The Haunted Reality:

The Haunted Reality Sharon A. Gill, David R. Oester, 1996-10-01 *Gothic Realities* L. Andrew Cooper, 2014-01-10

Eighteenth century critics believed Gothic fiction would inspire deviant sexuality instill heretical beliefs and encourage antisocial violence this book puts these beliefs to the test After examining the assumptions behind critics fears it considers nineteenth century concerns about sexual deviance showing how Frankenstein Dr Jekyll and Mr Hyde Dorian Gray and other works helped construct homosexuality as a pathological dangerous phenomenon It then turns to television and film particularly Buffy the Vampire Slayer and David DeCoteau s direct to video movies to trace Gothicized sexuality s lasting impact Moving to heretical beliefs Gothic Realities surveys ghost stories from Dickens s A Christmas Carol to Poltergeist articulating the relationships between fiction and the real supernatural Finally it considers connections between Gothic horror and real world violence especially the tragedies at Columbine and Virginia Tech

Haunting Experiences Diane Goldstein, Sylvia Grider, Jeannie Banks Thomas, 2007-09-15 Ghosts and other supernatural phenomena are widely represented throughout modern culture They can be found in any number of entertainment commercial and other contexts but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them based on tradition or direct experience Personal belief and cultural tradition on the one hand and popular and commercial representation on the other nevertheless continually feed each other They frequently share space in how people think about the supernatural In Haunting Experiences three well known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts Diane E Goldstein Sylvia Ann Grider and Jeannie Banks Thomas take ghosts seriously as they draw on contemporary scholarship that emphasizes both the basis of belief in experience rather than mere fantasy and the usefulness of ghost stories They look closely at the narrative role of such lore in matters such as socialization and gender And they unravel the complex mix of mass media commodification and popular culture that today puts old spirits into new contexts

Reality's Dark Light Maria K. Bachman, Don Richard Cox, 2003 In the midst of a Victorian culture ingrained with strict social etiquette and societal norms Wilkie Collins composed novels that contained asocial even anarchic impulses A contemporary of Dickens Collins creates a world more Kafkaesque than Dickensian a world populated by doppelgangers secret selves oddballs and grotesques The essays of Reality s Dark Light The Sensational Wilkie Collins purposefully work to expand Collins s legacy beyond *The Woman in White* and *The Moonstone* they move well past the simplistic view of Collins s works as sensation novels detective novels or even popular fiction all labels that carry with them pejorative connotations This collection represents the range of Collins s aesthetic project from various critical perspectives New methodological and theoretical approaches are applied both to his most popular and to his lesser known works giving the reader a broader picture of this multifaceted and undervalued writer The Editors Maria K Bachman in an assistant professor of English at Coastal Carolina University Her articles have appeared in *Victorian Newsletter*

Literature and Psychology The Dickensian and Dickens Studies Annual Don Richard Cox is a professor of English and associate dean at the University of Tennessee His books include Sexuality and Victorian Literature Tennessee Arthur Conan Doyle and Charles Dickens s The Mystery of Edwin Drood An Annotated Bibliography He is the coeditor with Maria Bachman of an edition of Wilkie Collins s final novel Blind Love **Ghosted!** Brian Laythe, James Houran, Neil Dagnall, 2022-06-15 Reports of paranormal experiences vary tremendously but are often associated with ghosts haunted houses and otherwise eerie circumstances There exist both classic and modern texts on ghosts and haunted or possessed people places and spaces many discuss traditional ideas regarding such phenomena or utilize now outdated research in highly academic and technical ways This book offers a very different approach in reviews provided by a leading edge research program devoted to who has ghostly experiences and why With new insights both global in scale and multidisciplinary in scope this collaboration by five researchers uncovers consistent evidence that anomalous experiences represent a very real Haunted People Syndrome a term describing anomalous experiences that manifest recurrently to the same percipients and are interpreted as ghostly with implications for future research across academia The participation of new citizen scientists the field investigators and researchers among us is invited in furthering the exploration of paranormal mysteries Photos and figures illustrating concepts and models are included as is a glossary The Spectralities Reader Maria del Pilar Blanco, Esther Peeren, 2013-08-29 The Spectralities Reader is the first volume to collect the rich scholarship produced in the wake of the spectral turn of the early 1990s which saw ghosts and haunting conjured as compelling analytical and methodological tools across the humanities and social sciences Surveying the past twenty years from an interdisciplinary and cross cultural perspective the Reader displays the wide range of concerns spectrality in its diverse elaborations has been called upon to elucidate The disjunctions produced by globalization the ungraspable quality of modern media the convolutions of subject formation in terms of gender race and sexuality the elusiveness of spaces and places and the lingering presences and absences of memory and history have all been reconceived by way of the spectral A primer for the wide readership engaged with cultural interpretations of ghosts and haunting that go beyond the confines of the fictional and supernatural The Spectralities Reader includes twenty five groundbreaking texts by prominent contemporary thinkers from Jacques Derrida and Gayatri Spivak to Avery Gordon and Arjun Appadurai as well as a general introduction and six section introductions by the editors **My Haunted Reality** Rick WAGNER, 2017-09-15 Do you ever get a feeling that you are not alone and that there is something more to life as we see it There are spirits around us all the time leaving us messages if only we would take the time to notice them Why are they here What are they trying to tell us What is the difference between a ghost and a spirit Do they have any influence on us I have answers to these and so many more questions from a lifetime of experiences and encounters along with the lessons I ve learned I survived a Near Death Experience NDE on a motorcycle that changed my whole perspective of life and afterlife I have developed a new understanding and perception of the unexplained things

