Imagine There's No Heaven Mitchell Stephens,2014-02-25

The historical achievements of religious belief have been large and well chronicled But what about the accomplishments of those who have challenged religion

Traveling from classical Greece to twenty first century America *Imagine There s No Heaven* explores the role of disbelief in

shaping Western civilization At each juncture common themes emerge by questioning the role of gods in the heavens or the

role of a God in creating man on earth nonbelievers help move science forward By challenging the divine right of monarchs

and the strictures of holy books nonbelievers including Jean Jacques Rousseau and Denis Diderot help expand human

liberties and influence the early founding of the United States Revolutions in science in politics in philosophy in art and in

psychology have been led on multiple occasions by those who are free of the constraints of religious life Mitchell Stephens

tells the often courageous tales of history s most important atheists like Denis Diderot and Salman Rushdie Stephens makes a

strong and original case for their importance not only to today s New Atheist movement but to the way many of us believers

and nonbelievers now think and live *Canadian Selection* Alvan Bregman,Ontario. Ministry of Citizenship and

God and the Self in Hegel Paolo Diego Bubbio, 2017-06-29 God and the Self in Hegel proposes a reconstruction of Hegel's conception of God and analyzes the significance of this reading for Hegel's idealistic metaphysics Paolo Diego Bubbio argues that in Hegel's view subjectivism the tenet that there is no underlying true reality that exists independently of the activity of the cognitive agent can be avoided and content can be restored to religion only to the extent that God is understood in God's relation to human beings and human beings are understood in their relation to God Focusing on traditional problems in theology and the philosophy of religion such as the ontological argument for the existence of God the Trinity and the death of God Bubbio shows the relevance of Hegel's view of religion and God for his broader philosophical

strategy In this account as a response to the fundamental Kantian challenge of how to conceive the mind world relation without setting mind over and against the world Hegel has found a way of overcoming subjectivism in both philosophy and religion

Premodern Faith in a Postmodern Culture Peter Drilling,2006-07-26 In Premodern Faith in a Postmodern Culture Peter Drilling presents a how to guide to assist believers in seeing how the process of coming to faith in the triune God of the Christian tradition is not only reasonable and authentic in its original development but also continues

Modern Jewish Thought on Crisis Ghilad H. Shenhav,Cedric Cohen-Skalli,Gilad Sharvit,2024-01-29 This volume brings together scholars from a range of disciplines to explore the intersections between crisis scholarship and action The aim of this book is to think about the moment of crisis through the concepts writings and methodologies awarded to us by Jewish thinkers in modernity This book offers a broad gallery of accounts on the notion of crisis in Jewish modernity while emphasizing three terms interpretation heresy and messianism The main thesis of the volume is that the diasporic and exilic experience of the Jewish people turned their philosophers and theologians into experts in crisis management who had to find resources within their own religion culture and traditions in order to react endure and overcome short and long term historical crises The underlining assumption of this book is therefore that Jewish thought obtains resources for conceptualizing and reacting to the current forms of crisis in the global European and Israeli spheres The volume addresses a large readership in humanities social and political sciences and religious studies taking as its assumption that scholars in modern Jewish thought have an extended responsibility to engage in contemporary debates
