History of Shock Waves, Explosions and Impact Peter O. K. Krehl, 2008-09-24 This unique and encyclopedic reference work describes the evolution of the physics of modern shock wave and detonation from the earlier and classical percussion The history of this complex process is first reviewed in a general survey Subsequently the subject is treated in more detail and the book is richly illustrated in the form of a picture gallery This book is ideal for everyone professionally interested in shock wave phenomena

New Philosophy, 1903 **Bokuru** Jon C. Hall, 2005-06-28 This book was inspired by the tenacious efforts of the handful of professional field archaeologists over the last few decades in the inhospitable barrens of Africa Their discoveries of the ancient fossil records

have advanced our knowledge back millions of years Bokuru is an archaeological mystery based in a remote region of East Africa The story is seen through James Henderson a young Chicago attorney who is retained to go to Africa to investigate the mysterious death of Dr Richard Bronston The world famous archaeologist died at his remote excavation site Dr Bronstons daughter Nancy an executive officer at the Chicago museum is responsible for Jims selection to act as detective in spite of his lack of directly related experience Neither Nancy nor the museum staff believe Dr Bronston committed suicide as stated on the death certificate sent from Africa Is Jims limited experience as an amateur archaeologist and trial preparation attorney sufficient to solve the puzzle The museum has sponsored Dr Bronstons excavation work and holds a million dollar life insurance policy to cover their funding The policy excludes coverage if his death is suicide On the way to the airport Jim learns that the cause of Dr Bronstons death is not their only concern Dr Bronston told no one what he found at his excavation The museum must decide whether Nancy Bronston should complete her fathers field work or close the field camp Jims assignment is suddenly expanded He must learn what was found along the ancient bank of the Bokuru River at the location the natives call the place of the ancient past Jim flies to Africa where Nancy Bronston has preceded him to attend her fathers funeral He begins his African adventure unprepared for the twists and turns he will face on a journey into both modern and ancient death as well as the origins of mankind The story ends with a surprise ending not even he could anticipate

Unfinished Synthesis Niles Eldredge, 1985-11-21 This study provides a stimulating critique of contemporary evolutionary thought analyzing the Modern Synthesis first developed by Theodosius Dobzhansky Ernst Mayr and George Gaylord Simpson The author argues that although only genes and organisms are taken as historic individuals in conventional theory species higher taxa and ecological entities such as populations and communities should also be construed as individuals an approach that yields the ecological and genealogical hierarchies that interact to produce evolution This clearly stated controversial work will provoke much debate among evolutionary biologists systematists paleontologists and ecologists as well as a wide range of educated lay readers

Lunar Meteoroid Impacts and How to Observe Them Brian Cudnik, 2010-03-10 The genesis of modern searches for observable meteoritic phenomena on the Moon is the paper by Lincoln La Paz in Popular Astronomy magazine in 1938 In it he argued that the absence of observed fashes of meteoritic impacts on the Moon might be interpreted to mean that these bodies are destroyed as luminous meteors in an extremely rarefied lunar atmosphere The paper suggested the possibility of systematic searches for such possible lunar meteors With these concepts in mind I was surprised to note a transient moving bright speck on the Moon on July 10 1941 It appeared to behave very much as a lunar meteor would except that the poorly estimated duration would lead to a strongly hyperbolic heliocentric velocity Thus the idea of systematic searches for both possible lunar meteors and meteoritic impact fashes was born It was appreciated that much time might need to be expended to achieve any positive results Systematic searches were carried out by others and myself chiefly in the years 1945 1965 and became a regular program at the newly founded

Association of Lunar and Planetary Observers or ALPO **The Paradox of Time** Saak Tarontsi,2003-11 At the beginning of the twenty first century a leading American scientist received a special assignment from a US government s top official Then he became threatened by a mysterious evil force The sinister killer threw him into the abyss of Hell where no organic matter can be sustained and no living creature can survive But the human spirit proved to be undefeated even suffering the loss of three lives the hero is tough enough to survive transform to a God fight back and repel the enemy His adversary is an ancient incarnation of evil his enemies are much numerous but once defeated Gods in a Sacred Zone of Lazakria and robotic creatures from neutral space colonies are awaiting for his help The divine virtue of the ancient relic of godly power the Eye of the Beholder enabled Alan to unlock the mystery of Time Mechanism a device which could turn the Tide of Time Destroying enemy naval armadas in a harsh battle a hero realized that the brutality of the first encounter with the Empire of Evil was nothing else than a beginning of a Mortal Combat The War of Armageddon **The Tomb of the Dark Paladin** Tom Bielawski,2012-05-12 The quest for the mythical Everpool resumes and Carym is closer than ever to finding the terror filled lair of the Dark Paladin so are the hunters of the Shadowfyr Shalthazar faces his own struggles for survival and must guard against threats from within as he unleashes his own plans for domination The Shadowblade undertakes a dangerous quest of his own seeking an alliance with the unpredictable ogres and faces a reckoning with his own dark desires And the horror of Umber s true plan for the world finally becomes clear when all paths converge on The Tomb of the Dark Paladin
