The Hidden Hierarchy:

The Hidden Hierarchy Ulla Ressner,1987 *Hidden Hierarchies* Drayan Selvek,2025-09-18 Hidden Hierarchies
Secrets of the Lower Astral How can we cross the subtlest layers of existence with clarity and courage In exploring the so called lower astral Drayan Selvek demonstrates that the invisible is not a territory of fear but a profound mirror of our repressed emotions and thoughts Each chapter offers maps reflections and practices that help to recognise dense patterns understand collective forces and regain spiritual autonomy This is not about phantasmagorias or empty rituals but about a lucid method for strengthening your inner protection and expanding your awareness The reading is engaging and transformative revealing how to deal with heavy environments emotional compulsions and invisible influences It is a reliable guide for anyone seeking maturity discernment and balance on the spiritual path In this work the reader will find a book about the lower astral that practically reveals how these vibrational layers influence daily life It is also a book about astral larvae showing how emotional patterns create parasitic energetic forms a book about mental shells and psychic residues that manifest in dense environments and a book about harmful egregores that collectively shape behaviours The book delves deep as a manual for energetic hygiene and spiritual protection also offering resources for psychic defence Equally it is a book about soul retrieval spiritual ethics and astral maps uniting theory practice and responsibility on the occultist path [The Mystical Brotherhood: Unveiling the Hidden Order](#) Pasquale De Marco,2025-04-27 Journey into the hidden world of the Mystical Brotherhood a clandestine organization that has shaped the course of history and continues to exert its influence today This groundbreaking expos unveils the Brotherhood s secret history its intricate rituals and its far reaching impact on societies throughout the ages Drawing from ancient texts historical records and insider accounts the author reveals the Brotherhood s hidden agenda its manipulation of governments and economies and its infiltration of cultural narratives From its humble origins to its rise to prominence the Brotherhood s quest for power and control is laid bare Unravel the Brotherhood s intricate network of secret societies financial institutions and political alliances and discover how it has manipulated events and shaped destinies without the knowledge or consent of the masses Witness the challenges posed by rebels truth seekers and enlightened ones who dare to expose the Brotherhood s secrets and thwart its sinister plans Explore the Brotherhood s enigmatic history its hidden symbols and rituals and its pervasive influence on every corner of the globe Learn about the Brotherhood s secret machinations its manipulation of historical events and its plans for a new world order under its dominion This book is a journey into the heart of the Mystical Brotherhood a journey that will challenge long held beliefs uncover forgotten truths and shed light on the hidden forces that shape our world It is a must read for anyone seeking to understand the hidden currents of power and influence that shape our societies If you like this book write a review on google books *The Hidden Curriculum of Online Learning* Murat Öztok,2019-08-08 Challenging the current understandings of equity and social justice in the field of online education *The Hidden Curriculum of Online Learning*

analyses how cultural hegemony creates unfair learning experiences through cultural differences. It argues that such inequitable learning experiences are not random acts but rather represent the existing inequities in society at large through cultural reproduction. Based on an ethnographic work, the book discusses the concept of social absence in relation to social presence to discuss how individuals perform their identities within group contexts and to create awareness of social justice issues in online education. It draws upon critical pedagogy and cultural studies to show that while online learning spaces are frequently promoted by local or federal governments and higher education institutions as overwhelmingly inclusive and democratic, these premises do not operate with uniformity across all student cohorts.

The Hidden Curriculum of Online Learning It will be of great interest to academics, post graduate students and researchers in the fields of digital learning and inclusion education research and cultural studies.

The Hidden Pattern Ben Goertzel, 2006. The Hidden Pattern presents a novel philosophy of mind intended to form a coherent conceptual framework within which it is possible to understand the diverse aspects of mind and intelligence in a unified way. The central concept of the philosophy presented is the concept of pattern minds and the world they live in and co create are viewed as patterned systems of patterns evolving over time and various aspects of subjective experience and individual and social intelligence are analyzed in detail in this light. Many of the ideas presented are motivated by recent research in artificial intelligence and cognitive science and the author's own AI research is discussed in moderate detail in one chapter. However, the scope of the book is broader than this incorporating insights from sources as diverse as Vedantic philosophy, psychedelic psychotherapy, Nietzschean and Peircean metaphysics and quantum theory. One of the unique aspects of the patternist approach is the way it seamlessly fuses the mechanistic engineering oriented approach to intelligence and the introspective experiential approach to intelligence.

The Hidden Power of Social Networks Robert L. Cross, Andrew Parker, 2004. Identifying and Leveraging the Hidden Social Networks That Drive Corporate Performance. In today's flatter organizations, collaboration in employee networks has become critical to innovation and to both individual and companywide performance. Executives spend millions on new organizational designs, cultural initiatives and technologies to promote the sharing of knowledge and expertise across functional, hierarchical and divisional lines. Yet these efforts have achieved disappointing results. Rob Cross and Andrew Parker argue that's because most managers have little understanding of how their employees actually interact to get work done. In fact, formal org charts fail to reveal the often hidden social networks that truly drive or hinder an organization's performance. In this eye-opening book, Cross and Parker show managers how to find, assess and support the networks most crucial to competitive success. Based on their in-depth study of more than sixty informal networks within organizations around the world, Cross and Parker show how managers can implement a wide range of specific and inexpensive actions from bridging strategically important disconnects in a network to eliminating information bottlenecks to recognizing key connectors that will enhance the powerful impact networks can have on performance and innovation.

