Prednisone Challenge describes Pearson's daily struggle not only with the disease but with managing steroid treatment and her painful journey of withdrawing from Prednisone use. She attributes her successful recovery to her long term practice of yoga, a gentle way to optimize the flow of life energy to help a person feel their personal best at any given time. The yoga practices helped her understand the counterintuitive healing purpose of the presence of the autoimmune disease in her life. Though the four year experience was difficult, Pearson realized that PMR was an important and strict teacher who arrived at her door to teach her tolerance and acceptance. In *My Four Year PMR Prednisone Challenge*, Pearson relates how PMR and Prednisone withdrawal was tolerated, embraced and experienced as an opportunity for personal and spiritual transformation.

Comprehensive Men's Mental Health David Castle, David Coghill, 2021-03-11. Although research shows that there is a silent crisis in men's mental health, there remains surprisingly little literature on the subject. This important textbook provides up to date practical and evidence based information on how mental health issues affect men and the way treatments should be offered to them. Key opinion leaders from across the globe have been brought together to offer much needed understanding about the socio-political-economic context of men's lives today as well as ethnic and cultural effects and genetic epigenetic and gene-environment interaction. Clinically focused chapters cover topics such as suicide and self-harm, violence, sociopathy and substance misuse in men, depression, anxiety and related disorders and psychotic and cognitive disorders. The book uses a lifespan approach to assessment and treatment, accounting for age and developmental phase. An invaluable source of information for clinical specialists and trainees in psychiatry, psychology and mental health nursing as well as social workers and occupational therapists.

Steroid Man Adam Frattasio, 2016-10-12. Three years of resolute weightlifting had not gone as planned for this scrawny 18 year old. But it was 1980 and a legal prescription for the magic elixir, anabolic steroids, was just 20. Now he would transform himself while away at college and return home with trophy winning strength and a body like a Greek god. A Charles Atlas magazine ad came to life. That didn't go quite as planned either. This revealing memoir recounts an athlete's experiences with performance enhancing drugs at a time when the public and law enforcement knew little about them. Venturing into the steroid underground, the author used and sold them, was featured in muscle magazines, went under a surgeon's knife and faced interrogation by a federal marshal.

Hog Fever Richard La Plante, 1997-05-15. Richard La Plante began his Harley career with a single small motorcycle. From his misadventure filled trip to Spain to his cross country America ride that ends in tragedy, La Plante shows how a simple hobby can become a life altering obsession.
