## **Sudan Contested National Identities:**

**The Sudan** Ann Mosely Lesch, 1998 This highly informative work digs into the intricate history of Sudanese politics Lesch brings a welcome clarity to Sudan's tangle of political ethnic and religious problems by concentrating on the country's central dilemma the inability of its leaders to negotiate a common definition of nationhood Foreign Affairs the first correct account of what took place after independence Robert O Collins The Sudan is torn by ethnic and religious conflict centered on the struggle over the definition of the Sudanese nation state Is the Sudan primarily Arab or African by culture and ethnicity Should the political system privilege Islamic legal codes or accord equal citizenship to persons of all faiths Ann Mosely Lesch provides a comprehensive and even handed analysis of the unresolved struggle for a stable political system and a unified national identity *National Identity and State Formation in Africa* Manuel Castells, Bernard Latagan, 2021-03-17 This book examines how the interplay between globalization and the assertion of local identities is reshaping the political landscape of Africa While defending their values against external forces people simultaneously and paradoxically use the interconnectivity of global networks to maximize their particular interests Focusing on the relation between national identity and state formation the authors explore the far reaching consequences of these contradictory dynamics Although Africa shares many common trends with other parts of the world it also displays distinctive features A region characterized by the increased mobility of people goods and ideas challenges some conventional assumptions of statecraft and also highlights the advantages of federalism not merely as a constitutional option but as a pragmatic device for managing diversity and holding fragile states together The book further explores emerging types of state formation in the same political space as exemplified by the combination of elements of a kingdom an independent state and a national power base in the province of KwaZulu Natal and the careful crafting of an alternative state within a state by the Solidarity Movement in South Africa Informed by examples and case studies drawn from different parts of Africa this book will be of great interest to students and scholars of Africa politics sociology media studies and the social sciences more generally **Sudan** Richard S. Williamson, 2009

*Identity, Citizenship, and Violence in Two Sudans: Reimagining a Common Future* A. Idris, 2013-08-20 The 2011 split of Sudan and the conflicts that have followed make it a case of ongoing significance for understanding state building in Africa Examining both the north south divide and the spread of violence from Darfur this study shows how colonial legacies have shaped state formation and charts out a path to inclusive citizenship and democracy The Horn of Africa since the 1960s Aleksí Ylönen, Jan Záhorský, 2017-02-17 The Horn of Africa has long been one of the most dynamic and politically turbulent sub regions on the African continent Host to great ancient civilizations diverse peoples and expansive states the region has experienced massive social economic and political transformations which have given rise to military coups revolutions and intractable ethnic socio economic and religious conflicts This comprehensive volume brings together a team of expert scholars who analyze international regional national and local affairs in the Horn of Africa The chapters demonstrate the

intertwined nature of the actors and forces shaping political realities The case studies focusing on Ethiopia Eritrea Somalia Somaliland Sudan and South Sudan eloquently illustrate the complex dynamics connecting the spectrum of political issues in the region The Horn of Africa since the 1960s will be of interest to students and scholars of contemporary Africa and political science

**Sudan's Wars and Peace Agreements** Stephanie Beswick, Jay Spaulding, 2010-07-12 Originating from the 2008 27th annual conference of the Sudan Studies Association SSA of the same title these essays document and analyze Sudan's chronic history of conflict since independence in 1956 as well as its own and international efforts to bring an end to these conflicts As the country moves toward what some see as the inevitable separation of South Sudan in 2011 honoring the principle of self determination long fought for by southerners the lessons of six decades of a history of war and peace agreements is both telling and compelling This analysis is offered by the real experts on Sudan rather than the usual story offered by journalists and pundits In addition to an Introduction by the editors all founders or current or past presidents of the SSA the essays by Sudanese and non Sudanese explore the often bitter history of North South relations and loss of life leading to the consideration of a range of options from a continuation of national unity under revised terms to federation or redivision to full separation of the South and the constitution of a new African state The role of the Khartoum government's pursuit of policies of Islamization and Islamism for a quarter of a century across multiple regimes is also treated The central question of constructing a sustainable peace irrespective of the outcome in 2011 is detailed along with the essential consideration of women and gender perspectives to sustain any peace negotiated This book is must reading in advance of or in response to the crucial events as they unfold in Sudan in 2011 and beyond

*Historical Dictionary of the Sudan* Robert S. Kramer, Richard A. Lobban Jr., Carolyn Fluehr-Lobban, 2013-03-22 The Republic of the Sudan was long the largest country in Africa and according to the general consensus also one of the least successful in many ways This was not entirely its fault since it lay along the fault line between Muslim and Christian Africa and between the Nile Valley civilizations and African Sudanic cultures This partly explains the long and bloody warfare waged by the Southerners to achieve independence which they did in July 2011 So this hefty book actually covers not one but two states This fourth edition of the Historical Dictionary of the Sudan does so first through a lengthy and detailed chronology tracing its relatively few successes and numerous failures The introductory essay does an admirable job of putting it all in perspective But the most informative part is the dictionary with now over 700 entries for this fourth edition They deal with important personalities politics the economy society culture religion and inevitably the civil war There are also appendixes and an extensive bibliography

**Conflict and Politics of Identity in Sudan** A. Idris, 2005-08-19 This book explores the relationship between state formation and political identities in the context of Sudan's conflict Idris examines how hierarchy was historically constructed and politically institutionalized in the Sudan acknowledging the centrality of the historical legacy of slavery and colonialism in Sudan's postcolonial crisis

War and Statehood in South Sudan Manfred Öhm, 2015-03-26 This study provides empirically based

insights into the relationship between war statehood and peaceful conflict resolution during the second Sudanese civil war and following the independence of South Sudan 2011 Several influencing factors have been identified the dynamics of political and ethnic conflict the authoritarian character of the former rebel movement SPLM the role of the church and of traditional leaders in local peace processes and how the enormous presence of international aid organizations has affected both war and statehood The empirical findings suggest that South Sudan is not an example of state failure but rather part of a broader process of state formation As such this collection argues that state building is indeed possible during war The analysis of the independent South Sudan post 2011 illustrates that the country is still struck by strong political and ethnic conflicts and continued violence This is a book that is relevant and full of insights for social scientists and practitioners of development co operation

**Sudan** Abdel Salam Sidahmed, Alsir Sidahmed, 2004-11-10 Stretching between the savannah and the equator Sudan is a microcosm of Africa with one leg in the Arab world and the other in Africa Sudan s development however has failed to address the differences within the country between its diverse ethnic communities This has resulted in political instability and a lack of national consensus ultimately leading to long term civil war This useful book provides a comprehensive introduction to contemporary Sudan outlining the evolution of the state with emphasis on its post independence experience It includes chapters on the history politics society international relations and economy of the country
