Literature, American Style Ezra Tawil, 2018-07-16 Between 1780 and 1800 authors of imaginative literature in the new United States wanted to assert that their works which bore obvious connections to anglophone literature on the far side of the Atlantic nevertheless constituted a properly American tradition No one had yet figured out however what it would mean to write like an American what literature with an American origin would look like nor what literary characteristics the elusive quality of Americanness could generate Literature American Style returns to this historical moment decades before the romantic nationalism of Cooper the transcendentalism of Emerson and Thoreau or the iconoclastic poetics of Whitman when a fantasy about the unique characteristics of U S literature first took shape and when that notion was linked to literary style While late eighteenth century U S literature advertised itself as the cultural manifestation of a radically innovative nation Ezra Tawil argues it was not primarily marked by invention or disruption In fact its authors self consciously imitated European literary traditions while adapting them to a new cultural environment These writers gravitated to the realm of style then because it provided a way of sidestepping the uncomfortable reality of cultural indebtedness it was their use of style that provided a way of departing from European literary precedents Tawil analyzes Noah Webster s plan to reform the American tongue J Hector St John de Cr vecoeur s fashioning of an extravagantly na ve American style from well worn topoi Charles Brockden Brown s adaptations of the British gothic and the marriage of seduction plots to American plain style in works such as Susanna Rowson s Charlotte Temple and Hannah Webster Foster s The Coquette Each of these works claims to embody something American in style yet according to Tawil remains legible only in the context of stylistic generic and conceptual forms that animated English cultural life through the century
