Chaplin, Eddie Chaplin**

The Handbook Of Forensic Learning Disabilities:

The Handbook of Forensic Learning Disabilities Tim Riding, Caron Swann, Bob Swann, 2005 Addressing many issues including legal aspects associated with learning disabilities this text covers a broad range of perspectives drawing on contemporary practice teachings and best available research evidence

The Handbook of Forensic Learning Disabilities Tim Riding, Caron Swann, Bob Swann, 2021-04-05 This comprehensive and practical guide helps professionals and staff within hospitals change the way they collect record store and use clinical information about patients It illustrates how clinical governance and evidence based practice can be easily addressed by modernising clinical information practice to benefit patients and improve staff and service efficiency As well as helping organisations define and establish improved systems this book is of continuing use for all healthcare professionals who make store and use patient records High quality shared record keeping is recognised as being fundamentally important to good patient care This book offers an excellent practical approach to addressing the changes needed in clinical record keeping to support improved patient care clinical governance better management information and the move towards electronic patient records It brings together a strong clinical focus with the informatics principles needed to support a successful move to modern record keeping Yvonne Baker and Tricia Woodhead in the Foreword It will be a useful guide for clinicians and all other health professionals dealing with clinical information

Key Concepts in Learning Disabilities Pat Talbot, Geoff Astbury, Tom Mason, 2010-02-15 A helpful resource for those undertaking studies in learning disabilities at all levels I shall definitely be recommending it to my students John Boarder Bangor University This book provides a valuable and innovative contribution to the field of Learning Disabilities Logan Parumal University of Manchester Key Concepts in Learning Disabilities is a handy guide to the topics you need to know about whether studying or working in the field of Learning Disabilities The A Z format allows you to dip in and quickly find relevant information on topics ranging from Autism to Rights and from Advocacy to Challenging Behaviours Each entry features a snapshot definition of the concept a broader discussion of the main issues and applications to practice key points a case study and signposts to further reading Key Concepts in Learning Disabilities is an ideal companion to study and particularly useful for those completing academic assignments as part of training Written by a team of experienced

practitioners and lecturers the book reflects the multi disciplinary nature of contemporary practice

Learning Disabilities Chris Barber, 2022-04-08 Learning Disabilities is an accessible introductory textbook that will help to improve the quality of care provided to people with learning disabilities It is aimed primarily at nursing and healthcare students who are not in the learning disabilities field of practice but are seeking to understand learning disability and become rounded practitioners Through clear explanations examples and activities the book will help you to recognise support and care for people with learning disabilities whenever you meet them in your practice You will learn What learning disability is and how it interacts with physical and mental health What the role of the nurse or carer is and how to care for and provide support to people with