Secrets of the Hidden Vessels Fletcher Kovich, 2018-10-27

The Nei Jing consists of ancient Chinese scripts and is the foundation of Chinese acupuncture. But several factors make the Nei Jing and also today's Chinese medicine difficult to comprehend. Parts of the Nei Jing are fact based, parts are metaphorical and not intended to be interpreted literally, and other parts contain contradictory theories which cannot all be true. Added to this is the problem that Chinese medicine concepts can seem incomprehensible to Western readers anyway. This book tackles these problems by relating Chinese medicine knowledge to today's physiology and identifying the overlap. The book also extensively analyses the Nei Jing theories on metabolism, organ function, physiology, and the five phase theory, and points out which aspects of these theories are fact based, which are metaphorical, and which are untrue. This enables students to readily understand Nei Jing metabolism and physiology and to decide for themselves which aspects apply in reality. Today's Chinese medicine disease syndromes are also explained. But in general, the book follows the simple approach used in the Nei Jing. With each organ, a single main condition is cited, such as poor kidney function, then the signs and symptoms listed. This enables Western students to understand the condition and also demonstrates how to communicate Chinese medicine to patients. The book also analyses recent scientific ideas on how acupuncture may work and describes its own intelligent tissue hypothesis. This groundbreaking hypothesis is supported by objective experimental data and provides a lucid and plausible explanation of what the meridians are, what acupuncture is, and it also clearly describes the mechanism that enables acupuncture to correct organ malfunctions. The book brings an unusual transparency to Chinese medicine, making the whole subject easier to understand. Fletcher Kovich runs his own Chinese acupuncture practice in the UK. Praise for *Secrets of the Hidden Vessels*. The book is fascinating. And from the teaching perspective, it is a great tool to help students understand the organ functions. The book also uses an interesting approach to explain the mental and emotional factors in causing disease, which again will greatly assist in the teaching of this aspect of Chinese medicine. Brandon Fuller, Program Chair, East West College of Natural Medicine, Sarasota, Florida. We have come across many books on Chinese Medicine, and particularly like this book's approach of blending the Western and Chinese understanding of the organs to make it clear that both systems describe the same organs. There is a global paradigm shift in medicine, and the importance of Chinese Medicine in understanding the body and health plays a key role in the West's acceptance of alternative approaches to healthcare. Sam Patel, Joint Principal, The International College of Oriental Medicine, UK.

Histories of the Hidden God April D DeConick, Grant Adamson, 2016-04-08. In Western religious traditions, God is conventionally conceived as a humanlike creator, lawgiver, and king, a being both accessible and actively present in history. Yet there is a concurrent and strong tradition of a God who actively hides. The two traditions have led to a tension between a God who is simultaneously accessible to humanity and yet inaccessible, a God who is both immanent and transcendent, present and absent. Western Gnostic, esoteric, and mystical thinking capitalizes on the hidden and hiding God. He becomes the hallmark of the mystics, Gnostics, sages, and artists who attempt to make accessible to humans the God who is secreted away. *Histories of the Hidden God* explores this tradition.

from antiquity to today The essays focus on three essential themes the concealment of the hidden God the human quest for the hidden God and revelations of the hidden God *DEMONOLOGY AND DARK ARTS : The Hidden Knowledge of Infernal Powers* ETHAN GRAVES,2025-05-03 What secrets lie behind the names whispered in forbidden rituals Who are the true rulers of the infernal realms and how have their powers influenced occult traditions for centuries Can demonic hierarchies and black magic rituals still shape modern spiritual practices This authoritative and uncompromising work unveils the vast and intricate world of demonology and the dark arts providing an essential guide for those who seek to understand explore or confront the forces often shrouded in mystery and fear With a scholarly yet accessible tone the book navigates through demonic names infernal ranks and the ritual practices that form the foundation of traditional black magic and left hand path systems From ancient grimoires to contemporary occult currents this guide serves as a bridge between historical demonological study and the living breathing practices of modern day esotericists Inside readers will discover A complete catalog of demonic names sigils origins and their functions within various occult systems Detailed descriptions of the infernal hierarchies including the roles and domains of kings dukes princes and lesser spirits A deep analysis of black magic rituals with references to classical grimoires such as The Lesser Key of Solomon Ars Goetia and The Grand Grimoire An overview of how demonology intersects with necromancy witchcraft and ritual evocation Interpretations of demonic symbolism in historical religious and magical contexts challenging conventional narratives with academic precision Far more than a list of forbidden names this book offers a structured journey through the core principles of infernal knowledge empowering the reader to decode discern and engage with the dark currents of Western esotericism If you are ready to uncover the veiled forces that lie beneath centuries of fear mythology and hidden power this guide opens the gateway Step beyond the threshold and claim the knowledge long kept in shadow **Radical Axiology** Hugh P. McDonald,2021-11-08 This book treats values as the basis for all of philosophy an approach distinct from critiquing theories of value and far rarer First Philosophy the effort to justify the foundations for a system of philosophy is one of the main issues that divide philosophers today McDonald s philosophy of values is a comprehensive attempt to replace philosophies of existence being experience the subject or language with a philosophy that locates value as most basic This transformation is a radical move within Western philosophy as a whole since it has never been done in such a thoroughgoing way Hugh P McDonald makes a comprehensive case against first philosophy as metaphysical by mounting a case against all metaphysical systems of philosophy Radical Axiology A First Philosophy of Values is a fresh start for a rebirth of philosophy While other movements debate the death of philosophy this book radically re evaluates the direction of philosophy by discovering values at the basis of all philosophy This reorientation addresses the question of what the love of wisdom can mean for us today
