Successful Kindergarten Transition Robert C. Pianta, Marcia Kraft-Sayre, 2003

Supporting Children's Well-Being During Early Childhood Transition to School Tatalović Vorkapić, Sanja, LoCasale-Crouch, Jennifer, 2020-10-23

Life transitions differ concerning the intensity of the change and the intensity of the child's reaction to that change. For most children, the first and most significant transition is from the family home to an institution of early care and education which includes preschool. These transitions can also include children's passage from kindergarten to elementary school. However, the intensity of the child's reaction is related to the size of the change that is happening and also to who or what is involved in that change and the importance a child attributes to that someone or something.

Supporting Children's Well-Being During Early Childhood Transition to School is an essential scholarly publication that examines evidence-based practices and approaches that fully support a child's well-being during transition periods in early childhood. It serves as a resource to rethink contemporary transition theoretical models, research studies, and applied practices. Featuring a wide range of topics such as emotional competency, language learners, and professional development, this book is ideal for academicians, psychologists, early childhood educators, daycare centers, curriculum designers, policymakers, researchers, education professionals, and students.

Evidence-Based Practices and Programs for Early Childhood Care and Education Christina J. Groark, Kelly E. Mehaffie, Robert B. McCall, Mark T. Greenberg, 2006-07-14

This timely handbook presents evidence and recommendations to make informed decisions for planning, funding, and operating high-quality educational programs for children ages 3-8.

Kindergarten Transition and Readiness Andrew J. Mashburn, Jennifer LoCasale-Crouch, Katherine C. Pears, 2018-06-09

This book presents a comprehensive overview of children's transitions to kindergarten as well as proven strategies that promote their readiness. It presents theories and research to help understand children's development during the early childhood years. It describes evidence-based interventions that support children in developmental areas essential to school success, including cognitive, social, emotional, and self-regulatory skills. Chapters review prekindergarten readiness programs designed to promote continuity of learning in anticipation of the higher grades and discuss transitional concerns of special populations such as non-native speakers, children with visual and other disabilities, and children with common temperamental issues. The volume concludes with examples of larger-scale systemic approaches to supporting children's development during the transition to kindergarten, describing a coherent system of early childhood education that promotes long-term development. Featured topics include consistency in children's classroom experiences and implications for early childhood development, changes in school readiness in U.S. kindergarteners, effective transitions to kindergarten for low-income children, the transition into kindergarten for English language learners, the role of close teacher-child relationships during the transition into kindergarten, children's temperament and its effect on their kindergarten transitions. *Kindergarten Transition and Readiness* is a must-have resource for researchers, clinicians, and

related professionals and graduate students in child and school psychology educational psychology social work special education and early childhood education

The Bloomsbury Handbook of Early Childhood Transitions Research Aline-Wendy Dunlop, Sally Peters, Sharon Lynn Kagan, 2024-09-19 Research into early childhood transitions has become a field in its own right It is increasingly understood that a positive start in any new setting can influence the child's engagement sense of belonging well being progression in learning and agency and may be dependent on the insight of educators and families and yet there is no research methodology or research methods book dedicated to this growing field of study Including 27 chapters written by researchers from the UK New Zealand the USA Sweden Iceland Australia and Canada this handbook presents an overview of the field exploring its current debates reflects on its history and offers suggestions for the future of the field This book is an essential reference point for anyone studying or undertaking research into transitions in early childhood

Evaluating Transition to School Programs Sue Dockett, Bob Perry, 2021-10-21 Transition to school represents a time of great change for all involved Many transition to school programs have been developed to support positive transitions to school While these programs have involved complex planning and implementation often they have not been evaluated in rigorous or systematic ways This book brings together Australian and international perspectives on research and practice to explore approaches to evaluating transition to school programs For children school is quite different from anything else they have experienced For families and educators there are considerable changes as they interact with new people and take on new roles Developing effective transition to school programs is a key policy initiative around the world based on recognition of the importance of a positive start to school and the impact of this for future school engagement and outcomes Throughout the chapters of this book authors from Australia Germany Sweden Ireland and Jamaica share examples of evaluation practice with the aim of encouraging educators to reflect on their own contexts and adopt evaluation practices that are relevant and appropriate for them The book brings together the fields of evaluation research and transition to school A wide range of examples and figures is used to relate research and practice and to illustrate possible applications of evaluation strategies Evaluating Transition to School Programs highlights the importance of multiple perspectives of the transition to school and offers suggestions about how the perspectives of children families educators and community members might be included and analysed in evaluation strategies Other themes throughout the book include the importance of collaboration respectful and trusting relationships practitioner driven inquiry strengths based approaches and developing programs that are responsive to context This book is written for educators and leaders in early years and primary school settings and will also be of interest to researchers students and policy makers in the field
