Modernism and Still Life Claudia Tobin, 2020-03-02 This book takes an original approach to still life in modern literature and the visual arts by examining the potential for movement and transformation in the idea of stillness and the ordinary *The Ashgate Research Companion to Dutch Art of the Seventeenth Century* Wayne Franits, 2017-07-05 Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so and the strong contemporary market for works by Dutch masters of the period as well as the public's ongoing fascination with some of its most beloved painters until now there has been no comprehensive study assessing the state of research in the field As the first study of its kind this book is a useful resource for scholars and advanced students of seventeenth century Dutch art and also serves as a springboard for further research Its 19 chapters divided into three sections and written by a team of internationally renowned art historians address a wide variety of topics ranging from those that might be considered

traditional to others that have only drawn scholarly attention comparatively recently **Encyclopedia of the Essay** Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies **Memos from the Besieged City** Djelal Kadir, 2011 This is a historical and critical reassessment of the field of comparative literature the study of cultures and their literary posterity across national borders and historical frontiers at a moment when notions of literacy and culture are under inordinate pressure by predatory globalization and militaristic realpolitik *Batavia's Graveyard* Mike Dash, 2003-05-27 In 1628 the Dutch East India Company loaded the Batavia the flagship of its fleet with a king's ransom in gold silver and gems for her maiden voyage to Java the ship itself was a tangible symbol of the world's richest and most powerful monopoly The company also sent along a new employee to guard its treasure He was Jeronimus Corneliszoon a disgraced and bankrupt man with great charisma and dangerously heretical ideas With the help of a few disgruntled sailors he hatched a plot to seize the ship and her riches The mutiny might have succeeded but in the dark morning hours of June 3 1629 the Batavia smashed through a coral reef and ran aground on a small chain of islands near Australia The captain and skipper escaped the wreck and in a tiny lifeboat they set sail for Java some 1 500 miles north to summon help More than 250 frightened survivors waded ashore thankful to be alive Unfortunately Jeronimus and the mutineers had survived too and the nightmare was only beginning Forms of Enchantment: Writings on Art and Artists Marina Warner, 2018-10-23 An anthology of enlightening writing by an award winning critic that engages with art in its social political and aesthetic contexts Art writing at its most useful should share the dynamism fluidity and passions of the objects of its enquiry argues author Marina Warner in this new anthology Here some of Warner's most compelling writing captures the visual experience of the work of a diverse group of artists with a notable focus on the inner lives of women through an exploration of the range of stories and symbols to which they allude in their work Warner vividly describes this imagery covering the connection with animals in the work of Louise Bourgeois the Catholicism of Damien Hirst performance as a medium of memory in the installations of Joan Jonas and more Rather than drawing on connoisseurship Warner's approach grows principally out of anthropology and mythology Accompanied by illustrations of the works being described Marina Warner's writing unites the imagination of artist writer and reader creating a reading experience that parallels the intrinsic pleasure of looking at art This book will appeal to any student of art history those interested in philosophy feminism and more generally in the humanities *Poverty and Political Culture* Frances Gouda, 1995 The rise of industrial capitalism in nineteenth century Europe brought with it new social questions pauperism

