Michael Stonewood, 2019-03-14. The Australian Shepherd is a medium-sized breed of dog. Interestingly, the Australian Shepherd was not actually developed in Australia but was actually developed on the ranches in the Western United States of America during the 19th century. The breed rose to popularity after World War 2 due to an increase in western riding, horse shows, rodeos, and the fact that they were used in Disney movies. The Australian Shepherd has always been a popular choice of working dog due to their versatility, intelligence, obedience, and trainability. They are also known to be highly empathetic dogs. They have mainly been used as stock dogs and herding dogs. Like all working breeds of dog, the Australian Shepherd is incredibly energetic and will often rank highly in dog sports such as agility and Frisbee at dog shows. The breed is also commonly employed as search and rescue dogs, detection dogs, guide dogs, service dogs, and therapy dogs. The breed has a similar aesthetic to the English Shepherd and Border Collie breeds. They have ranked within the top 20 most popular breeds within the United States of America since they rose to popularity.
