Steppingstones Toward an Ethics for Fellow Existors E. Spiegelberg, 1986-03-31 A Critical Examination of Ethics in Health Care and Biomedical Research Richard M. Zaner, 2015-06-11 This book is a critical examination of certain basic issues and themes crucial to understanding how ethics currently interfaces with health care and biomedical research Beginning

with an overview of the field it proceeds through a delineation of such key notions as trust and uncertainty dialogue involving talk and listening the vulnerability of the patient against the asymmetric power of the health professional along with professional and individual responsibility It emphasizes several themes fundamental to ethics and health care 1 the work of ethics requires strict focus on the specific situational understanding of each involved person 2 Moral issues at least those intrinsic to each clinical encounter are presented solely within the contexts of their actual occurrence therefore ethics must not only be practical but empirical in its approach 3 Each particular situation is in its own way imprecise and uncertain and the different types and dimensions of imprecision and uncertainty are critical for everyone involved 4 Finally medicine and health care more broadly are governed by the effort to make sense of the healer's experiences with the patient whose own experiences and interpretations are ingredient to what the healer seeks to understand and eventually treat In addition to providing a way to develop ethical considerations in clinical life and research projects the book proposes that narratives provide the finest way to state and grapple with these themes and issues whether in classrooms or real life situations It concludes with a prospective analysis of newly emerging issues presented by and within the new genetics which together within a focus on the phenomenon of birth leads to a clearer understanding of human life

The Problem of Religious Experience Olga Louchakova-Schwartz, 2020-01-28 For a long time the philosophically difficult topic of religious experience has been on the sidelines of phenomenological research with a notable exception of Anthony Steinbock who focused on mysticism The book *The Problem of Religious Experience Case Studies in Phenomenology with Reflections and Commentaries* brings together preeminent as well as emerging voices in the field with fresh views on the topic Originating from dialogues of the Society for the Phenomenology of Religious Experience these two volumes cover a spectrum of phenomenological approaches with a thematization of the field in the form of case studies Contributions from theology comparative religion psychology and the philosophy of religion come together in the commentaries and meta narrative written by Olga Louchakova Schwartz the editor Volume I *The Primeval Showing of Religious Experience* examines religious experience with regard to its lived interiority in light of the problem of the ego cogito including the recent research on the embodiment of subjectivity and phenomenological materiality Volume I also sheds light on religious experience in regard for the problems of its constitution passive synthesis the world and otherness Volume II *Doxastic Perspectives in the Phenomenology of Religious Experience* addresses the phenomenology of revelation shows how different approaches treat the question of essence in religious experience i.e. what is it that makes religious experience religious and demonstrates how religious experience contributes to the psychological horizon of meaning The book identifies the growing edges in the phenomenological research of religious experience and is useful for psychologists philosophers and theologians alike The two volumes offer an excellent interdisciplinary introduction to the phenomenon of religious experience The case studies presented in them are arranged under the central topics of self alterity revelation and psychological aspects of religious

experience and provide outstanding examples of applied phenomenology Hans Rainer Sepp Charles University Prague and Central European Institute of Philosophy In the context of the return of religion this book offers both a timely and necessary contribution to confront the peculiarities of religious experience Providing readers with applied phenomenological descriptions in an interdisciplinary spirit these debates will prove stimulating for a resurgent field of research that is starting to refine its conceptual devices and methodological presuppositions University of Vienna

Phenomenology World-Wide

Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology's universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect them This is the aim of the present book resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl's project of a universal science unpacking all its creative capacities In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the intersubjective lifeworld and beyond The key concepts and phases of Husserl's thought are here exfoliated Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated Phenomenology's geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has enriched the human sciences Lastly the phenomenological project's new horizons on the plane of life are limned horizons with so powerful a draw that they may be said not to beckon but to summon Here is the movement's vanguard This collection has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names

