Subnational Democracy In The European Union Challenges And Opportunities

José Magone

Subnational Democracy In The European Union Challenges And Opportunities:

Subnational Democracy in the European Union John Loughlin, Eliseo Aja, 2001 This book is the result of a research project carried out for the Committee of the Regions and analyses the state of play of democratic practice at the subnational level in all of the European Member states Its initial hypothesis was that liberal democracy is closely associated with the rise of the nation state in the 19th century The nation state however has been significantly changing under the impact of various forces including globalization and regionalization internal reforms of the public administration system such as privatization and deregulation and the emergence of regions and local authorities as actors in their own rights these changes pose challenges for the practice of democracy and in particular for its expression at the regional and local level The book deals with the theoretical implications of these changes in terms of the changing nature of the state and new regionalism However one of the key findings is that there is no one uniform meaning of democracy across member states and there are variations even within a single state depending on whether the national or subnational levels are considered Each country chapter gives the historical and philosophical background to the concept of democracy in each country There is also an exposition of the institutional expression of democracy at the different levels With regard to the practice of democracy at the subnational level the role of pressure groups and policy networks is examined as well as the role of political parties There is a survey of critiques of subnational democracy Finally there is a survey of innovative approaches to improving regional and local democracy through a variety of mechanisms and reforms as ways of responding to the challenge and opportunities facing it today

Subnational Democracy in the European Union John Loughlin, 2001-04-05 This book is the result of a research project carried out for the Committee of the Regions and analyses the state of play of democratic practice at the subnational level in all of the European Member states Its initial hypothesis was that liberal democracy is closely associated with the rise of the nation state in the 19th century The nation state however has been significantly changing under the impact of various forces including globalization and regionalization internal reforms of the public administration system such as privatization and deregulation and the emergence of regions and local authorities as actors in their own rights these changes pose challenges for the practice of democracy and in particular for its expression at the regional and local level The book deals with the theoretical implications of these changes in terms of the changing nature of the state and new regionalism However one of the key findings is that there is no one uniform meaning of democracy across member states and there are variations even within a single state depending on whether the national or subnational levels are considered Each country chapter gives the historical and philosophical background to the concept of democracy in each country There is also an exposition of the institutional expression of democracy at the different levels With regard to the practice of democracy at the subnational level the role of pressure groups and policy networks is examined as well as the role of political parties There is a survey of critiques of subnational democracy Finally there is a survey of innovative approaches to improving regional and

local democracy through a variety of mechanisms and reforms as ways of responding to the challenge and opportunities facing it today

Subnational Authorities and the European Union Stephan Lutzenberger, 2022-02-21 The European Union as a regulatory polity based on integration through law arguably relies more on legal compliance with its policies than any other political system Proceeding from this point of departure this book puts the spotlight on the subnational tier and scrutinizes its role in ensuring compliance Drawing on a dataset of infringement proceedings against federal and regionalized member states the book shows that strong shared rule i.e. strong cooperation between national and subnational authorities can improve national compliance records In contrast policy sectors with strong redistributive consequences impair subnational authorities capacity to comply In short policy and politics matter more than polity

The Role of Regions and Sub-National Actors in Europe Stephen Weatherill, Ulf Bernitz, 2005-06-15 The essays gathered in this collection examine the involvement of self governing sub national and regional actors in the law and policy making of the European Union State power is today exercised in the context of the complex institutional environment of the EU But what of regions and sub national actors Are their interests adequately represented can they advance them or can they at least protect them from unwitting or calculated damage This book surveys the broad questions of law and political science and investigates the contribution of the EU's Committee of the Regions and also bottom up initiatives launched by the regions themselves Given that much regional autonomy has been hard won one would suppose that the centralising influence flowing from the EU's intrusion into the domestic settlement would be treated with extreme caution by the regions Moreover among the Member States there is great diversity in the patterns of political organisation adopted to cope with the tension between the centralisation of power and respect for local autonomy Case studies including Spain Germany and Finland reveal that there is no single consistent historical narrative States change as the UK's recent experience illustrates The book offers findings that are interesting at a general level in investigating patterns of multi level governance but is also rich in case specific information

The Oxford Handbook of Local and Regional Democracy in Europe John Loughlin, Frank Hendriks, Anders Lidström, 2012-11-08 The Oxford Handbook of Local and Regional Democracy in Europe analyses the state of play of democracy at the subnational level in the 27 member states of the EU plus Norway and Switzerland It places subnational democracy in the context of the distinctive Anglo the French the German and Scandinavian state traditions in Europe asking to what extent these are still relevant today The Handbook adapts Lijphart's theory of democracy and applies it to the subnational levels in all the country chapters A key theoretical issue is whether subnational regional and local democracy is derived from national democracy or whether it is legitimate in its own right Besides these theoretical concerns it focuses on the practice of democracy the roles of political parties and interest groups and also how subnational political institutions relate to the ordinary citizen This can take the form of local referendums or other mechanisms of participation The Handbook reveals a wide variety of practices across Europe in this regard Local financial systems also reveal a great

variety Finally each chapter examines the challenges facing subnational democracy but also the opportunities available to them to enhance their democratic systems Among the challenges identified are Europeanization globalization but also citizens disaffection and switch off from politics Some countries have confronted these challenges more successfully than others but all countries face them An important aspect of the Handbook is the inclusion of all the countries of East and Central Europe plus Cyprus and Malta who joined the EU in 2004 and 2007 This is the first time they have been examined alongside the countries of Western Europe from the angle of subnational democracy

