Albert A Gayle

Stepfamilies Understanding Social Issues S:

Understanding Stepfamilies Craig Everett, 2014-06-03 Understanding Stepfamilies takes a large step toward achieving integration of the many variables presented in understanding the stepfamily system The book examines the dynamics and resources within these complex family systems It helps clinicians and researchers understand the underlying structural patterns and dynamics of stepfamilies promoting more successful positive treatment outcomes Chapters in Understanding Stepfamilies offer clinicians and researchers an international perspective including contributions from the U S Canada Israel and The Netherlands Readers learn of unique theoretical approaches to understanding stepfamily typologies and behaviors and specific clinical models for assessment and intervention as well as more empirically based findings regarding parent child interactions

Stepfamilies Marvin B Sussman, 2020-04-01 Stepfamilies History Research and Policy examines language use laws cultural stereotypes media images and social policies and practices to create an understanding of how predominant views about stepfamilies and stepfamily members are constructed within society As the rates of divorce and remarriage continue to increase it is more important than ever to overcome nuclear family ideology and abandon the model of research that compares stepfamilies with nonstepfamilies This book shows you how honor and empowerment can be attained in new family structures and how alternative kin networks can be just as healthy as the traditional nuclear family unit As this book examines the ability of different societies to integrate different family forms into mainstream notions of family you will realize the damaging effects of treating stepfamilies as incomplete undesirable institutions In fact Stepfamilies History Research and Policy will challenge your notions of family over and over again as it discusses key relationships in stepfamilies stepfather involvement in parenting after remarriage meaning of gender in a stepfamily differences in investment between biological and nonbiological parents demographic change and significant shifts in the social and cultural implications of stepfamilies attempting to reconstruct a household like that of a previous marriage the impact of stereotypes on the internal dynamics of stepfamilies and on the interactions of stepfamilies with outsiders the absence of guidelines and cultural norms for role performance and problem solving in stepfamilies Stepfamilies History Research and Policy discusses both the difficulties of forming new families and households as well as the factors that promote family cohesiveness and integration in stepfamilies From stereotypes of stepmothers to ambiguous legal relationships to child maltreatment in stepfamilies to sibling relations there isn't much that the penetrating lens of this book leaves uncovered

Brave New Stepfamilies Susan D. Stewart, 2006-12-20 Brave New Stepfamilies maps the changing landscape of American stepfamilies taking readers on a tour through the diverse assortment of traditional and not so traditional stepfamily forms that have emerged in recent years Author Susan D Stewart presents the latest scholarly research on stepfamilies in an accessible way weaving together predominant theoretical perspectives findings from research and national surveys and interviews with stepfamily members

Family Communication Chris Segrin, Jeanne Flora, 2004-09-22

This advanced text carefully examines state of the art research and theories of family communication and family relationships. In addition to presenting cutting edge research authors Chris Segrin and Jeanne Flora focus on classic theories and research findings that have influenced and revolutionized the way scholars conceptualize family interaction. Showing that answers to many questions about family communication can be found in current scientific research the book introduces readers to fundamental issues in the study of family communication. Explores what is known about communication in different types of families and family relationships and examines problematic issues in family communication. Family Communication offers a thorough and up to date presentation of scientific research in family communication for students and teachers of family communication as well as professionals who work with families. Undergraduate readers will find the text to be accessible, engaging and easy to understand while graduate students and professionals will utilize the work as a comprehensive reference to classic and contemporary research on family communication and relationships. **EBOOK: Understanding**

Stepfamilies: A practical guide for professionals working with blended families Lisa Doodson, 2016-04-16. Despite the growing number of stepfamilies and the recognition that they experience unique difficulties related to their complex family dynamics there is very little support available to them. In this practical evidence based guide Lisa Doodson offers a valuable resource for professionals working with stepfamilies giving insight into their unique nature and guidance on how to provide more effective support and advice. In addition to the wealth of research and knowledge that the book shares there are a range of case studies which illustrate issues that the different types of stepfamilies frequently face. Each chapter also contains practical tools and exercises that professionals can use with their clients to help facilitate change in the family unit as well as interventions including mediation and group workshops and more traditional counselling techniques.

