Seeing What Others Don't Gary Klein,2013-06-25 The author takes his experience in academia the military and private industry and offers seminars on improving employee performance defining improvement as a combination of fewer mistakes and more insightful decisions Insights like Darwin s understanding of the way evolution actually works and Watson and Crick s breakthrough discoveries about the structure of DNA can change the

world We also need insights into the everyday things that frustrate and confuse us so that we can more effectively solve problems and get things done Yet we know very little about when why or how insights are formed or what blocks them In *Seeing What Others Don't* renowned cognitive psychologist Gary Klein unravels the mystery Klein is a keen observer of people in their natural settings scientists businesspeople firefighters police officers soldiers family members friends himself and uses a marvelous variety of stories to illuminate his research into what insights are and how they happen Klein also dissects impediments to insight such as when organizations claim to value employee creativity and to encourage breakthroughs but in reality block disruptive ideas and prioritize avoidance of mistakes Or when information technology systems are dumb by design and block potential discoveries

The Perception of Quality George N. Kenyon, 2025-09-30

Exploring the concept of quality management from a new point of view this book now in an expanded second edition presents a holistic model of how consumers judge the quality of products It links consumer perceptions of quality to the design and delivery of the final product and presents models and methods for improving the quality of these products and services It offers readers an improved understanding of how and why the design process must consider how the consumer will perceive a product or service In order to facilitate the presentation and understanding of these concepts illustrations and case examples are also provided throughout the book This updated and enlarged volume provides an invaluable resource for managers designers manufacturers professional practitioners and academics interested in quality management The book also offers a useful supplementary text for marketing and quality management courses
