The Heath Guide To College Writing:

The Heath Guide to College Writing Ralph F. Voss, Michael L. Keene, 1995-01-01 *The Heath Guide to College Writing, Brief* Michael L. Keene, Ralph F. Voss, 1995 *Guide to College Writing Assessment* Peggy O'Neill, Cindy Moore, Brian Huot, 2009-04-15 While most English professionals feel comfortable with language and literacy theories assessment theories seem more alien English professionals often don't have a clear understanding of the key concepts in educational measurement such as validity and reliability nor do they understand the statistical formulas associated with psychometrics But understanding assessment theory and applying it by those who are not psychometricians is critical in developing useful ethical assessments in college writing programs and in interpreting and using assessment results A Guide to College Writing Assessment is designed as an introduction and source book for WPAs department chairs teachers and administrators Always cognizant of the critical components of particular teaching contexts O'Neill Moore and Huot have written sophisticated but accessible chapters on the history theory application and background of writing assessment and they offer a dozen appendices of practical samples and models for a range of common assessment needs Because there are numerous resources available to assist faculty in assessing the writing of individual students in particular classrooms A Guide to College Writing Assessment focuses on approaches to the kinds of assessment that typically happen outside of individual classrooms placement evaluation exit examination programmatic assessment and faculty evaluation Most of all the argument of this book is that creating the conditions for meaningful college writing assessment hinges not only on understanding the history and theories informing assessment practice but also on composition programs availing themselves of the full range of available assessment practices **The Heath Guide to Writing the Research Paper** Gerald P. Mulderig, 1994-01-02 *Exploring the Rhetoric of International Professional Communication* Carl Lovitt, Dixie Goswami, 2020-11-25 Presents a collection of fourteen essays that responds to the need for a more rhetorical conception of professional communication as an international discipline This book challenges the adequacy of relying on preconceived notions about the factors that determine discourse in international professional settings Re-Visioning Composition Textbooks Xin Liu Gale, Fredric G. Gale, 1999-04-23 An exploration of the sometimes tenuous relationship between textbooks and the discipline of composition and rhetoric Re-Visioning Composition Textbooks critically scrutinizes the culture of textbooks from the vantage point of scholars and teachers It examines a variety of textbooks including standard rhetorics handbooks cross cultural anthologies readers technical textbooks and argumentation textbooks Different perspectives are used to discuss the cultures ideologies traditions and the material and political conditions that influence the writing and publishing of these works Contributors raise challenging questions about the relationship between textbooks and the cultures which produce them the discipline of which they are an indispensable part and the classrooms in which they are to have their most tangible effects on teaching and learning **Writing and Speaking in the Technology Professions** David F. Beer, 2003-07-04 An updated edition of the

Publishing in Rhetoric and Composition Gary A. Olson, Todd W. Taylor, 1997-03-13 *Publishing in Rhetoric and Composition* is a collection of essays about the politics and practices of generating scholarship in rhetoric and composition The contributors to this book many of whom are current or past editors of the discipline's most prestigious scholarly journals undoubtedly have their finger on the pulse of composition's most current scholarship and offer invaluable insight into the production and publication of original research They discuss publishing articles and reviews as well as book length projects including scholarly monographs edited collections and textbooks They also address such topics as how composition research is valued in English departments recent developments in electronic publishing the work habits of successful academic writers and the complications of mentoring graduate students in a publish or perish profession An inviting and helpful tone makes this an ideal textbook for research methodology and professional writing courses **From Fidelity to History** Anne-Marie Scholz, 2013-04-01 Scholarly approaches to the relationship between literature and film ranging from the traditional focus upon fidelity to more recent issues of intertextuality all contain a significant blind spot a lack of theoretical and methodological attention to adaptation as an historical and transnational phenomenon This book argues for a historically informed approach to American popular culture that reconfigures the classically defined adaptation phenomenon as a form of transnational reception Focusing on several case studies including the films *Sense and Sensibility* 1995 and *The Portrait of a Lady* 1997 and the classics *The Third Man* 1949 and *The Bridge on the River Kwai* 1957 the author demonstrates the ways adapted literary works function as social and cultural events in history and how these become important sites of cultural negotiation and struggle *Magical Muse* Ralph F. Voss, 2002-04-09 In this unique and engaging collection twelve essays