Conversations on the Edge Richard M. Zaner, 2004-01-08 At the edge of mortality there is a place where the seriously ill or dying wait a place where they may often feel vulnerable or alone For over forty years bioethicist cum philosopher Richard Zaner has been at the side of many of those people offering his incalculable gift of listening and helping to lighten their burdens not only with his considerable skills but with his humanity as well The narratives Richard Zaner shares in Conversations on the Edge are informed by his depth of knowledge in medicine and bioethics but are never clinical A genuine and caring heart beats underneath his compassionate words Zaner has written several books in which he tells poignant

stories of patients and families he has encountered there is no question that this is his finest In *Conversations on the Edge* Zaner reveals an authentic empathy that never borders on the sentimental Among others he discusses Tom a dialysis patient who finally reveals that his inability to work encouraged by his overprotective mother is the source of his hostility to treatment Jim and Sue young parents who must face the nightmare of letting go of their premature twins one after the other Mrs Oland whose family refuses to recognize her calm acceptance of her own death and in the final chapter the author's mother whose slow demise continues to haunt Zaner's professional and personal life These stories are filled with pain and joy loneliness and hope They are about life and death about what happens in hospital rooms and that place at the edge when we confront mortality It is the rarest of glimpses into the world of patients their families healers and those who struggle like Zaner to understand

Perceiving Truth and Value Markus Mühling, David Andrew Gilland, Yvonne Förster, 2019-11-11 The theme of this volume is the question of value perception It is discussed from different philosophical psychiatric theological and anthropological perspectives The thesis that unites all the papers is the recognition that we live in a relational dynamic world in which we primarily perceive and that to dissolve values from facts is fundamentally misleading both in theory as in life The contributions are the outcome of an energetic conference in 2016 where the problems at stake were rigorously discussed The results are presented here and they have an explicit order and are strictly related It opens with basic questions and observations then critical opinions and objections come into play after which the outline of a larger theory of value perception is presented and at the end some concrete examples from material practices are drawn **Transversal**

Rationality and Intercultural Texts Hwa Yol Jung, 2011-04-22 Transversality is the keyword that permeates the spirit of these thirteen essays spanning almost half a century from 1965 to 2009 The essays are exploratory and experimental in nature and are meant to be a transversal linkage between phenomenology and East Asian philosophy Transversality is the concept that dispels all ethnocentrism including Eurocentrism In the globalizing world of multiculturalism Eurocentric universalism falls far short of being universal but simply parochial at the expense of the non Western world Transversality is intercultural interspecific interdisciplinary and intersensorial Transversal Rationality and Intercultural Texts means to transform the very way of philosophizing itself by infusing or hybridizing multiple traditions in the history of the world Like no other scholar Jung bridges the gap between Asian and Western cultures By engaging Western philosophers as diverse as Bacon Descartes Heidegger Hegel Merleau Ponty Derrida Glissant Barthes Fenollosa McLuhan and Eastern philosophers such as Wang Yang ming Nishida Kitaro Nishitani Keiji Watsuji Tetsuro Nhat Hanh and Suzuki Daisetz Teitaro this book marks an unparalleled contribution to comparative philosophy and the study of philosophy itself The Reception of

American Philosophy Pragmatism and with Analytic Philosophy Starting from the analysis of how the first American Scholars of Edmund Husserl's thought opened the door to the reception of his texts the book explores the first encounters between Pragmatism and Husserlian Phenomenology in American Universities The study focuses then on those Scholars who fled from Europe to America from 1933 onwards to escape Nazism Felix Kaufmann Alfred Schutz Aron Gurwitsch Herbert Spiegelberg Fritz Kaufmann among the most notable and illustrates how their teaching provided the very basis for the spreading of Husserlian Phenomenology in North America The volume examines then the action of the 20th Century North American Husserl Scholars together with those places societies centers and journals specifically created to represent the development of the studies devoted to Husserlian Phenomenology in the U S with a focus of the Regional Phenomenological Schools

