David Louis Sedley

Sublimity And Skepticism In Montaigne And Milton:

Sublimity and Skepticism in Montaigne and Milton David Louis Sedley, 2005 Boldly investigates the relationship between the sublime as an aesthetic category and the emergence of skepticism as a philosophical problem **Milton, Longinus, and the Sublime in the Seventeenth Century** Thomas Matthew Vozar, 2024-03-07 In this wide ranging study in classical reception and the history of ideas Thomas Matthew Vozar shows how Milton's ideas of the sublime were informed by a deep understanding of Longinus and other ancient sources The book also demonstrates how Longinus's ideas and writings were far more prevalent in early modern England than previously thought **Sublimity and Skepticism in the Early Modern Period** David Louis Sedley, 1999 **Doubt and Skepticism in Antiquity and the Renaissance** Michelle Zerba, 2012-07-09 An interdisciplinary study of the forms and uses of uncertainty in important works of literature and philosophy in antiquity and the Renaissance *Milton, the sublime and dramas of choice* Irene Montori, 2020-11-23 Milton the Sublime and Dramas of Choice challenges readers and scholars to rethink Milton's relationship to the sublime in terms of ethics The book demonstrates that Milton's sublimity merges the early modern reception of Longinus with classical medieval and Renaissance categories of magnanimity wonder and inspiration to investigate the relations between human and divine agency Under the influence of early modern models of sublimity including Spenser and Shakespeare Milton speaks through his fictional characters about the making of heroic and literary virtue In turn the work also sheds light on the importance of tragedy as an additional source to the formation of the Renaissance sublime Milton's tragic plots illustrate how the character's virtue is tested strengthened and eventually transformed into an experience of elevation The study explores the heroic path from dramatic choice to self realisation offering extensive treatments of Milton's dramas A Maske and Samson Agonistes The redefinition of the pairing Milton and the sublime in this work aims to relocate the poet within the English literary history as the climax of earlier traditions and receptions of the sublime but also as the starting point of modern sublimity

Disenchantment, Skepticism, and the Early Modern Novel in Spain and France Ann T. Delehanty, 2022-12-16 This volume examines five early modern novels from the seventeenth century in Spain and France as examples of literature as a form of skeptical inquiry Cervantes's *Don Quijote* Zayas's *Desengaños amorosos* Scarron's *Roman comique* Cyrano de Bergerac's *L'Autre Monde* and Mme de Lafayette's *Zayde* These early modern novels encourage readers to take a critical stance toward accepted beliefs through content that stages multiple encounters with the shockingly unfamiliar as well as through experiments in literary form especially the interpolated story At its broadest reach this study asserts the fundamental value of literature as a means of encouraging discernment recognizing the illusory and honing critical acuity In terms of the particularity of the historical moment the volume also identifies the early modern novel as uniquely able to represent the conflicting value spheres of early modernity because of its ability to present multiple voices and its fascination with conflicting vantage points Due to its interdisciplinary nature *Disenchantment Skepticism and the Early Modern Novel* in

Spain and France appeals to literary scholars and intellectual historians of the early modern period in Europe as well as to advanced undergraduates and postgraduates studying the early novel intellectual history and philosophy of literature

French Connections in the English Renaissance Catherine Gimelli Martin, Hassan Melehy, 2016-04-15 The study of literature still tends to be nation based even when direct evidence contradicts longstanding notions of an autonomous literary canon In a time when current events make inevitable the acceptance of a global perspective the essays in this volume suggest a corrective to such scholarly limitations the contributors offer alternatives to received notions of influence and the more or less linear transmission of *translatio studii* demonstrating that they no longer provide adequate explanations for the interactions among the various literary canons of the Renaissance Offering texts on a variety of aspects of the Anglo French Renaissance instead of concentrating on one set of borrowings or phenomena this collection points to new configurations of the relationships among national literatures Contributors address specific borrowings rewritings and appropriations of French writing by English authors in fields ranging from lyric poetry to epic poetry to drama to political treatise The bibliography presents a comprehensive list of publications on French connections in the English Renaissance from 1902 to the present day

The Places of Early Modern Criticism Gavin Alexander, Emma Gilby, Alexander Marr, 2021-04-29 What is criticism And where is it to be found Thinking about literature and the visual arts is found in many places in treatises apologies and paragoni in prefaces letters and essays in commentaries editions reading notes and commonplace books in images sculptures and built spaces within or on the thresholds of works of poetry and visual art It is situated between different disciplines and methods Critical ideas and methods come into England from other countries and take root in particular locations the court the Inns of Court the theatre the great house the printer's shop the university The practice of criticism is transplanted to the Americas and attempts to articulate the place of poetry in a new world And commonplaces of classical poetics and rhetoric serve both to connect and to measure the space between different critical discourses Tracing the history of the development of early modern thinking about literature and the visual arts requires consideration of various kinds of place material textual geographical and the practices particular to those places it also requires that those different places be brought into dialogue with each other This book brings together scholars working in departments of English modern languages and art history to look at the many different places of early modern criticism It argues polemically for the necessity of looking afresh at the scope of criticism and at what happens on its margins and for interrogating our own critical practices and disciplinary methods by investigating their history

The Aesthetics of Spectacle in Early Modern Drama and Modern Cinema J. Sager, 2013-09-20 Examining the work of the Elizabethan playwright Robert Greene this book argues that Greene's plays are innovative in their use of spectacle Its most striking feature is the use of the one to one analogies between Greene's drama and modern cinema in order to explore the plays stage effects

The Amsterdam Town Hall in Words and Images Stijn Bussels, Caroline Van Eck, Bram Van Oostveldt, 2021-05-20 The most famous monument of the Dutch

Golden Age is undoubtedly the Amsterdam Town Hall by architect Jacob van Campen inaugurated in 1655. Today we stand in awe confronted with the grand Classicist facade, the delightful horror of the sculptures in the Tribunal and the magnificence of the huge Citizens Hall. In the period of its construction many artists and writers tried to capture the overwhelming impact of the building by among other comparisons relating it to the ancient Wonders of the World and by stressing its splendour, riches and impressive scale. In doing so they constructed the Town Hall as the ultimate wonder, thus offering a silent but very powerful testimony to the power and position of the City of Amsterdam and its rulers as equals of the other European regimes. To fully understand these mechanisms of power, this book relates the Town Hall to other impressive buildings of the same period: the palace of the Louvre, Saint Peter's Basilica and Banqueting House, and their visual and textual representations. Thus, this book gives a broad audience of readers new insights into the agency of magnificent buildings. *The Amsterdam Town Hall in Words and Images* does not restrict itself to a national scope or a purely architectural analysis but clarifies how artists and writers all over Europe presented buildings as wonders of the world. This book is pioneering in its analysis of seventeenth and eighteenth century paintings, prints, drawings, poems and travel accounts and offers a new understanding of how the wondrous character of these grand buildings was constructed.