Understanding Stepfamilies is a must have resource for counsellors and therapists, social workers, local authorities, charities and teaching professionals working with stepfamilies. Stepfamily Relationships Lawrence Ganong, Marilyn

Coleman, 2016-07-15. This second edition synthesizes the emerging knowledge base on the diversity of stepfamilies, their inherent concerns and why so relatively little is still known about them. Its extensive findings shed needed light on family arrangements relatively new to the literature e.g. cohabitating stepparents, the effects of these relationships on different family members e.g. stepsiblings, stepgrandparents, the experiences of gay and lesbian stepfamilies and the stigma against non nuclear families. Coverage reviews effective therapeutic and counseling interventions for emotional, familial and social challenges of stepfamilies as well as the merits of family education and self help programs. The authors explore prevailing myths about marriage, divorce and stepfamily life while expanding the limits of stepfamily research. Among the topics included: The cultural context of stepfamilies, Couple dynamics in stepfamilies, Gay and lesbian couples in stepfamilies, The dynamics of stepparenting, Siblings, half siblings and stepsiblings, Effects of stepfamily living on children, Clinical perspectives on stepfamily dynamics. For researchers and clinicians who work with families it enriches the literature as it offers insights

and guidelines for effective practice as well as possible avenues for future research **Becoming A Stepfamily** Patricia L. Papernow, 2015-07-17 What determines whether stepfamilies remain together What helps stepfamilies overcome the difficulties of remarriage and become mutually supportive family units How can mental health professionals better support this development This book brings both clarity and depth to the unique and complex dynamics of remarried families Patricia Papernow draws on interviews with over 100 stepfamily members up to date research a solid theoretical framework and an empathic clinical sensibility to present an insightful model of stepfamily development the Stepfamily Cycle This details account of the sages of forming a lasting cohesive group is richly illustrated by stepfamily members own stories Becoming a Stepfamily describes the developmental challenges involved in building nourishing reliable relationships between stepparents and stepchildren in the newly married couple and between different family groups who must learn to live together in a remarried family Papernow discusses the factors that influence the pace and ease of development and she provides four full length case studies illustrating the varied paths through the stepfamily cycle to the successful remarried life The author offers therapists clergy school personnel and others involved with stepfamilies a range of effective interventions including preventive educational and clinical approaches She provides practical guidance for helping family members deal constructively with the differing attachments of children to their biological parents and stepparents assisting stepparents as they cope with feeling excluded from the powerful biological parent child bond and guiding biological parents torn between their spouse s need for intimacy and privacy and their children s needs for support and attention

Stepfamilies Roni Berger, 2020-04-01 Combining theoretical empirical and clinical knowledge Stepfamilies A Multi Dimensional Perspective contains recent research and information that will help mental health practitioners family therapists psychologists and counselors understand the characteristics dynamics needs and issues of nonclinical stepfamilies Based on direct experiences with diverse types of stepfamilies this book gives you new guidelines and strategies that will enable you to offer more successful sessions to your clients and improve your effectiveness as a practitioner Developed to give you a more realistic understanding of stepfamilies this text helps you avoid the stereotypes and false perceptions that often surround stepfamilies Offering methods and strategies aimed at making your clients feel comfortable about themselves and their situations Stepfamilies A Multi Dimensional Perspective examines several aspects of these families that you need to know in order to improve your effectiveness with them including the definition and description of stepfamilies and recognizing historical and social changes in the stepfamily structure critical reviews on the present knowledge of stepfamilies describing the complexity of family structure the ambiguity of boundaries and roles and the struggle with the diverse phases of the life cycle discussing key issues for stepfamilies such as past orientation and acceptance rejection of differences from non stepfamilies and focal subsystems the profile characteristics and case studies of an innovative typology of stepfamilies that includes integrated families invented families and imported families aspects of ethnically and culturally different stepfamilies

