Selected Poems Stephen Jonas, 1994 **Notes to Make the Sound Come Right** T.J. Anderson III, 2004-07-01 In When Malindy Sings the great African American poet Paul Laurence Dunbar writes about the power of African American music the notes to make the sound come right In this book T J Anderson III son of the brilliant composer Thomas Anderson Jr asserts that jazz became in the twentieth century not only a way of revising old musical forms such as the spiritual and work song but also a way of examining the African American social and cultural experience He traces the growing history of jazz poetry and examines the work of four innovative and critically acclaimed African American poets whose work is informed by a jazz aesthetic Stephen Jonas 1925 1970 and the unjustly overlooked Bob Kaufman 1925 1986 who have affinities with Beat poetry Jayne Cortez 1936 whose work is rooted in surrealism and the difficult and demanding Nathaniel Mackey 1947 who has links to the language writers Each fashioned a significant and vibrant body of work that employs several of the key elements of jazz Anderson shows that through their use of complex musical and narrative weaves these poets incorporate both the tonal and performative structures of jazz and create work that articulates the African journey From improvisation to polyrhythm they crafted a unique poetics that expresses a profound debt to African American culture one that highlights the crucial connection between music and literary production and links them to such contemporary writers as Michael Harper Amiri Baraka and Yusef Komunyakaa as well as young recording artists United Future Organization Us3 and Groove Collection who have successfully merged hip hop poetry and jazz **Never by Itself Alone** David Grundy, 2024 Through its comprehensive history of post war queer writing in Boston and San Francisco from the 1940s through the 21st century Never By Itself Alone provides a new view of queer history Grundy intertwines analysis of lesbian gay and queer literature of the time centering voices which have not yet before been explored in existing criticism The book elevates the underrepresented work of writers of color and those with gender nonconforming identities underscores the link between activism and literature and insists upon the vital importance of radical accounts of race class and gender in any queer studies worthy of the name *Three Poems of Stephen Jonas* Stephen JONAS, 1989 The Crimson Letter Douglass Shand-Tucci, 2004-06 In a book deeply impressive in its reach while also deeply embedded in its storied setting bestselling historian Douglass Shand Tucci explores the nature and expression of sexual identity at America's oldest university during the years of its greatest influence The Crimson Letter follows the gay experience at Harvard in the nineteenth and twentieth centuries focusing upon students faculty alumni and hangers on who struggled to find their place within the confines of Harvard Yard and in the society outside Walt Whitman and Oscar Wilde were the two dominant archetypes for gay undergraduates of the later nineteenth century One was the robust praise singer of American democracy embraced at the start of his career by Ralph Waldo

Emerson the other was the Oxbridge aesthete whose visit to Harvard in 1882 became part of the university's legend and lore and whose eventual martyrdom was a cautionary tale Shand Tucci explores the dramatic and creative oppositions and tensions between the Whitmanic and the Wildean the warrior poet and the salon dazzler and demonstrates how they framed the gay experience at Harvard and in the country as a whole The core of this book however is a portrait of a great university and its community struggling with the full implications of free inquiry Harvard took very seriously its mission to shape the minds and bodies of its charges who came from and were expected to perpetuate the nation's elite yet struggled with the open expression of their sexual identities which it alternately accepted and anathematized Harvard believed it could live up to the Oxbridge model offering a sanctuary worthy of the classical Greek ideals of male association yet somehow remain true to its legacy of respectable austerity and Puritan self denial The *Crimson Letter* therefore tells stories of great unhappiness and manacled minds as well as stories of triumphant activism and fulfilled promise Shand Tucci brilliantly exposes the secrecy and codes that attended the gay experience showing how their effects could simultaneously thwart and spark creativity He explores in particular the question of gay sensibility and its effect upon everything from symphonic music to football set design to statecraft poetic theory to skyscrapers The *Crimson Letter* combines the learned and the lurid tragedy and farce scandal and vindication and figures of world renown as well as those whose influence extended little farther than Harvard Square Here is an engrossing account of a university transforming and transformed by those passing through its gates and of their enduring impact upon American culture

