**Fill My Cup, Lord (Revised)** Kay Stevick, 2016-11-16 The Bible is a textbook for life It is the most realistic book ever written Filled with every nuance of human emotion and experience it stands as a monument to God's interest in humanity's plight With this in mind we may eagerly read through its pages without disappointment The sweet fragrances of truth love and courage will begin to unfold in our own personal story as they did in the life of Jesus But if we are to be fully like Jesus we need to immerse ourselves in the Word When Jesus was on this earth He communed with His Father through the Scriptures Jesus filled His cup daily with God's Word going forward to set the captives free He spoke as no other man had spoken with the authority of The Almighty God The Lord's prayer was that this would be our experience also Jesus used the Word of God for wisdom to minister to every need and teach the people God's truths Fill My Cup Lord provides readers with information about how the brain functions how we learn and how memorizing scripture may be a devotional experience The main part of the book provides readers with scripture messages These are divided into five categories We Believe Assurances for This Time Teach Me to Pray Heal Beginning with the Heart and The True Witness The author wrote this book as a personal resource to strengthen her walk with Christ to experience the joy of the Lord's company throughout the day Her prayer is that it will also help other thirsting souls **Lead From The Heart** Mark C.

Crowley, 2022-08-23 Leadership and engagement expert Mark C Crowley shows how trading in the old business playbook for heart led leadership strategies will create purpose driven dedicated employees and higher levels of performance Revised and updated to address the needs of those managing Gen Z and millennial employees in addition to the latest global research on employee engagement In this thoroughly revised and updated edition of his now classic book visionary Mark C Crowley provides the roadmap workplace leaders the world over are seeking How to most successfully and sustainably inspire and manage other human beings in the post pandemic era Nearly 50 million workers quit their jobs in the U S alone in 2021 a

record number likely to be exceeded in 2022 While we might imagine that an opportunity to earn greater pay is the key driver of this Great Resignation research shows two thirds of the reasons people leave jobs boil down to issues related to their engagement and overall well being More specifically people quit when they feel they aren t valued respected appreciated coached or cared about personally by their manager and organization Thanks in large part to the COVID pandemic and a global reset of what matters most to people in their lives human beings have profoundly evolved in what they need and want in exchange for their work Consequently a radical change in employee expectations demands that organizations and managers rapidly pivot by embracing leadership practices that match the moment The remedy to the Great Resignation is to adopt more humane ways of managing people knowing they inherently lead to infinitely greater engagement not to mention optimal employee performance In this new and updated version of his seminal and visionary book Mark C Crowley draws upon emerging medical and other scientific discoveries which prove it s the heart not the mind that drives human motivation and achievement While we ve long been led to believe that human beings are essentially rational beings new research shows that feelings and emotions far more often motivate human behavior and what people care about most and commit themselves to in their lives In light of this breakthrough understanding it s become incumbent upon workplace managers to pay great attention to their employees emotional experience at work far greater attention than any of us ever believed necessary Ironically most of us were told the heart has no place in workplace management In fact most of us were taught that the heart acts like Kryptonite in leadership it inherently undermines a manager s effectiveness and lowers performance What makes this book so remarkable is that it brilliantly contradicts all those traditional beliefs and proves why people naturally and instinctively respond to managers who care about them personally and support their deep human needs To be absolutely clear there s nothing soft or weak about the Lead From The Heart philosophy Instead it represents the future of workplace management and a roadmap to driving uncommon engagement productivity and profitability when organizations around the world are wanting it most Rich with inspiring stories and illuminating research this book proves that when you lead people with a greater balance of mind and heart people naturally follow And they also excel
