Canepa, 1999 From Court to Forest is a critical and historical study of the beginnings of the modern literary fairy tale Giambattista Basile's Lo cunto de li cunti written in Neapolitan dialect and published in 1634 36 comprises fifty fairy tales and was the first integral collection of literary fairy tales to appear in Western Europe It contains some of the best known fairy tales types such as Sleeping Beauty Puss in Boots Cinderella and others many in their earliest versions Although it became a central reference point for subsequent fairy tale writers such as Perrault and the Grimms as well as a treasure chest for folklorists Lo cunto de li cunti has had relatively little attention devoted to it by literary scholars Lo cunto constituted a culmination of the erudite interest in popular culture and folk traditions that permeated the Renaissance But even if Basile drew from the oral tradition he did not merely transcribe the popular materials

he heard and gathered around Naples and in his travels He transformed them into original tales distinguished by vertiginous rhetorical play abundant representations of the rituals of everyday life and the popular culture of the time and a subtext of playful critique of courtly culture and the canonical literary tradition This work fills a gap in fairy tale and Italian literary studies through its rediscovery of one of the most important authors of the Italian Baroque and the genre of the literary fairy tale
