The Future Was Yesterday:

The Future Was Yesterday Torcuato Luca de Tena, Julius P. Kreier, 1999-12-01 The Book *The Future Was Yesterday* is an historical novel based on the life of Xeronimo de Aguilar a Spanish lay brother who was shipwrecked in 1520 on the coast of Yucatan nine years before Cortes exploration and subsequent conquest of the Aztec Empire In the first part of the book the author develops the ambience of the pre Columbian Mayan lands and describes the tensions and effects produced there by the rumors that filtered in of the Spanish conquest and settlement of the Caribbean islands He further developed an exciting story about the life of the shipwrecked Spaniard in that ambience In the latter portion of the book the author describes how Xeronimo de Aguilar is passed to Cortes troop by his Mayan owners and his subsequent role as Cortes first effective translator translating Mayan to Spanish and his role in identifying and making useful Doña Marina la Malinche who spoke only Mayan and Nahuatl The adventures of the conquest and Xeronimos development as a priest in Mexico conclude the story The book is both a first class adventure story and a fairly accurate portrayal of aspects in Mexico just before the Conquest as well as during and after the Conquest The development of the protagonists character his adventures and the rich historical character of the story combine to make the novella a joy to read

The Philosophy of Time Roger McLure, 2015-04-29 The question of the existence and the properties of time has been subject to debate for thousands of years This considered and complete study offers a contrastive analysis of phenomenologies of time from the perspective of the problematics of the visibility of time Is time perceptible only through the veil of change Or is there a naked presence of time itself Or has time always effaced itself McLure's new work also stages confrontations between phenomenology of time and analytical philosophy of time By doing so he explores ancient issues from a fresh perspective such as whether time passes whether experimental time is real time and whether the very concept of time is contradictory

The Future of Marriage (Easyread Large Edition) David Blankenhorn, 2010 With precision and passion David Blankenhorn offers a bold new argument in the debate over same sex marriage that it would essentially deny all children not just the children of same sex couples their birthright to their own mother and father If we change marriage we change parenthood for all families Altering marriage to accommodate same sex couples would mean weakening in culture

and eliminating in law the idea that children need both their mother and their father The Future of Marriage analyzes recent survey data from 35 countries offering the first scientific evidence that support for marriage is weakest in those nations where support for gay marriage is strongest Blankenhorn explains how same sex marriage would transform our most pro child social institution into a purely private relationship an expression of love between adults defined by each couple as they wish Changing marriage laws to include same sex couples he argues would require us to deinstitutionalize marriage amputating from the institution one after another of its core ideas until the institution itself is like a room with all the furniture removed and everything stripped from the walls For Blankenhorn the main question concerning the future of marriage in the United States is not whether we will adopt gay marriage The main question is whether the social institution of marriage will become stronger or weaker If we wish to strengthen marriage on behalf of children there is no shortage of ideas for doing so What matters is whether we as a society regard this as a worthy and urgent goal **The Christian**