including American stepfamilies Israeli stepfamilies and immigrant stepfamilies from the former Soviet Union social perceptions and attitudes of stepfamilies in schools social services community organizations the media and with the law Offering case studies and data on a variety of families and situations Stepfamilies A Multi Dimensional Perspective will show you that all stepfamilies are not the same and cannot be helped by just one practice method Complete with principles and instruments to assess patients and the success of sessions Stepfamilies A Multi Dimensional Perspective works to promote an understanding of stepfamilies that will result in effective and positive therapy for your clients *Intervening for Stepfamily Success* Joshua M. Gold, 2019-04-29 This welcome resource provides concrete examples of how to apply multiple family systems theories and treatment planning to common stepfamily issues A single stepfamily case study is examined through the lenses of the Adlerian transgenerational prescriptive play therapy structural cognitive behavior solution focused and narrative models to provide an understanding of the benefits of each approach and how to determine the best fit for a stepfamily s presenting issues In addition each chapter examines ethical concerns specific to counseling stepfamilies issues of diversity and current research on stepfamily assessment and therapeutic outcomes Requests for digital versions from ACA can be found on www.wiley.com To request print copies please visit the ACA <https://imis.counseling.org/store/detail> Reproduction requests for material from books published by ACA should be directed to publications@counseling.org

Stepping In, Stepping Out Joshua M. Gold, 2015-11-17 This much needed resource offers insight into building and maintaining satisfying and successful stepfamily relationships As the number of stepfamilies continues to increase counselors and other mental health professionals are likely to encounter clients seeking help in navigating these often complicated relationships In this book Dr Gold emphasizes the principles and practices of narrative therapy as a means to address key concerns within the family system reauthor dominant social myths surrounding stepfamily life and create realistic treatment plans that are inclusive of all members of the family Detailing the inherent strengths and challenges of the stepfamily experience he provides an in depth examination of the roles of each member in a blended family including stepfathers and stepmothers ex spouses grandparents and children This book is an excellent guide to thoughtful practical and empirically validated interventions for helping stepfamilies thrive Requests for digital versions from ACA can be found on www.wiley.com To purchase print copies please visit the ACA website Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org *Stepfamily Relationships* Lawrence H. Ganong, Marilyn Coleman, 2011-06-27 This volume focuses on a wide range of behaviors and outcomes in stepfamily relationships both positive and negative The authors use the normative adaptive perspective to seek out and study adaptive well functioning stepfamilies and find how they differ from those who struggle to cope It will be a welcome text and reference for all those who study and work with stepfamilies and families in general *The Child Psychotherapy Treatment Planner* Arthur E. Jongsma, Jr., L. Mark Peterson, William P. McInnis, Timothy J. Bruce, 2023-02-14 Now in its sixth edition The Child

Psychotherapy Treatment Planner is an essential reference used by clinicians around the country to clarify simplify and accelerate the patient treatment planning process The book allows practitioners to spend less time on paperwork to satisfy the increasingly stringent demands of HMOs managed care companies third party payors and state and federal agencies and more time treating patients face to face The latest edition of this Treatment Planner offers accessible and easily navigable treatment plan components organized by behavioral problem and DSM 5 diagnosis It also includes Newly updated treatment objectives and interventions supported by the best available research New therapeutic games workbooks DVDs toolkits video and audio to support treatment plans and improve patient outcomes Fully revised content on gender dysphoria consistent with the latest guidelines as well as a new chapter on disruptive mood dysregulation disorder and Bullying Victim An invaluable resource for practicing social workers therapists psychologists and other clinicians who frequently treat children The Child Psychotherapy Treatment Planner Sixth Edition is a timesaving easy to use reference perfectly suited for busy practitioners who want to spend more time focused on their patients and less time manually composing the over 1000 pre written treatment goals objectives and interventions contained within **Stepfamilies** G. Allan, G. Crow, S.

Hawker, 2011-02-08 Drawing on recent developments within the sociology of family life this book examines family connection and solidarity within different stepfamily networks focusing on relationships from a kinship perspective and using case studies of people's experiences to explore how family connection is constructed within different stepfamilies American Stepfamilies William R. Beer, While statistics indicate that nearly half of all first marriages in America today terminate in divorce more than three quarters of these divorces also result in remarriage producing stepfamilies Although they have become increasingly common stepfamilies are still poorly understood by stepfamily and non stepfamily members alike This book looks at the internal and external dynamics of this new family form taking the reader through a series of case studies and examining characteristic pitfalls and opportunities The author begins by comparing the basic building block of the stepfamily the remarried couple to the first married couple In successive chapters the structure of the stepfamily is considered in terms of increasing complexity from the simplest in which one of the partners has never married before and has no children to the most complex yours and ours stepfamilies in which there are children from both previous marriages and the present one The author probes the conflicts that arise between parents and children and among stepsiblings and explores the different strategies that stepfamilies devise for resolving these tensions In the later chapters the sociohistorical origins of today's stepfamilies are traced in terms of changing values and new technologies Professor Beer argues that stepfamilies are proliferating as a result of attitudes and patterns of behavior that more than ever encourage divorce and remarriage He demonstrates on the basis of large scale evidence that stepfamilies produce children who are just as well adjusted as children brought up by both biological parents and that they will turn out to be adults who are almost as socially well adapted as those from conventional families The author concludes that stepfamilies are types of families in their own

