It's All Politics Kathleen Kelley Reardon, Ph.D., 2011-05-25 From *It's All Politics* Like business in general politics is not a spectator sport You cannot afford to be apolitical at work if you have any aspirations for advancement The only way to avoid politics is to avoid people by finding an out of the way corner where you can do your job Of course it's the same job you'll likely be doing for the rest of your career In any job when you reach a certain level of technical competence politics is what makes all the difference with regard to success At that point it is indeed all politics Everyday brilliant people take a backseat to their politically adept colleagues by failing to win crucial support for their ideas Sometimes politics involves going around or bending rules but more typically it's about positioning your ideas in a favorable light and knowing what to say and how and when to say it Keep in mind that people benefit from perpetuating the image of politics as something you either know or you don't Ignore them Political acumen is largely learned from observation And then it's a matter of practice practice practice When a journalist suggested that golfing great Gary Player was very lucky he replied It's funny but the more I practice the luckier I get The same is true of politics An indispensable guide to mastering the ins and outs of office politics the single most important factor in getting ahead in your career As management professor and consultant Kathleen Reardon explains in her new book *It's All Politics* talent and hard work alone will not get you to the top What separates the winners from the losers in corporate life is politics As Reardon explains the most talented and accomplished employees often take a backseat to their politically adept coworkers losing ground in the race to get ahead sometimes even losing their jobs Why Because they've failed to manage the important relationships with the people who can best reward their creativity and intelligence To determine whether you need a crash course in *Office Politics 101* ask yourself the following questions Do I get credit for my ideas Do I know how to deal with a difficult colleague Do I get the plum assignments Do I have a mentor Do I say no gracefully and pick my battles wisely Am I in the loop Reardon has interviewed hundreds of employees from successful veterans to aspiring hopefuls examining why some people who work hard and effectively at their jobs fall behind while those who are adept at reading the office tea leaves forge ahead Being politically savvy doesn't mean being unethical or devious At heart it's about listening to and relating to others and making choices that advance everyone's goals Like it or not when it comes to work it's all politics And politics is all about knowing what to say when to say it and who to say it to

The Eurocentric Conception of World Politics John M. Hobson,2012-03-29 John Hobson claims that throughout its history most international theory has been embedded within various forms of Eurocentrism Rather than producing value free and universalist theories of inter state relations international theory instead provides provincial analyses that celebrate and defend Western civilization as the subject of and ideal normative referent in world politics Hobson also provides a sympathetic critique of Edward Said's conceptions of Eurocentrism and Orientalism revealing how Eurocentrism takes different forms which can be imperialist or anti imperialist and showing how these have played out in international theory since 1760 The book thus speaks to scholars of international relations and also to all those interested in understanding Eurocentrism in the disciplines of political science political theory political economy international political economy geography cultural and literary studies sociology and not least anthropology