Handbook of Phenomenology and Medicine S. Kay Toombs, 2012-12-06 As the fields of philosophy of medicine and bioethics have developed in the United States the philosophical perspective of phenomenology has been largely ignored Yet the central conviction that informs this volume is that phenomenology provides extraordinary insights into many of the issues that are directly addressed within the world of medicine Such issues include the nature of medicine itself the distinction between immediate experience and scientific conceptualization the nature of the body and the implications of embodiment in the realm of clinical practice the meaning of health illness and disease the problem of intersubjectivity particularly with respect to achieving successful communication with another the complexity of decision making in the clinical context and in the realm of medical ethics the possibility of empathic understanding the theory and method of clinical practice and the essential characteristics of the therapeutic relationship i e the relationship between the sick person and the one who professes to help Some of the authors who have contributed to this volume are philosophers some are engaged in other academic disciplines and several are practicing healthcare professionals *The Hermeneutics of Medicine and the Phenomenology of Health* F. Svenaeus, 2013-03-09 Fredrik Svenaeus book is a delight to read Not only does he exhibit keen understanding of a wide range of topics and figures in both medicine and philosophy but he manages to bring them together in an innovative manner that convincingly demonstrates how deeply these two significant fields can be and in the end must be mutually enlightening Medicine Svenaeus suggests reveals deep but rarely explicit themes whose proper comprehension invites a careful phenomenological and hermeneutical explication Certain philosophical approaches on the other hand specifically Heidegger's phenomenology and Gadamer's hermeneutics are shown to have a hitherto unrealized potential for making sense of those themes long buried within Western medicine Richard M Zaner Ann Geddes Stahlman Professor of Medical Ethics Vanderbilt University [The Person at the Crossroads: A Philosophical Approach](#) James Beauregard, Giusy Gallo, Claudia Stancati, 2020-09-01 The Person at the Crossroads A Philosophical Approach brings together scholars from around the world who share a common interest in the nature and activity of the human person Personhood is examined from a variety of perspectives both philosophical and theological drawing on the rich traditions of both Western and Eastern

America's Jails Derek Jeffreys, 2018-06-05 A look at the contemporary crisis in U S jails with recommendations for improving and protecting the dignity of inmates Twelve million Americans go through the U S jail system on an annual basis Jails which differ significantly from prisons are designed to house inmates for short amounts of time and are often occupied by large populations of legally innocent people waiting for a trial Jails often have deplorable sanitary conditions and there are countless records of inmates being brutalized by staff and other inmates while in custody Local municipalities use jails to institutionalize those whom they perceive to be a threat so hundreds of thousands of inmates suffer from mental illness People abandoned by families or lacking health insurance or those who cannot afford bail often cycle in and out of jails In America's Jails Derek Jeffreys draws on sociology philosophy history and his personal experience volunteering in jails and prisons to provide an understanding of the jail experience from the inmates perspective focusing on the stigma that surrounds incarceration Using his research at Cook County Jail the nation's largest single site jail Jeffreys attests that jail inmates possess an inherent dignity that should govern how we treat them Ultimately fundamental changes in the U S jail system are necessary and America's Jails provides specific policy recommendations for changing its poor conditions Highlighting the experiences of inmates themselves America's Jails aims to shift public perception and understanding of jail inmates to center their inherent dignity and help eliminate the stigma attached to their incarceration

Phenomenology, Transversality, and World Philosophy Hwa Yol Jung, 2021-03-12 Phenomenology Transversality and World Philosophy explores the concept of world philosophy Weltphilosophie to take into account the reality of today's multicultural and globalizing world. It challenges the assumption that the particular in the West is universalizable but the particular in the non-West is particular forever, using the concept of transversality to construct an intercontinental philosophy. In the tradition of Johann Wolfgang von Goethe's world literature Weltliteratur and in dialogue with work in ethics and political philosophy, Hwa Yol Jung examines the roles that phenomenology and transversality play in constructing world philosophy.
