Anthony Elliott: Early Works in Social Theory Anthony Elliott, 2021-02-25 The volumes in this set originally published between 1999 and 2003 draw together early works in social theory by leading sociologist Anthony Elliott The collection covers some of his major works in the field of social theory with a particular focus on psychoanalysis and social theorists within the area of sociology The works in this set make accessible previously unavailable works from the early stages of Anthony Elliott's ongoing and prolific career to date *Social Theory Since Freud* Anthony Elliott, 2004-06-01 In this compelling book Anthony Elliott traces the rise of psychoanalysis from the Frankfurt School to postmodernism Examining how pathbreaking theorists such as Adorno Marcuse Lacan and Lyotard have deployed psychoanalysis to politicise issues such as desire sexuality repression and identity Elliott assesses the gains and losses arising from this appropriation of psychoanalysis in social theory and cultural studies Moving from the impact of the Culture Wars and recent Freud bashing to contemporary debates in social theory feminism and postmodernism Elliott argues for a new alliance between sociological and psychoanalytic perspectives **Deconstructing Happiness** Jordan McKenzie, 2016-03-10 This book offers an original

account of the good life in late modernity through a uniquely sociological lens It considers the various ways that social and cultural factors can encourage or impede genuine efforts to live a good life by deconstructing the concepts of happiness and contentment within cultural narratives of the good life While empirical studies have dominated the discourse on happiness in recent decades the emphasis on finding causal and correlational relationships has led to a field of research that arguably lacks a reliable theoretical foundation *Deconstructing Happiness* offers a step toward developing that foundation by offering

characteristically sociological perspectives on the contemporary fascination with happiness and well being In doing so it seeks to understand the good life as a socially mediated experience rather than a purely personal or individually defined way of living The outcome is a book on happiness contentment and the good life that considers the influence of democracy capitalism and progress while also focusing on the more theoretical challenges of self knowledge reason and interaction

Goffman's Legacy Javier A. Treviño,2003-07-28 Erving Goffman 1922 82 was arguably one of the most influential American sociologists of the twentieth century A keen observer of the interaction order of everyday life Goffman s books which have sold in the hundreds of thousands continue to be widely read and his concepts have permanently entered the sociology lexicon This volume consists of ten original essays all written by prominent Goffman scholars that critically assess Goffman s many contributions to various areas of study including functionalism social psychology ethnomethodology and feminist theory

Crime, Criminal Justice and Masculinities Stephen Tomsen,2017-07-05 This volume features the leading contemporary articles that are part of or related to the new masculinities approach in this sphere These comprise an impressive range of theoretical and empirical work including important cultural and ethnographic analyses They emphasise the relationship between masculinities the causes and patterns of most criminal offending and victimisation and the broader workings of the wider criminal justice system of policing public and private criminal courts corrections and prisons All of the material has been selected from flagship international journals and was produced by a global mix of male and female researchers with diverse disciplinary backgrounds These scholars share the view that masculinities are plural socially constructed reproduced in the collective social practices of different men and embedded in institutional and occupational settings Furthermore masculinities are intricately linked with social struggles for power that occur between men and women and different men Crime criminal justice and their cultural representation are key terrain for these masculine contests and are always overlain with issues such as social class age race ethnicity and sexuality
