warfare and Tracking in Africa, 1952-1990 Timothy J Stapleton, 2015-10-06 During the decolonization wars in East and Southern Africa tracking became increasingly valuable as a military tactic Drawing on archival research and interviews Stapleton presents a comparative study of the role of tracking in insurgency and counter insurgency across Kenya Zimbabwe and Namibia

The Sunburnt Queen Hazel Crampton, 2006 The true story of a child shipwrecked in Africa

Rewriting South African History, Or, The Hunt for Hintsa's Head Shula Marks, 1996
