Marriage in Canon Law Ladislav M. Örsy,1988 **Overwhelmed by God and Not Your Troubles** Steve Mays,2013-11-18 Are the bills stacking up while your bank account dwindles Is your marriage or your singleness a source of heartbreak Are you filled with anxiety because of health issues Do you sometimes feel like you re drowning and God is nowhere to be found Do you wonder What in the world am I going to do How am I going to make it Trials roll in like waves one after another and threaten to knock you off your feet But instead of trying to stand strong against your problems maybe the answer is to be swept away not by your troubles but by God *Overwhelmed by God and Not Your Troubles* is an invitation to rest and to fall into God s love goodness grace and forgiveness Lift your tired eyes from the crushing trials that lead you to despair and fix your eyes on the awesome power and mercy of the God who is greater You will experience the peace contentment and joy that can only be found in Christ as you face your setbacks and heartaches with renewed hope and strength from the Spirit **Phenomenological Psychology** J.J. Kockelmans,2012-12-06 Over the past decades many books and essays have been written on phenomenological psychology Some of these publications are historical in character and were designed to give the reader an idea of the origin meaning and function of phenomenological psychology and its most important trends Others are theoretical in nature and were written to give the reader an insight into the ways in which various authors conceive of phenomenological psychology and how they attempt to justify their views in light of the philosophical assumptions underlying their conceptions Finally there are a great number of publications in which the authors do not talk about phenomenological psychology but rather try to do what was described as possible and necessary in the first

two kinds of publications Some of these attempts to do the latter have been quite successful in other cases the results have been disappointing This anthology contains a number of essays which I have brought together for the explicit purpose of introducing the reader to the Dutch school in phenomenological psychology The Dutch school occupies an important place in the phenomenological movement as a whole Buytendijk was one of the first Dutch scholars to contribute to the field and for several decades he remained the central figure of the school

Seize the Moment Richard Nixon, 2013-01-08 What is most striking about Mr Nixon's charge to seize the moment nearly all of which is sensible and sound is the continuity of his counsel The New York Times In Moscow Khrushchev arrogantly predicted to me Your grandchildren will live under communism I responded Your grandchildren will live in freedom At the time I was sure he was wrong but I was not sure I was right As a result of the new Soviet revolution I proved to be right Khrushchev's grandchildren now live in freedom In this brilliantly timed book Richard Nixon defines the challenges and opportunities facing America as the world's sole superpower Only American leadership he contends can guide the turbulent post Soviet Union world toward freedom and prosperity and make the 21st century an American century Forcefully dismissing the three prevailing post Cold War myths about America that history has ended with the defeat of communism that military power had become irrelevant and that America is a declining power Nixon charts the course America must take in the future to seize this moment in history