happening around us Our fear of ghosts has been instilled in us because of what Hollywood has put into our heads We need to see past all the horror movies and recognize that spirits do have a reason for being here My stories begin at a young age and increasingly revealed a reality to me that I had rejected at first because I didn't understand what I was being shown It was like spirits were testing me to see how I would respond The more they allowed me to see the more the fear dissipated and I could begin to accept and appreciate all that I was witnessing As I began performing energy clearings for my clients I was always aware of feeling more than just the energy in the room This sensitivity developed into an empathetic form of communication with the spirits around my clients allowing me to receive information about them and their reasons for being here I truly appreciate my ghosts and I wouldn't be alive right now without them These energies actually do have substantial meaning and effects on our lives and having the proper information and knowledge develops our understanding and sensitivity of the spirits around us Learning as much as we can about our existence here and being able to answer some of the rudimentary questions of life is a great way to increase our awareness It is wonderful to see the door of possibility and acceptance opening up more and more as we continue to explore a world of spirituality unexplained phenomena and what I like to call My Haunted Reality

Women, Sex, and Madness Breanne Fahs, 2019-07-22 Covering a wide variety of subjects and points of inquiry on women's sexuality from genital anxieties about pubic hair to constructions of the body in the therapy room this book offers a ground breaking examination of women sex and madness drawing from psychology gender and sexuality studies and cultural studies Breanne Fahs argues that women's sexuality embodies a permanent state of tension between cultural impulses of destruction and selfishness contrasted with the fundamental possibilities of subversiveness and joy Emphasizing cultural social and personal narratives about sexuality Fahs asks readers to imagine sex bodies and madness as intertwined and to see these narratives as fluid contested and changing With topics as diverse as anarchist visions of sexual freedom sexualized emotion work lesbian haunted houses and the insidious workings of capitalism Fahs conceptualizes sexuality as a force of regressive moral panics and profound inequalities deployed in both blatant and more subtle ways onto the body while also finding hope and resistance in the possibilities of sexuality By integrating clinical case studies cultural studies qualitative interviews and original essays Fahs offers a provocative new vision for sexuality that fuses together social anxieties and cultural madness through a critical feminist psychological approach Fahs provides an original and accessible volume for students and academics in psychology gender and sexuality studies and cultural studies

Gothic Vision Dani Cavallaro, 2002-08-01 The Gothic Vision examines a broad range of tales of horror terror the uncanny and the supernatural spanning the late eighteenth century to the present and of related theoretical approaches to the realm of dark writing It argues that such narratives are objects for historical analysis due to their implication in specific ideologies while also focusing on the recurrence over time of themes of physical and psychological disintegration spectrality and monstrosity This is an excellent overview of a genre that is increasingly studied in literature film and cultural studies courses

Haunting Realities Monika Elbert, Wendy Ryden, 2017-06-20 An innovative collection of essays examining the sometimes paradoxical alignment of Realism and Naturalism with the Gothic in American literature to highlight their shared qualities Following the golden age of British Gothic in the late eighteenth century the American Gothic's pinnacle is often recognized as having taken place during the decades of American Romanticism However *Haunting Realities* explores the period of American Realism the end of the nineteenth century to discover evidence of fertile ground for another age of Gothic proliferation At first glance Naturalist Gothic seems to be a contradiction in terms While the Gothic is known for its sensational effects with its emphasis on horror and the supernatural the doctrines of late nineteenth century Naturalism attempted to move away from the aesthetics of sentimentality and stressed sobering mechanistic views of reality steeped in scientific thought and the determinism of market values and biology Nonetheless what binds Gothicism and Naturalism together is a vision of shared pessimism and the perception of a fearful lingering presence that ominously haunts an impending modernity Indeed it seems that in many Naturalist works reality is so horrific that it can only be depicted through Gothic tropes that prefigure the alienation and despair of modernism In recent years research on the Gothic has flourished yet there has been no extensive study of the links between the Gothic and Naturalism particularly those which stem from the early American Realist tradition *Haunting Realities* is a timely volume that addresses this gap and is an important addition to scholarly work on both the Gothic and Naturalism in the American literary tradition