right with foreseeable difficulties and rich rewards *Retrospect and Prospect in the Psychological Study of Families* James P. McHale, Wendy S. Grolnick, 2001-10 This vol is designed to review the knowledge base of family psychologists from a broader perspective than that of specific research programs Intended readers include family psychologists as well as sociologists anthropologists clinicians and policymakers *Reimagining Stepmother* Patrycja Sosnowska-Buxton, 2025-05-23 Stepmothers often battle with a range of negative myths and stereotypes with Cinderella's wicked stepmother being the most infamous Drawing on 20 in depth interviews with British stepmothers this book reimagines the expectations practices and position of stepmothers through a feminist sociological lens Combining firsthand accounts including the author's own experiences the book reveals the complexities of stepfamily dynamics and how stepmothers navigate them By examining the interplay between personal experiences and broader gendered historical and social structures the author offers a fresh perspective on contemporary stepmothers and stepfamilies *Handbook of Family Therapy* Thomas L. Sexton, Jay Lebow, 2015-12-07 Integrative research based multisystemic these words reflect not only the state of family therapy but the nature of this comprehensive handbook as well The contributors all well recognized names who have contributed extensively to the field accept and embrace the tensions that emerge when integrating theoretical perspectives and science in clinical settings to document the current evolution of couples and family therapy practice and research Each individual chapter contribution is organized around a central theme that the integration of theory clinical wisdom and practical and meaningful research produce the best understanding of couple and family relationships and the best treatment options The handbook contains five parts Part I describes the history of the field and its current core theoretical constructs Part II analyzes the theories that form the foundation of couple and family therapy chosen because they best represent the broad range of schools of practice in the field Part III provides the best examples of approaches that illustrate how clinical models can be theoretically integrative evidence based and clinically responsive Part IV summarizes evidence and provides useful findings relevant for research and practice Part V looks at the application of couple and family interventions that are based on emerging clinical needs such as divorce and working in medical settings Handbook of Family Therapy illuminates the threads that are common to family therapies and gives voice to the range of perspectives that are possible Practitioners researchers and students need to have this handbook on their shelves both to help look back on our past and to usher in the next evolution in family therapy *Stepfamilies* Alan Booth, Judy Dunn, Judith F. Dunn, 2014-04-08 Stepfamilies represent an increasing number of American households and shape the upbringing of countless stepchildren Despite their prominence in society our knowledge about these families is very limited To address this deficit the editors have drawn together the work of 16 nationally known scholars to deal with four questions Marriages that create stepfamilies Why do they occur Fail Succeed How do stepfamilies function as child rearing environments How do stepfamilies function as sources of support in later life Building research and policy agendas What is needed In seeking answers to these questions the book bridges the disciplines

of psychology sociology social psychology child development demography law and policy Readers will gain an understanding of the current knowledge about stepfamilies obtain an appreciation of the diverse views on a variety of stepfamily issues learn about existing and anticipated laws and policies that affect stepfamilies and acquire ideas on needed research and policy agendas Chapter authors are leading figures in psychology sociology demography human development and family law their contributions are valuable to researchers teachers and students as well as policymakers and legislatures **Children Today** ,1980 **The Practitioner's Guide to Working with Families** Margaret Bell,Kate Wilson,2017-03-14 This book offers a clear and coherent guide to working with families for practitioners and students in social work health counselling and related professions It brings together recent thinking on the historical and contemporary constructions of the family in such a way as to provide a helpful framework for practitioners working in a variety of settings in the field It offers up to date information on political legislative and theoretical frameworks and it reviews and illustrates a wide range of approaches and practice skills for working with families with different problems in different contexts