A Literary Biography of Robin Blaser Miriam

Nichols, 2019-09-06 A Literary Biography of Robin Blaser *Mechanic of Splendor* is the first major study illustrating Robin Blaser's significance to North American poetry The poet Robin Blaser 1925-2009 was an important participant in the Berkeley Renaissance of the 1950s and San Francisco poetry circles of the 1960s The book illuminates Blaser's distinctive responses to and relationships with familiar writers including Robert Duncan Jack Spicer and Charles Olson via their correspondence Blaser contributed to the formation of the serial poem as a dominant mode in post war New American poetry through his work and engagement with the poetry communities of the time Offering a new perspective on a well known and influential period in American poetry Miriam Nichols combines the story of Blaser's life coming from a mid western conservative religious upbringing and his coming of age as a gay man in Berkeley Boston and San Francisco with critical assessments of his major poems through unprecedented archival research This literary biography presents Blaser's poetry and poetics in the many contexts from which it came ranging from the Berkeley Renaissance to the Vancouver scene from surrealism to phenomenology from the New American poetry to the Canadian postmodern from the homoerotic to high theory Throughout Blaser's voice is heard in the excitement of his early years in Berkeley and Boston and the seriousness of the later years where he was doing most of his living in his work

Selected Poems Stephen Jonas, 1973 **Dissonant**

Voices Joseph Pizza, 2023-09-28 *Dissonant Voices* uncovers the interracial collaboration at the heart of the postwar avant

garde While previous studies have explored the writings of individual authors and groups this work is among the first to trace the cross cultural debate that inspired and energized midcentury literature in America and beyond By reading a range of poets in the full context of the friendships and romantic relationships that animated their writing this study offers new perspectives on key textual moments in the foundation and development of postmodern literature in the U S Ultimately these readings aim to integrate our understanding of New American Poetry the Black Arts Movement and the various contemporary approaches to poetry and poetics that have been inspired by their examples Essays on the Peripheries Peter Valente,2021-04-22 Essays on the Peripheries contains essays written by translator and scholar Peter Valente over a twenty year period stretching from the 1990s to 2019 They are a record of literary exploration and discovery concerned with the recovery of lost works with those writers whose works were out of print or hard to find and whose names were somehow not fashionable in the current discourse but who are important nevertheless Edouard Roditi Barbara Barg and Tom Savage for example should be better known but their books are largely ignored This collection of essays highlights those works on the periphery such as Turkish poets Seyhan Er z elik and K k skender while it also includes several essays on better known queer authors like Pierre Guyotat and Pier Paolo Pasolini focusing on often overlooked qualities in their work that bear looking at closely These essays on works of literature are complemented by a number of texts on jazz again highlighting important and interesting figures in the world of jazz and free improvisation that may have fallen through the cracks such as the pianist Richard Twardzick and the Ganelin trio which recorded their great experimental work Ancora da Capo in 1980 behind the Iron Curtain Attention is also given to more popular figures such as Stan Getz The volume is completed with a series of essays reappraising Roman poets in the twenty first century offering fresh new translations and readings of authors such as Catullus and Callimachus A collection of essays like an anthology is by its nature incomplete Essays on the Peripheries is a kind of sketch rather than a finished portrait of the author s changing impressions on various subjects over the years **Postliterary America** Maria Damon,2011-04 p MsoNormal li MsoNormal div MsoNormal margin 0in 0in 0 0001pt font size 12pt font family Times New Roman div Section1 page Section1 In this capacious and challenging book Maria Damon surveys the poetry and culture of the United States in two distinct but inextricably linked periods In part 1 Identity K not e s she considers the America of the 1950s and early 1960s when contentious and troubled alliances took shape between different marginalized communities and their respective but overlapping bohemias Jews African Americans the Beats and gays and lesbians Damon then turns to more contemporary issues and broader topics of poetics in part 2 s Poetics for a Postliterary America which goes on to paint a wider picture dwelling less on close readings of individual poems and more on asking questions about the nature of poetry itself and its role in community formation and individual survival Discussions of counterperformance kinetics the Nuyoricans Latino identity and electronic poetics enliven this section **Amiri Baraka and Edward Dorn** Claudia Moreno Pisano,2013-12-01 From the end of the 1950s through the middle of the 1960s Amiri

Baraka b 1934 and Edward Dorn 1929-99 two self consciously avant garde poets fostered an intense friendship primarily through correspondence The early 1960s found both poets just beginning to publish and becoming public figures Bonding around their commitment to new and radical forms of poetry and culture Dorn and Baraka created an interracial friendship at precisely the moment when the Civil Rights Movement was becoming a powerful force in national politics The major premise of the Dorn Jones friendship as developed through their letters was artistic but the range of subjects in the correspondence shows an incredible intersection between the personal and the public providing a schematic map of what was so vital in postwar American culture to those living through it Their letters offer a vivid picture of American lives connecting around poetry during a tumultuous time of change and immense creativity Reading through these correspondences allows access into personal biographies and through these biographies profound moments in American cultural history open themselves to us in a way not easily found in official channels of historical narrative and memory

