SELF-SUFFICIENT URBANISM: a Vision of Contraction for the

Non-distant Future Jaime Correa, 2008-11-07 SELF SUFFICIENT URBANISM is the most comprehensive town design mitigation plan available in today's transitional market. It encourages the creation of sustainable urban villages and rural settlements where almost everything needed for our daily living is found, produced, created, used, re-used and recycled at walking distance from an identifiable center and in closed economic loops. Self-sufficient Urbanism focuses on the re-localization of resources and on the advocacy and development of technologies attempting to eliminate our existent fossil fuel dependency and reduce our current rate of carbon emissions. This introductory pamphlet reviews the existing universal predicament and offers a positive solution of contraction, simplicity and human dignity.

Healing of the Goddess

Sian, 2013-05-08 Sian is an experienced clairaudient clairvoyant and clairsentient channel of Light who has dedicated many years of her life to the pursuit of helping others improve theirs. Now in *Healing of the Goddess*, she brings readers within a life-changing experience and the epiphany that it inspired. After her soul was imploded by a massive psychic force, she developed breast cancer, causing a near-death experience that took fifteen years from her life. As she describes an extraordinary experience in her healing journey, the hand of God encapsulated her soul with Light, giving her the strength and faith to endure a long healing process to reinstate her body back to life. She explains how breast cancer was the result of a karmic strike and how the Keys of Transformation allowed her to be healed. Cancer, she has come to understand, is a trial by tribulation. *The Healing of the Goddess* explores the cause and effect factors that are the real underlying causes of disease and recalls Sian's journey of self-healing and transformation. The challenge we all face is to truly understand the nature of life, energy and healing. If life is to be sustained, the time has come for humanity to fundamentally address our relationship with all life on this glorious planet. This is an auspicious and providential period in human evolution. Are we enlightened enough to shepherd in a new era of health and peace, or will we condemn it with apathy and ignorance?
