Contact with Alien Civilizations Michael Michaud, 2010-05-05 The proper study of mankind is not merely Man but Intelligence 1 Arthur C Clarke 1951 In the long running television series The X Files the original Deep Throat said to FBI Special Agent Mulder that there are those like yourself who believe in the existence of extraterrestrial life Ah but that's not the question If extraterrestrial life exists most of it may be in simpler forms comparable to the one celled organisms of Earth biology Finding such life would be fascinating for scientists but may be of only passing interest to the general public What intrigues the average citizen is the possibility of contact with extraterrestrial intelligence We want to communicate with other sentient beings learning what they know and telling them about ourselves We want to find out how they are like us and how they are different

Microorganisms don't have a lot to say There is another implication of contact that underlies this book Intel gent extraterrestrials might have an impact on our future The information they send us if any might change our cultures They could have conscious intentions toward us and possibly the technologies to reach us directly Their intentions may be benign or not Our interest in alien minds is not new The idea that intelligent beings exist beyond the Earth has been part of the Western intellectual tradition for more than 2000 years Sometimes this belief was widespread at other times it was out of fashion
