Making Sense in Life and Literature Hans Ulrich Gumbrecht, 1992 **Border Writing** D. Emily Hicks, 1991 Annotation Examines Latin American literature from the perspective of attempts to break through national genre domain and other borders in order to perceive or create a whole culture Paper edition unseen 14 95 Annotation c 2003 Book News Inc Portland OR booknews com *Madness in Cold War America* Alexander Dunst, 2016-08-19 This book tells the story of how madness came to play a prominent part in America's political and cultural debates It argues that metaphors of madness rise to unprecedented popularity amidst the domestic struggles of the early Cold War and become a pre eminent way of understanding the relationship between politics and culture in the United States In linking the individual psyche to society psychopathology contributes to issues central to post World War II society a dramatic extension of state power the fate of the individual in bureaucratic society the political function of emotions and the limits to admissible dissent Such vocabulary may accuse opponents of being crazy Yet at stake is a fundamental error of judgment for which madness provides welcome metaphors across US diplomacy and psychiatry social movements and criticism literature and film In the process major parties and whole historical eras literary movements and social groups are declared insane Reacting against violence at home and war abroad countercultural authors oppose a sane madness to irrational reason romanticizing the wisdom of the schizophrenic and paranoia's superior insight As the Sixties give way to a plurality of lifestyles an alternative vision arrives of a madness now become so widespread and ordinary that it may finally escape pathology **Fredric Jameson** Sean Homer, 2018-12-07 Fredric Jameson has been described as probably the most important cultural critic writing in English today and he is widely acknowledged as the foremost proponent for the tradition of critical theory known as Western Marxism Yet his work has not been given the systematic review like other contemporary thinkers like Foucault and Derrida Fredric Jameson Marxism Hermeneutics Postmodernism is a thoroughly up to date detailed review and analysis of the work of this influential intellectual Covering Jameson's work and thought from his early projects of form and history to his more recent engagements with postmodernism and cultural politics this synthesis offers a balanced assessment of his ideas their development and their continuing influence **Fredric Jameson** Robert T. Tally, 2014-06-20 Fredric Jameson is the most important Marxist critic in the world today While consistently operating at the cutting edge of literary and cultural studies Jameson has remained committed to seemingly old fashioned philosophical discourses most notably dialectical criticism and utopian thought In Fredric Jameson The Project of Dialectical Criticism Robert Tally surveys Jameson's entire oeuvre from his early studies of Sartre and formal criticism through his engagements with postmodernism and globalisation to his recent readings of Hegel Marx and the valences of the dialectic The book is both a comprehensive critical guide to Jameson's

theoretical project and itself a convincing argument for the power of dialectical criticism to understand the world today

The Ontology of Space in Biblical Hebrew Narrative Luke Gartner-Brereton, 2014-12-18 The central premise of this book is that biblical Hebrew narrative in terms of its structure tends to operate under similar mechanical constraints to those of a stage play wherein space is central characters are fluid and objects within the narrative tend to take on a deep internal significance The smaller episodic narrative units within the Hebrew aesthetic tend to grant primacy to space both ideologically and at the mechanical level of the text itself However space as a determinate structural category has been all but overlooked in the field of biblical studies to date reflecting perhaps our own inability as modern readers to see beyond the dominant cinematic aesthetic of our times The book is divided into two major sections each beginning with a more theoretical approach to the function of narrative space and ending with a practical application of the previous discussion using Genesis 28 10 22 the Bethel narrative and the book of Ruth respectively as test cases *Redirections in Critical*

Theory Bernard McGuirk, 2002-09-11 The essays in *Redirections in Critical Theory* re-analyse major figures and discussions in critical theory asking questions often neglected or overlooked by a readership ever in pursuit of new theoretical positions Contributors look at the work of major theorists and writers including William Empson Deleuze Guattari Chekov and Jameson Concepts which have been destabilized in modern critical theory such as truth self action and history are reassessed through their work shedding new light on many important issues in critical studies today *Redirections in Critical Theory* brings together established critics and new names in the field of theory It will be an important text for students of literature critical theory and philosophy

The Thriller and Northern Ireland since 1969 Aaron Kelly, 2017-03-02 For the past 30 years the so called Troubles thriller has been the dominant fictional mode for representing Northern Ireland leading to the charge that the crudity of this popular genre appropriately reflects the social degradation of the North Aaron Kelly challenges both these judgments showing that the historical questions raised by setting a thriller in Northern Ireland disrupt the conventions of the crime novel and allow for a new understanding of both the genre and the country Two essays on crime fiction by Walter Benjamin and Berthold Brecht appear here for the first time in English translation By demonstrating the relevance of these theorists as well as other key European thinkers such as Antonio Gramsci Louis Althusser and Slavoj Žižek to his interdisciplinary study of Irish culture and the crime novel Kelly refutes the idea that Northern Ireland is a stagnate anomaly that has been bypassed by European history and remained impervious to cultural transformation On the contrary Kelly's examination of authors such as Jack Higgins Tom Clancy Gerald Seymour Colin Bateman and Eoin McNamee shows that profound historical change and complexity have characterized both Northern Ireland and the thriller form **Reflexivity**

And The Crisis of Western Reason Barry Sandywell, 2013-06-17 This ground breaking work explores the genealogical analysis of the discourses of reflection Barry Sandywell traces the differences between the traditional discourses of reflection and the experiences of reflexivity in everyday social and philosophical thought Brilliantly organised and abounding with

astonishing insights Reflexivity and the Crisis of Western Reason offers a fundamental challenge to our normal ways of viewing social thought