vagabondage unemployment and working class suffering in general Poverty and Political Culture examines the unique ways in which these two profoundly different societies negotiated those issues *The Columbia Guide to the Literatures of Eastern Europe Since 1945* Harold B. Segel, 2003 The Iron Curtain concealed from western eyes a vital group of national and regional writers Marked by not only geographical proximity but also by the shared experience of communism and its collapse the countries of Eastern Europe Poland Hungary Albania Romania Bulgaria and the former states of Yugoslavia Czechoslovakia and East Germany share literatures that reveal many common themes when examined together Compiled by a leading scholar the guide includes an overview of literary trends in historical context a listing of some 700 authors by country and an A to Z section of articles on the most influential writers **Between Fire and Sleep** Jaroslaw Anders, 2009-05-26 A collection of essays representing Anders's thinking over several decades *Between Fire and Sleep* offers a fresh understanding of modern Polish cultural identity *The Rhetoric of Perspective* Hanneke Grootenboer, 2005 Perspective determines how we as viewers perceive painting We can convince ourselves that a painting of a bowl of fruit or a man in a room appears to be real by the way these objects are rendered Likewise the trick of perspective can prevent us from being absorbed in a scene Connecting contemporary critical theory with close readings of seventeenth century Dutch visual culture *The Rhetoric of Perspective* puts forth the claim that painting is a form of thinking and that perspective functions as the language of the image Aided by a stunning full color gallery Hanneke Grootenboer proposes a new theory of perspective based on the phenomenological aspects of non narrative still life trompe l'oeil and anamorphic imagery Drawing on playful and mesmerizing baroque images Grootenboer characterizes what she calls their sophisticated deceit asserting that painting is more about visual representation than about its supposed objects Offering an original theory of perspective's impact on pictorial representation the act of looking and the understanding of truth in painting Grootenboer shows how these paintings both question the status of representation and explore the limits and credibility of perception An elegant and honourable synthesis Keith Miller Times Literary Supplement *The Bourgeois Virtues* Deirdre Nansen, 2024-05-31 First in The Bourgeois Era trilogy A significant contribution to the study of the moral basis of economic life and thought her vision is original Jonathan S. Feinstein Journal of Economic Literature For a century and a half the artists and intellectuals of Europe have scorned the bourgeoisie And for a millennium and a half the philosophers and theologians of Europe have scorned the marketplace The bourgeois life capitalism Menckens booboisie and David Brooks's bobos all have been and still are framed as being responsible for everything from financial to moral poverty world wars and spiritual desuetude Countering these centuries of assumptions and unexamined thinking is Deirdre McCloskey's *The Bourgeois Virtues* a magnum opus that offers a radical view capitalism is good for us McCloskey's sweeping charming and even humorous survey of ethical thought and economic realities from Plato to Barbara Ehrenreich overturns every assumption we have about being bourgeois Can you be virtuous and bourgeois Do markets improve ethics Has capitalism made us better as well as richer Yes yes and yes argues

McCloskey who takes on centuries of capitalism's critics with her erudition and sheer scope of knowledge Applying a new tradition of virtue ethics to our lives in modern economies she affirms American capitalism without ignoring its faults and celebrates the bourgeois lives we actually live High Noon Kant Bill Murray the modern novel van Gogh and of course economics and the economy all come into play in a book that can only be described as a monumental project and a life's work The Bourgeois Virtues is nothing less than a dazzling reinterpretation of Western intellectual history a dead serious reply to the critics of capitalism and a surprising page turner

The Tears of Things Peter Schwenger, 2006 We surround ourselves with material things that are invested with memories but can only stand for what we have lost Physical objects such as one's own body situate and define us yet at the same time they are fundamentally indifferent to us The melancholy of this rift is a rich source of inspiration for artists Peter Schwenger deftly weaves together philosophical and psychoanalytical theory with artistic practice Concerned in part with the act of collecting The Tears of Things is itself a collection of exemplary art objects literary and cultural attempts to control and possess things including paintings by Georgia O'Keeffe and Ren Magritte sculpture by Louise Bourgeois and Marcel Duchamp Joseph Cornell's boxes Edward Gorey's graphic art fiction by Virginia Woolf Georges Perec and Louise Erdrich the hallucinatory encyclopedias of Jorge Luis Borges and Luigi Serafini and the corpse photographs of Joel Peter Witkin However these representations of objects perpetually fall short of our aspirations Schwenger examines what is left over debris and waste and asks what art can make of these What emerges is not an art that reassembles but one that questions what it means to assemble in the first place Contained in this catalog of waste is that ultimate still life the cadaver where the subject/object dichotomy receives its final ironic reconciliation Peter Schwenger is professor of English at Mount St Vincent University in Halifax Nova Scotia He is the author of *Fantasm and Fiction On Textual Envisioning* *Letter Bomb Nuclear Holocaust and the Exploding Word* and *Phallic Critiques Masculinity and Twentieth Century Literature*

Spinoza Ian Buruma, 2024-01-01 Ian Buruma explores the life and death of Baruch Spinoza the Enlightenment thinker whose belief in freedom of thought and speech resonates in our own time An elegant relevant biography of a vital thinker Kirkus Reviews starred review Baruch Benedictus Spinoza 1632-1677 was a radical free thinker who led a life guided by strong moral principles despite his disbelief in an all-seeing God Seen by many Christians as well as Jews as Satan's disciple during his lifetime Spinoza has been regarded as a secular saint since his death Many contradictory beliefs have been attached to his name rationalism or metaphysics atheism or pantheism liberalism or despotism Jewishness or anti-Semitism However there is no question that he viewed freedom of thought and speech as essential to an open and free society In this insightful account the award-winning author Ian Buruma stresses the importance of the time and place that shaped Spinoza beginning with the Sephardim of Amsterdam and followed by the politics of the Dutch Republic Though Spinoza rejected the basic assumptions of his family's faith and was consequently expelled from his Sephardic community Buruma argues that Spinoza did indeed lead a Jewish life a modern Jewish life To Heine Hess Marx Freud and no doubt many
