Empire and Holy War in the Mediterranean Phillip Williams, 2014-05-12 In the century after 1530 the empires of the Habsburgs of Spain and the Ottoman Turks fought a maritime war that seemed destined to lead nowhere lasting peace was as unlikely as final triumph in part because the salient feature of this conflict was a violent form of piracy practiced by the corsairs of North Africa and Malta It was fundamentally a war of unequal means since the Habsburgs of Spain had too few good warships and the Ottomans too many bad ones Christendom and Islam engaged in a war fought largely through the exercise of private violence the Hospitaller Knights of Malta and ghazi captains of North Africa succeeded in imposing their crusading ethos on the Mediterranean If a degree of futility loomed over these campaigns it was nevertheless true that the Mediterranean witnessed a sustained conflict which in scale and intensity was far greater than that of any contemporary form of warfare at sea Moreover the sea was never abandoned as until at least 1620 large galley fleets continued to patrol the inland sea The raiding methods employed by Elizabethan seadogs like Sir Francis Drake would certainly not have worked in this theatre of arms as the defences in Italy and North Africa were much more formidable than those of the Atlantic Phillip Williams begins with a detailed examination of the oared warships used in these campaigns He then explores the structures of political and military organization and the role of geography and the environment in shaping the fighting stressing that the Italian territories were of vital significance to the Habsburgs of Spain He considers the cultural and historical outlook of protagonists such as the Habsburg rulers Charles V and Philip II and the Ottoman Sultan S leyman the Magnificent examining the extent to which the dictates of prudence triumphed over ideals of performing the service of God Providing a unique perspective on early modern maritime conflict this book will be essential reading for all students and researchers of Mediterranean History and the early modern world *Supporting Gifted and Talented Pupils in the Secondary School* Moira Thomson, 2006-07-27 This is an excellent book which is organised for teachers heads of schools and those specifically involved with very able youngsters Many ideas are provided in this book for teachers to follow in order to render their professional expertise appropriate for helping youngsters with high ability Dr L F Lowenstein Educational Clinical and Forensic Psychological Consultant Using ideas that have been tried and tested in the classroom this book takes a whole school approach to providing appropriate challenge and support for gifted and talented pupils in an inclusive educational setting Packed with practical ideas for meeting the needs of gifted pupils and containing plenty of case studies that show what can be achieved this book also provides advice on Defining and Identifying giftedness and talent Strategies for resolving underachievement by gifted and talented pupils Dual exceptionality and removing barriers to attainment support strategies for gifted and talented pupils in schools and in LEAs different teaching and learning strategies such as differentiation and enrichment devising a tailored curriculum to meet the needs of individual able pupils Gifted and Talented Co ordinators class teachers LEA Advisers and Learning Support Teachers looking for a whole school approach to helping more able pupils develop their abilities to the fullest potential will find this book invaluable Foundations of Sports Coaching Paul E.