Poetry and Work Jo Lindsay Walton, Ed Luker, 2019-11-16 Poetry and Work offers a timely and much needed re examination of the relationship between work and poetry The volume questions how lines are drawn between work and non work how social political and technological upheavals transform the nature of work how work appears or hides within poetry and asks if poetry is work or play or something else completely The book interrogates whether poetry and avant garde and experimental writing can provide models for work that is less alienated and more free In this major new collection sixteen scholars and poets draw on a lively array of theory and philosophy archival research fresh readings and personal reflection in order to consider work and poetry the work in poetry and the work of poetry Individual chapters address issues such as the many professions occupations and tasks of poets beyond and around writing poetry s special relationship with craft work s relationship with gender class race disability and sexuality how work gets recognised or rendered invisible in aesthetic production and beyond the work of poetry and the work of political activism and organising and the notion of poetry itself as a space where work and play can blur and where postwork imaginaries can be nurtured and explored *Black Chant* Aldon Lynn Nielsen, 1997-01-13 A study of postmodernism and African American poets *The Cambridge Companion to Modern American Poetry* Walter Kalaidjian, 2015-01-19 The Cambridge Companion to Modern American Poetry offers a critical overview of major and emerging American poets of the twentieth century *Paratextual Communities* Susan Vanderborg, 2001 Although interest in paratexts has been increasing Paratextual Communities is the first book length study of their role in contemporary American avant garde poetry Sixteen illustrations enhance this book BOOK JACKET Xcp, 2003 **Yours Presently** Michael Seth Stewart, 2024-06-15 Boston born and bred John Wieners was a queer self styled poet maudit who was renowned among his contemporaries but ignored by mainstream critics Twenty first century readers are correcting this elision placing Wieners back alongside his better known peers including Allen Ginsberg Charles Olson Denise Levertov and Amiri Baraka Wieners was a voluble letter writer maintaining friendships with these contemporaries that

spanned decades and tackling a range of complex issues that resonate today including drug use homosexuality subcultures of the East and West Coasts and the differing treatment of mental patients based on their economic class The letters collected in this volume are greatly enhanced by Eileen Myles's preface and Stewart's thorough introduction notes and brief bios of the poets writers artists and editors with whom Wieners corresponded The result is more than the letters of a poet it is a history that explores the world at large in the mid twentieth century

Every Goodbye Ain't Gone Aldon Lynn Nielsen, Lauri Ramey, 2006-02-05 Showcases brilliant and experimental work in African American poetry Just prior to the Second World War and even more explosively in the 1950s and 1960s a far reaching revolution in aesthetics and prosody by black poets ensued some working independently and others in organized groups Little of this new work was reflected in the anthologies and syllabi of college English courses of the period Even during the 1970s when African American literature began to receive substantial critical attention the work of many experimental black poets continued to be neglected Every Goodbye Ain't Gone presents the groundbreaking work of many of these poets who carried on the innovative legacies of Melvin Tolson Gwendolyn Brooks and Robert Hayden Whereas poetry by such key figures such as Amiri Baraka Tolson Jayne Cortez Clarence Major and June Jordan is represented this anthology also elevates into view the work of less studied poets such as Russell Atkins Jodi Braxton David Henderson Bob Kaufman Stephen Jonas and Elouise Loftin Many of the poems collected in the volume are currently unavailable and some will appear in print here for the first time Coeditors Aldon Lynn Nielsen and Lauri Ramey provide a critical introduction that situates the poems historically and highlights the ways such poetry has been obscured from view by recent critical and academic practices The result is a record of experimentation instigation and innovation that links contemporary African American poetry to its black modernist roots and extends the terms of modern poetics into the future

Integral Music Aldon Lynn Nielsen, 2004 An important study of African American contributions to contemporary American poetry Aldon Nielsen's book Black Chant Languages of African American Postmodernism Cambridge University Press 1997 was a ground breaking work of scholarship that examined modern and postmodern developments in the work of African American poets since the Second World War and their contributions to both African American culture and American modernism Integral Music extends the terms of the studies begun in Black Chant through a more in depth look at the work of key writers and poets in the decades following the Second World War While Nielsen examines anew such key figures as Amiri Baraka he also provides the first extended studies of significant but often overlooked figures in African American poetry such as Russell Atkins and Stephen Jonas His essay on Bob Kaufman points toward the critical intersection of poetry and jazz in African American letters as does his essay on performance poet Jayne Cortez Nielsen's studies in this volume affirm the importance and centrality of African American poets to American intellectual life and international modernist and postmodernist poetry today
