New Perspectives on the Early Republic Ralph D. Gray, Michael A. Morrison, 1994 *Bankrupt Representation and Party System Collapse* Jana Morgan, 2011-11-30 In recent decades Bolivia Colombia Italy and Venezuela have all faced the turmoil and democratic crisis of party system collapse In *Bankrupt Representation and Party System Collapse* Jana Morgan analyzes the causes of such collapse She does so through a detailed examination of Venezuela's traumatic party system decay as well as comparative analysis of seven other countries Collapse occurs when the party system as a whole is unable to provide adequate linkage between society and the state failing to furnish programmatic representation integration of major societal interests or clientelist exchanges Linkage decays when party systems face challenges that jeopardize their core strategies at the same time that they are constrained in their ability to adapt and to confront these threats If this decay is unchecked and linkage of all sorts fails then the bankrupt party system collapses

Muñoz Marquez, Martial Foucault, Éric Montpetit, 2020-03-04 What will gain the system's attention Explores the dynamics of a broad range of policy issues in different countries an important scholarly contribution *Political Studies Review* Before making significant policy decisions political actors and parties must first craft an agenda designed to place certain issues at the center of political attention The agenda setting approach in political science holds that the amount of attention devoted by the various actors within a political system to issues like immigration health care and the economy can inform our understanding of its basic patterns and processes While there has been considerable attention to how political systems process issues in the United States Christoffer Green Pedersen and Stefaan Walgrave

demonstrate the broader applicability of this approach by extending it to other countries and their political systems This book brings together essays on eleven countries and two broad themes Contributors to the first section analyze the extent to which party and electoral changes and shifts in the partisan composition of government have led or not led to policy changes in the United States the United Kingdom the Netherlands Denmark Switzerland and France The second section turns the focus on changing institutional structures in Germany Italy Belgium Spain and Canada including the German reunification and the collapse of the Italian party system Together the essays make clear the efficacy of the agenda setting approach for understanding not only how policies evolve but also how political systems function

The Idea of Political Marketing Nicholas O. O'Shaughnessy, Stephan C.M. Henneberg, 2002-06-30 O'Shaughnessy Henneberg and their contributors examine how the theory and practice of marketing has been and can be applied to politics Particular attention was paid to the theory of political marketing with conceptual definitions developed to better facilitate communication between marketing professionals and political science researchers Political marketing is about the making and unmaking of governments in a democracy Despite its growing importance the marketing academic profession has shown very little interest in the political ramifications of their discipline while political scientists often come to political marketing with the view that it is cosmetic if not trivial O'Shaughnessy Henneberg and their contributors examine how the theory and practice of marketing has been and can be applied to politics As they show elections are a persuasion task writ large most especially with the demise of inherited class loyalties Following elections governments can employ marketing techniques to build support for their actions while opposition parties can press the government and its supporters through similar marketing approaches Of particular interest to scholars researchers and policy makers involved with politics political communication and the making of public policy