learning disabilities About legal issues around learning disability including discrimination capacity and consent How to support people with a learning disability who are experiencing ageing and suffering bereavement About spirituality and sexuality in relation to people with a learning disability How to support the informal unpaid caregivers who provide daily care to a person with a learning disability and how to recognise and utilise their experience and knowledge Written by a highly experienced author academic and caregiver this book will help you to improve your understanding of learning disability and to provide the high quality care to which people with learning disabilities are entitled *Caring for People with Learning Disabilities* Chris Barber, 2015-03-15 From the Foreword by Cecilia Anim OBE RCN President 2015 2018 an enjoyable touching and inspirational read for all those involved in the lives of people with learning disabilities *Caring for People with Learning Disabilities* is a concise introduction to the subject which covers all aspects of the care and support of the learning disabilities patient for the non specialist All people with learning disabilities are entitled to the same high standard of care as people who do not have a learning disability and to have their health and care needs met in full The vast majority of student nurses practising nurses and healthcare professionals are not learning disability specialists but they still need to provide care for patients with learning disabilities often for health needs that are not related to the person's disability The book covers a wide range of issues and aims to Improve knowledge and understanding of what learning disability is and what it means to live with a learning disability Provide practical advice and suggestions to improve the quality of care provided to people with learning disabilities Written in a jargon free style the book has numerous practical examples and case studies to help the reader frame the special requirements of the learning disabilities patient in the healthcare setting This book will help nurses and carers improve their understanding of learning disability and provide the high quality care to which people with learning disabilities are entitled **Learning Disability Nursing** Bob Gates, Kay Mafuba, 2014-12-12 *Learning Disability Nursing Modern Day Practice* provides a solid foundation that allows health care practitioners to care for and or support people with learning disabilities in a range of health and social care settings and scenarios The book addresses learning disability nursing from various perspectives including history and modern day practice **Clinical Psychology and People with Intellectual Disabilities** Eric Emerson, Chris Hatton, Kate Dickson, Rupa Gone, Amanda Caine, Jo Bromley, 2012-04-09 *Clinical Psychology People with Intellectual Disabilities* provides trainee and qualified clinical psychologists with the most up to date information and practical clinical skills for working with people with intellectual disabilities Represents an invaluable training text for those planning to work with people with intellectual disabilities Includes coverage of key basic concepts relevant clinical skills and the most important areas of clinical practice All chapters have been fully updated with the latest evidence New chapters cover working professionally working with people with autism and addressing aspects of the wider social context within which people with learning disabilities live Beneficial to related health and social care staff including psychiatrists nurses and social workers *Learning Disability Nursing Practice* Mark Jukes, 2014-10-22 This text encapsulates not only

the origins of nursing in the learning disability field but also contemporary perspectives and areas for specialist nursing practice The book is divided into four sections origins perspectives practice and further perspectives Section one origins describes Great Barr Colony and explores the conceptions of practice of actual attendants and nurses who worked there It gives readers an in depth focus on aspects of work and practice not accounted for in the literature to date Section two perspectives explores social policy perspectives from the past eras of the workhouse the colony and the hospital through to the present age of citizenship Research in learning disability nursing practice is identified through scoping exercises to identify its current status The section questions the research and practice developments that have come of age and that constitute a challenge within an evidence based health and social care world Section three practice identifies a wide range of specialist areas of nursing practice including community learning disability nursing epilepsy forensics health facilitation autism mental health challenging behaviour children's services and working with people with profound and multiple learning disabilities Section four further perspectives addresses areas of contemporary and future concern namely educational curricula for nurses and the importance of inter professional education and practice development

A Practical Guide to Social Interaction Research in Autism Spectrum Disorders Michelle O'Reilly, Jessica Nina Lester, Tom Muskett, 2017-11-16 This book introduces a novel approach for examining language and communication in autism spectrum disorder ASD discourse and conversation analysis The authors offer a set of very different perspectives on these complex issues than are typically presented in psychological and clinical work Emerging from a range of social scientific fields discourse and conversation analysis involve fine grained qualitative analysis of naturally occurring rather than laboratory based interaction enabling broad applications Presented in two parts this innovative volume first provides a set of pedagogical chapters to develop the reader's knowledge and skills in using these approaches before moving to showcase the use of discursive methods through a range of original contributions from world leading scholars drawn from a range of disciplines including sociology academic and clinical psychology speech and language therapy critical disability studies and social theory and medicine and psychiatry

A Companion to Criminal Justice, Mental Health and Risk Paul Taylor, Karen Corteen, Sharon Morley, 2014-10-22 Within the domains of criminal justice and mental health care critical debate concerning care versus control and therapy versus security is now commonplace Indeed the hybridisation of these areas is now a familiar theme This unique and topical text provides an array of expert analyses from key contributors in the field that explore the interface between criminal justice and mental health Using concise yet robust definitions of key terms and concepts it consolidates scholarly analysis of theory policy and practice Readers are provided with practical debates in addition to the theoretical and ideological concerns surrounding the risk assessment treatment control and risk management in a cross disciplinary context Included in this book is recommended further reading and an index of legislation making it an ideal resource for students at undergraduate and postgraduate level together with researchers and practitioners in the field

The School Psychology
