

The background of the entire slide is a painting of a forest. In the foreground, a large, dark, gnarled tree trunk curves from the left towards the center. The ground is covered in green grass and foliage. In the background, a body of water is visible, reflecting the sky, which is a mix of white and blue. The overall style is somewhat impressionistic or painterly.

**Envisioning God in the Humanities** Courtney

J. P. Friesen, 2018-11-09 The humanities offer insights into the highest and lowest capabilities of our own natures and at their best they function as prophetic champions of human dignity and as inspired celebrants of beauty Envisioning God in the Humanities pays tribute to the career of Melissa Harl Sellew a scholar and teacher who embodies the ideals of these academic disciplines The collaboration of these essays attests to the potentialities for transcendence that emerge from rigorous and collective reflection on the texts images and ideas produced in ancient societies Taking its cue from Professor Sellew s own distinguished scholarship this collection of studies begins with analyses of the New Testament Gospels then moves more broadly toward the religious life of the ancient world as attested both in literature and materiality among Jews and Christians Greeks and Romans Just as Sellew has done throughout her career so this volume invites us into to the joy of exploring distant societies and in so doing into the fuller discovery of one s own self **Earth Spirit: Healthy Planet** Fred Hageneder, 2022-01-28

Healthy Planet offers a clear and concise overview of the global ecological crisis that humanity has brought upon itself and what options we still have to save a benevolent climate to restore biodiversity reduce pollution and heal the ecosphere of this planet including ourselves Since well before the Covid 19 crisis the United Nations have been emphasizing that only a healthy planet can support healthy people The degradation and pollution of nature also poisons our own bodies Climate breakdown and the global loss of biodiversity also threaten the human species But what is a healthy planet How does it work how much do we disrupt the planet s life support systems and what changes are overdue We have all the necessary means at our disposal though just patching up the worst symptoms won t do anymore we have to address the underlying causes including our habits values and paradigms We are at a crucial crossroads and time is running short If we act fast enough a dignified and truly sustainable healthy future awaits *Past Minds* Luther H Martin, Jesper Sørensen, 2016-06-16

How do historians understand the minds motivations intentions of historical agents What might evolutionary and cognitive theorizing contribute to this work What is the relation between natural and cultural history Historians have been intrigued by such questions ever since publication in 1859 of Darwin s *The Origin of Species* itself the historicization of biology This interest reemerged in the latter part of the twentieth century among a number of biologists philosophers and historians reinforced by the new interdisciplinary finding of cognitive scientists about the universal capacities of and constraints upon human minds The studies in this volume primarily by historians of religion continue this discussion by focusing on historical examples of ancient religions as well as on the theoretical promises and problems relevant to that study **The Afterlife in Early Christian Carthage** Stephen E. Potthoff, 2016-12-01

The Afterlife in Early Christian Carthage explores how the visionary experiences of early Christian martyrs shaped and informed early Christian ancestor cult and the construction of the cemetery as paradise Taking the early Christian cemeteries in Carthage as a case study the volume broadens our understanding of the historical and cultural origins of the early Christian cult of the saints and highlights the often divergent views about the dead and post mortem realms expressed by the church fathers and in

graveside ritual and the material culture of the cemetery This fascinating study is a key resource for students of late antique and early Christian culture

