Subquantum Kinetics The Alchemy Of Creation:

Subquantum Kinetics Paul A. LaViolette, 1994 **Subquantum Kinetics** Paul A. LaViolette, 2003 Subquantum kinetics is a revolutionary physics methodology that was inspired by advances in our understanding of how non equilibrium reaction systems spawn self organising wave patterns Replacing the fragmented self contradictory framework of modern physics subquantum kinetics opens the door to a unified field theory **Genesis of the Cosmos** Paul A. LaViolette, 2004-04-15 Provides compelling evidence that creation myths from the dawn of civilization correspond to cutting edge astronomical discoveries Exposes the contradictions in current cosmological theory and offers a scientific basis for the ancient myths and esoteric lore that encode a theory of continuous creation By the scientist who was the first to disprove the Big Bang theory on the basis of observational data Recent developments in theoretical physics including systems theory and chaos theory are challenging long held mechanistic views of the universe Many thinkers have speculated that the remnants of an ancient science survive today in mythology and esoteric lore but until now the scientific basis for this belief has remained cloaked in mystery Paul LaViolette reveals the remarkable parallels between the cutting edge of scientific thought and creation myths from the dawn of civilization With a scientific sophistication rare among mythologists LaViolette deciphers the forgotten cosmology of ancient lore in a groundbreaking scientific tour de force In direct nontechnical language he shows how these myths encode a theory of cosmology in which matter is continually growing from seeds of order that emerge spontaneously from the surrounding subquantum chaos Exposing the contradictions that bedevil the big bang theory LaViolette offers both the specialist and the general reader a controversial and highly stimulating critique of prevailing misconceptions about the seldom questioned superiority of modern science over ancient cosmology By restoring and reanimating this ancient scientific worldview Genesis of the Cosmos leads us beyond the restrictive metaphors of modern science and into a new science for the 21st century *The Giza Death Star Destroyed* Joseph P. Farrell, 2005 Final volume in a trilogy the first of which is the author's *The Giza death star* and the second of which is his *The Giza death star deployed* *Electrogravitics II, 2nd Edition* Thomas Valone, 2005 A companion volume to *Electrogravitics Systems Reports on a New Propulsion Methodology* this book delivers 1 the scientific validation from three different authorities 2 the compelling public history of gravity research conducted by the aviation industry before it became unacknowledged and 3 testimonials which eye witnesses have provided In total this anthology attests to the validity of the Biefeld Brown high voltage force effect The book's Science Section includes a well known electrokinetic force and how it works the proposed ion mobility explanation and how electricity and gravity may couple The Historical Section contains seven articles about T T Brown gravity research etc Also included are a Testimonial Section and Patent Section *Advanced Electromagnetism And Vacuum Physics* Patrick Cornille, 2003-07-07 This book is aimed at a large audience scientists engineers professors and students wise enough to keep a critical stance whenever confronted with the chilling dogmas of contemporary physics Readers will find a tantalizing amount of material

calculated to nurture their thoughts and arouse their suspicion to some degree at least on the so called validity of today's most celebrated physical theories

Electrogravitics Systems Thomas Valone, 1993 Discovered in 1918 by a professor electrogravitics has been put to the test decade after decade by aviation industries and the military It is an anomalous propulsion force from a high voltage capacitive charge similar to an electrokinetic force In the 1950s T Townsend Brown recommended a flying wing model to the Naval Research Lab for its implementation and years later the B 2 bomber fulfilled this vision Electrogravitics Systems includes historical documents patents and an exciting article by Dr Paul LaViolette on how the B 2 uses such an energy efficient futuristic propulsion concept today
