Event of Signature Michaela Fiserova,2022-08-01 Event of Signature formulates a new philosophical problem which focuses on the handwritten signature as sign of legal identification Author Michaela Fiserova works with three metaphysical expectations which are shared in discourses of graphology and forensic analysis The first expectation tends to reveal the signer s soul a handwritten signature naturally mirrors the unique psychological qualities of the signer The second expectation tends to guarantee the originality of the signer s trace a handwritten signature proves physical contact between the signed document and the writing tool authentically moved by the signer s hand The third expectation tends to recognize the signer s legal identity a handwritten signature is expected to reproduce the signer s personal style which enables identification by legal authorities In a methodologically inventive and semiotically based dialogue with Derrida s deconstruction Fiserova situates this triple expectation in the interval between life and law Challenging coverage of this topic finally shows that none of the metaphysical expectations will ever be fulfilled in the event of manual signing Legal uses of handwritten signature are characterized by the complex aporia of repeating the unrepeatable

Anastasia Again: the Hidden Secret of the Romanovs J Froebel-Parker,2020-04-29 In 2018 the author published the first edition of *Anastasia Again The Hidden Secret of the Romanovs* to coincide with the centenary of the alleged massacre of the Romanov family in Ekaterinburg Russia After many years of interest in the claims of the woman known as Evgenia Smetisko at times Eugenia Smith or even Eugenie Smetisko he began to give credibility to her claim that she had been the youngest daughter of Tsar Nicholas II and his wife Empress Alexandra Had she died with the entire family

Had any others survived or even as some contemporary researchers allege had they all escaped By reexamining Smetisko s memoirs published in 1963 researching the people who received her in the USA and scrutinizing her claims a new narrative emerged one of a woman living cleverly under an assumed name to protect her true identity 2D 3D visual face recognition under the guidance of technology founder Robert Bob Schmitt offered even more evidence that she had been telling the truth all along just as CIA polygraph lie detector unit founder Grover Cleve Backster had declared in 1963 after subjecting Smetisko Anastasia to 30 hours of polygraph testing This edition offers readers the opportunity to review evidence and question the hitherto official albeit sacrosanct version of history with which we are all well acquainted **Language Myths,**