Local Government in the European Union Marius Guderjan, Tom Verhelst, 2021-09-30 This book addresses the bigger picture of local European relations and adds a new dimension to existing studies on multilevel governance and the Europeanisation of local government Drawing from a combination of European integration theories and operational approaches it introduces the idea of an integration cycle in which local government responds to the top down impact of the EU internally horizontally and vertically This volume presents a wide range of empirical examples to demonstrate how local authorities across Europe have changed their practices orientation and preferences and adapted their institutions and organisation Not only do cities towns and counties cooperate with each other across borders and through transnational networks and partnerships but by mobilising formally and informally local actors participate in and influence European governance and contribute to the future trajectories of European integration thereby completing the integration cycle

Global Norms in the Twenty-First Century Klaus-Gerd Giesen, Kees van der Pijl, 2009-03-26 Norms in the contemporary world system are no longer established exclusively through inter state agreement but increasingly are becoming truly global This is made possible by the rapid privatisation of law and the self regulation of the transnational private sector Other forces driving this epochal transformation are the overwhelming pre eminence of the United States the erosion of the role of the United Nations and the appearance of new actors such as subnational entities and NGO s They all contribute to the creation and ideological justification of new norms This collection brings together critical studies on this complex process Written by authors from eleven different countries both established scholars and young specialists the book challenges the often convenient rationalisations of regime theory the governance approach and post national or cosmopolitan democracy in order to explore the practical theoretical and ethical implications of the new world of global norms

Territorial Governance across Europe Peter Schmitt, Lisa Van Well, 2015-12-22 This book provides a comprehensive framework for analysing comparing and promoting territorial governance in policy relevant research It reveals in depth considerations of the emergence state of the art and evolution of the concept of territorial governance A unique series of ten case studies across Europe from neighbourhood planning in North Shields in the North East of England to climate change adaptation in the Baltic Sea Region provides far reaching insights into a number of key elements of territorial governance The book draws generalised empirically based conclusions and discusses modes of transferability of good practices A number of suggestions are presented as to how the main findings from this book can

inform theories of territorial governance and spatial policy and planning Territorial Governance across Europe will be of considerable interest to scholars around the world who are concerned with European studies regional policy urban and regional planning and human and political geography It provides a solid debate on discourses theories concepts and methods around the notion of territorial governance as well as a number of empirical findings from various contexts across Europe It specifically targets scholars involved in policy relevant research **Regional Sub-State Diplomacy Today** ,2010-03-10

Regional sub state diplomacy has come of age No longer limited to federal states in Europe today sub state entities across the world engage in international relations and conduct a foreign policy parallel to complementary to or sometimes in conflict with their central governmental counterparts Since the late 1990s the spectrum of diplomatic instruments and the strategies that accompany them have become more diverse and complex Regional Sub State Diplomacy Today offers detailed and recent data on the nature width and complexity of regions engaging in international relations It includes cases from all over the world Next to comparative empirical studies Regional Sub State Diplomacy Today also offers original theoretical perspectives on the multi faceted dimensions of regional sub state diplomacy It is ideal for both students and practitioners of sub state diplomacy *Routledge Handbook of European Politics* José Magone,2014-12-17 Since the Treaty of the European Union was ratified in 1993 the European Union has become an important factor in an ever increasing number of regimes of pooled sovereignty This Handbook seeks to present a valuable guide to this new and unique system in the twenty first century allowing readers to obtain a better understanding of the emerging multilevel European governance system that links national polities to Europe and the global community Adopting a pan European approach this Handbook brings together the work of leading international academics to cover a wide range of topics such as the historical and theoretical background the political systems and institutions of both the EU and its individual member nations political parties and party systems political elites civil society and social movements in European politics the political economy of Europe public administration and policy making external policies of the EU This is an invaluable and comprehensive resource for students scholars researchers and practitioners of the European Union European politics and comparative politics

As recognized, adventure as capably as experience roughly lesson, amusement, as well as covenant can be gotten by just checking out a books **Subnational Democracy In The European Union Challenges And Opportunities** along with it is not directly done, you could recognize even more nearly this life, a propos the world.

Subnational Democracy In The European Union Challenges And Opportunities Introduction

In today's digital age, the availability of Subnational Democracy In The European Union Challenges And Opportunities books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Subnational Democracy In The European Union Challenges And Opportunities books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Subnational Democracy In The European Union Challenges And Opportunities books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Subnational Democracy In The European Union Challenges And Opportunities versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Subnational Democracy In The European Union Challenges And Opportunities books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Subnational Democracy In The European Union Challenges And Opportunities books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent

resource for literature enthusiasts. Another popular platform for Subnational Democracy In The European Union Challenges And Opportunities books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Subnational Democracy In The European Union Challenges And Opportunities books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Subnational Democracy In The European Union Challenges And Opportunities books and manuals for download and embark on your journey of knowledge?

FAQs About Subnational Democracy In The European Union Challenges And Opportunities Books

1. Where can I buy Subnational Democracy In The European Union Challenges And Opportunities books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
