Masys,2023-10-09 The Russian Invasion of Ukraine and Implications for the Central Region addresses national security threats and strategic

opportunities for the United States and its allies in the Middle East and Central Asia following Russia's invasion of Ukraine. Recognizing that integrated deterrence is not constrained by geography or domain, this book focuses on the complex threats and challenges confronting U.S. national security and foreign policy in a post-Ukraine invasion environment. That is to say, what happens in Ukraine does not stay in Ukraine. It affects everyone from the region to the cyberspace domain to people on the other side of the world due to changes in commodity prices. Specifically, this volume explores how revised analyses of Russia may alter U.S. and allied strategies in a shifting international system and within the framing of strategic competition. Experts in this volume examine how the war in Ukraine will influence Russian strategy and foreign policy in the Middle East, Central Asia, and globally; what effect the Ukraine invasion could have on global and regional geopolitics and geoeconomics; and the United States' ability to protect national interests in the Central Region. The reasons for this are multiple and complex. In this volume, we explore many issues that have confounded security experts by asking questions such as: What happens after the Russian invasion? What lessons did the U.S., Ukraine, NATO, and the European Union learn about Russia? What lessons did Russia learn about itself and its military after the Ukraine invasion? What lessons did the U.S. learn in Afghanistan that apply to Ukraine? Why was the initial analysis of the Russian invasion so wrong? How has power shifted in the international system since the Ukraine invasion? How has the security environment shifted since the Ukraine invasion? For the U.S. to continue supporting its partners in the Middle East and Central Asia, it must anticipate what new opportunities will arise from Russia's missteps in Ukraine. *The Russian Invasion of Ukraine and Implications for the Central Region* addresses these challenges and opportunities and informs policymakers on the changing contours of the Great Power Competition.

Ebinger, 2011-08-31 Argues that mistrust, ethnic and religious sectarianism, and political parochialism among the nations of South Asia, a region of strategic geopolitical importance, prevent the region from achieving energy security, which is crucial for economic development and political stability. Recommends measures to improve energy security through domestic policy reform and more effective bilateral and multilateral cooperation. Hensel, Amit Gupta, 2017-11-28 Scholars and policy makers have traditionally viewed portions of the Indian Ocean and the Western Pacific as separate and discrete political, economic, and military regions. In recent years, however, a variety of economic, political, and military forces have made many within the academic community, as well as a growing number of national governmental leaders, change their perceptions and recognize that these maritime expanses are one zone of global interaction. Consequently, political, military, and economic developments in one maritime region increasingly have an impact elsewhere. Analyzing and assessing the contemporary maritime challenges in the Indian Ocean and the Western Pacific, this valuable study highlights the current prospects for peace and security in what is rapidly becoming recognized as an

integrated and interactive political military strategic and economic environment This work will be of interest to researchers and policy makers involved in regional studies as well as security studies conflict resolution military and peace studies

Strategic Studies ,1983 **The Quest for Security** Jesse Tumblin,2019-10-31 Colonial hierarchy and race fueled rapid militarization in the British Empire that shaped the violent course of the twentieth century This innovative study reveals the colonial backstory of a century that witnessed total war resulting in new political norms that enthrone national security as the dominating feature of contemporary politics Securing Africa Malinda S. Smith,2016-04-01 This meticulously researched forcibly argued and accessibly written collection explores the many and complex ways in which Africa has been implicated in the discourses and politics of September 11 2001 Written by key scholars based in leading institutions in Canada the United States the Middle East and Africa the volume interrogates the impact of post 9 11 politics on Africa from many disciplinary perspectives including political science sociology history anthropology religious studies and cultural studies The essays analyze the impact of 9 11 and the war on terror on political dissent and academic freedom the contentious vocabulary of crusades clash of civilizations barbarism and Islamofascism alternative genealogies of local and global terrorism extraordinary renditions to black sites and torture human rights and insecurities collapsed states and the development security merger and anti terrorism policies from George W Bush to Barack Obama This is a much needed meditation on historical and contemporary discourses on terrorism **Land Grabbing and Migration in a Changing Climate** Sara Vigil,2022-02-27 This book provides a theoretical and empirical examination of the links between environmental change land grabbing and migration drawing on research conducted in Senegal and Cambodia While the impacts of environmental change on migration and of environmental discourses on land grabs have received increased attention the role of both environmental and migration narratives in shaping migration by modifying access to natural resources has remained under explored Using a variegated geopolitical ecology framework and a comparative global ethnographic approach this book analyses the power of mainstream adaptation and security frameworks and how they impact the lives of marginalised and vulnerable communities in Senegal and Cambodia Findings across the cases show how environmental and migration narratives linked to adaptation and security discourses have been deployed advertently or inadvertently to justify land capture leading to interventions that often increase rather than alleviate the very pressures that they intend to address The interrelations between these issues are inherent to the tensions that exist in different contexts and at different times between capital accumulation and political legitimation The findings of the book point to the urgency for researchers and policymakers to address the structural causes and not the symptoms of both environmental destruction and forced migration It shows how acting upon environmental change land grabs and migration in isolated or binary manners can increase rather than alleviate pressures on those most socio environmentally vulnerable This book will be of interest to students scholars and practitioners working on the topics of land and resource grabbing and environmental change and

migration The book will also be of interest to those analysing political ecology transitions in Africa and Asia as well as to those interested in novel theoretical and methodological frameworks

Economic Cooperation: A Driver of Stability in the MENA Region? Valeria Talbot, 2025-02-10 The Middle East and North Africa MENA region faces a complex landscape where economic cooperation is increasingly linked to regional stability For decades economic factors have influenced the foreign policy of MENA countries However since 2020 shared economic challenges exacerbated by the COVID 19 pandemic oil market fluctuations and the global repercussions of Russia s invasion of Ukraine have spurred initiatives for diplomatic rapprochement The October 7 attacks and subsequent Gaza and Lebanon conflicts pose a threat to such progresses Can economic partnerships serve as a basis for lasting peace in MENA region What forms of collaboration could enhance stability in the face of persistent security challenges What are the primary constraints and challenges that limit the potential of economic cooperation as a stabilising force in the MENA region