SHARED IDENTITY AND PHILOSOPHICAL HERITAGE: THE HISTORY OF THOUGHT IN TURKIC CULTURE MAHIRA HUSEYNOVA, ELVIN TALISHINSKY, BAHA AHMET YILMAZ, FERAHILA BABAYEVA-SHUKUROVA, SHAHISMAYIL ISMAYILOV, CIHANGIR ISHBILIR, 2025-08-25 The history of world philosophical thought is mainly based on the study and presentation of the development path of Western philosophy There is an objective reality here Because in Europe philosophy emerged at the level of science even before our era and developed at a great speed The famous Plato Academy which operated in Ancient Greece played an important role in the history of world philosophical thought The names and services of Socrates who is considered the teacher of Western philosophy and Aristotle whom Platos Academy gave to humanity are famous in the world For many years Aristotle has been considered the most powerful representative of world philosophical thought The foundations of the vast majority of scientific fields that exist in the modern world today were laid by Aristotle In the Middle Ages and later periods Western philosophy also had world renowned philosophers such as Georg Hegel Immanuel Kant Friedrich Nietzsche and others Along with all this philosophical thought in the Turkic world has emerged since ancient times and has undergone its own unique development However for several reasons the study and teaching and even the promotion of Turkish philosophical thought has remained in the background First of all since Turkish philosophical thought in ancient times arose and developed mainly through oral folk literature and folklore examples are rightly considered examples of fiction it has not been studied from a philosophical perspective for a long time In my opinion in the light of independence there is a sufficiently rich material for conducting research on philosophical thought in the oral folk literature of each of the Turkic peoples and writing monographs Secondly the socio political and philosophical movements of the Turkic peoples in ancient times and the Middle Ages were largely criticized and not included in the scope of scientific research during the

Soviet era which was a strictly atheist society because they were of a religious nature Movements such as Hurufism and Sufism which had been active for a long time in the Middle Ages were generally considered religious vi mystical teachings and presented as reactionary movements outside the scientific circulation Thirdly since the concept of national philosophy was limited during the Soviet period and only the direction of forming a unified Soviet socio philosophical thought was considered a priority the history of philosophical thought of the Turkic peoples was not even remembered Only since the eighties of the 20th century have efforts been made to bring the history of philosophical thought of individual Turkic peoples including Azerbaijan to the agenda In any case the department of History of Azerbaijani Philosophical Thought is one of the relatively young scientific institutions of the Institute of Philosophy and Sociology of ANAS As is known since the period of independence along with the history of world philosophical thought a certain revival has been observed in the field of studying the path of development of the philosophical thought of the Turkic peoples However this process has been developed over the past thirty years with the expansion of the tendency to study the history of philosophical thought of each of the Turkic peoples separately Thus dissertations monographs and articles dedicated to the history of philosophical thought of the Turkic Uzbek Kazakh Kyrgyz Turkmen peoples as well as the history of philosophical thought of Azerbaijan or the scientific heritage of those who created philosophy in those peoples have begun to appear mainly since the period of independence This in turn has brought to mind the necessity of the emergence of the concepts of the history of all Turkic philosophical thought or Turkish philosophy

#### **Spiritual Heritage and Cultural Symbols of India** Jhaver P.

Shreenivas,1999-01-01 This book highlights attainable spiritual virtues in modern times To give body and force to the narrations on every topic authentic information about experiments conducted by eminent world scientists and clairvoyants is included instead of abstract reasoning arguments The book will fascinate the young and the old Indian and foreigner Hindu and non Hindu alike Cultural symbols are emblems of divine and human sovereignty over temporal life A symbol must necessarily suggest more than what it expresses Every symbol is pragmatic like a tiny seed which proclaims its potentiality of becoming a blooming tree A careful look at the symbols opens up a vista of knowledge and the success achieved in revealing the mysteries of Nature in Universe

The Cultural Landscape & Heritage Paradox Tom Bloemers,Henk Kars,Arnold Van der Valk,2010 The basic problem is to what extent we can know past and mainly invisible landscapes and how we can use this still hidden knowledge for actual sustainable management of landscape s cultural and historical values It has also been acknowledged that heritage management is increasingly about the management of future change rather than simply protection This presents us with a paradox to preserve our historic environment we have to collaborate with those who wish to transform it and in order to apply our expert knowledge we have to make it suitable for policy and society The answer presented by the Protection and Development of the Dutch Archaeological Historical Landscape programme pdl bbo is an integrative landscape approach which applies inter and transdisciplinarity establishing links between archaeological

historical heritage and planning and between research and policy
