The Impact of Academic Research on Industrial Performance ,2003 **R&D Management and Technology Commercialization** Orestis Georgiou, Mykola Maksymenko, Stephen Russo, 2025-05-26 Industrial spending for research and development R D initiatives is growing globally year on year from both public and private investments As this

spending grows so does the complexity of R D organizations and processes Hence high quality R D management becomes increasingly important to streamline R D processes Intended for R D managers and technology leaders in small medium and large enterprises this book addresses questions such as how to align R D with broader organizational needs best practices for R D hiring and team building how to select which metrics to be measured and the process of moving a technology from the laboratory to the market **Managing University Intellectual Property in the Public Interest** National Research

Council,Policy and Global Affairs,Committee on Science, Technology, and Law,Board on Science, Technology, and Economic Policy,Committee on Management of University Intellectual Property: Lessons from a Generation of Experience, Research, and Dialogue,2011-03-28 Thirty years ago federal policy underwent a major change through the Bayh Dole Act of 1980 which fostered greater uniformity in the way research agencies treat inventions arising from the work they sponsor Before the Act if government agencies funded university research the funding agency retained ownership of the knowledge and technologies that resulted However very little federally funded research was actually commercialized As a result of the Act s passage patenting and licensing activity from such research has accelerated Although the system created by the Act has remained stable it has generated debate about whether it might impede other forms of knowledge transfer Concerns have also arisen that universities might prioritize commercialization at the expense of their traditional mission to pursue fundamental knowledge for example by steering research away from curiosity driven topics toward applications that could yield financial returns To address these concerns the National Research Council convened a committee of experts from universities industry foundations and similar organizations as well as scholars of the subject to review experience and evidence of the technology transfer system s effects and to recommend improvements The present volume summarizes the committee s principal findings and recommendations

Services Science Bernd Stauss,Kai Engelmann,Anja Kremer,Achim Luhn,2007-10-15 The service sector has dominated advanced economies for years In many countries it accounts for more than 70% of gross domestic product and approximately the same percentage of all employees work in this sector To reflect the economic relevance of the service sector services science must be established as an academic discipline But the path in pursuit of this goal is riddled with challenges especially in the fields of services research service oriented education and service related collaborations This book includes detailed articles and short statements on each field written by academics and experts They explain which challenges need to be met by research and academic training in the services community of the 21st century The contributions contained in this book reflect the content of presentations and statements given at the first German Services Science Conference **Open Services Innovation** Henry Chesbrough,2011-01-18 The father of open innovation is back with his most significant book yet Henry Chesbrough s acclaimed book Open Innovation described a new paradigm for management in the 21st century Open Services Innovation offers a new approach that demonstrates how open innovation combined with a services approach to business is an effective and powerful way to grow and compete in our increasingly

Basic Research And Industrial Innovation In China Xielin Liu,Yubing He,Peng Cheng,2018-10-31
Chinese enterprises have relied on importing technology and imitation as their main technology strategies in the past Based on analysis of cross countries case studies and the history of industrial innovation the authors proposed the concept of industry driven basic research and expounds the important role of scientific discovery in industrial technological innovation They are convinced that both the government and enterprises should focus on industry driven basic research in order to bridge the gap between the government s target and what enterprises actually do in China The challenge remains to be seen if China can transform Science and technology investment into real industrial innovation capability
