The Idea Of A Christian University In Today's World:

The Idea of a Christian University in Today's World Ben C. Fisher, 1989 *The Idea of a Christian College* Todd C. Ream, Perry L. Glanzer, 2013-10-28 In 1975 Arthur F Holmes published *The Idea of a Christian College* At the time he could not have imagined his book would gather such a large following This work's thoughtful yet accessible style made it a long standing choice for reading lists on Christian college and university campuses across the country and around the world Countless numbers of first year students have read and discussed his book as part of their introduction to the Christian college experience However enough has changed since 1975 in both the Church and Academy to now merit a full scale reexamination In this book Todd C Ream and Perry L Glanzer account for changes in how people view the Church and themselves as human agents and propose a vision for the Christian college in light of the fact that so many Christian colleges now look and act more like research universities Including topics such as the co curricular common worship and diversity Ream and Glanzer craft a vision that strives to see into the future by drawing on the riches of the past First year students as well as new faculty members and administrators will benefit from the insights in this book in ways previous generations benefitted from Arthur Holmes's efforts *Christianity and Critical Realism* Andrew Wright, 2013-05-07 One of the key achievements of critical realism has been to expose the modernist myth of universal reason which holds that authentic knowledge claims must be objectively pure uncontaminated by the subjectivity of local place specific time and particular culture Wright aims to address the lack of any substantial and sustained engagement between critical realism and theological critical realism with particular regard to a the distinctive ontological claims of Christianity b their epistemic warrant and intellectual legitimacy and c scrutiny of the primary source of the ontological claims of Christianity namely the historical figure of Jesus of Nazareth As such it functions as a prolegomena to a much needed wider debate guided by the underlabouring services of critical realism between Christianity and various other religious and secular worldviews This important new text will help stimulate a debate that has yet to get out of first gear This book will appeal to academics graduate and post graduate students especially but also Christian clergy ministers and informed laity and members of the general public concerned with the nature of religion and its place in contemporary society **Christian Mind in the Emerging World** Peter Tze Ming Ng, Wing Tai Leung, Vaughan King Tong Mak, 2018-10-31 In response to challenges from the emerging world this book brings together essays that discuss and exemplify various related approaches to academic faith integration and explore how Christian faith should underpin scaffold and frame our understanding of academic disciplines leading to practical implications for work or action in modern society and culture Written by Christian scholars and practitioners from diverse backgrounds including the USA the UK Australia China Hong Kong South Korea and the Philippines the contributions here all contribute a global perspective while addressing some specific issue or case in the context of Asia They represent ingenious endeavors that illustrate the workings of a faith integrated approach in domains as wide as higher education

business science psychology and counseling politics environment media social services leadership research and technology
This volume will inform and inspire the reader into cross cultural and inter disciplinary studies particularly of religion
education culture society and worldview *Christian Higher Education* David S. Dockery, Christopher W.

Morgan, 2018-12-10 Our world is growing increasingly complex and confused a unique and urgent context that calls for a
grounded and fresh approach to Christian higher education Christian higher education involves a distinctive way of thinking
about teaching learning scholarship curriculum student life administration and governance that is rooted in the historic
Christian faith In this volume twenty nine experts from a variety of fields including theology the humanities science
mathematics social science philosophy the arts and professional programs explore how the foundational beliefs of
Christianity influence higher education and its disciplines Aimed at equipping the next generation to better engage the
shifting cultural context this book calls students professors trustees administrators and church leaders to a renewed
commitment to the distinctive work of Christian higher education for the good of the society the good of the church and the
glory of God **The Fearless Christian University** John W. Hawthorne, 2025-02-13 A bold vision for Christian higher
education What is Christian higher education and what makes it distinctive Sociologist and educator John Hawthorne
laments the fact that fear has become a defining characteristic of many Christian universities today fear of mission drift
public relations crises demographic change culture wars and more Hawthorne argues that when colleges focus their energies
on such concerns they fail to prepare students for constructive lives in a post Christian society Proposing a dramatically
different vision Hawthorne argues that the long term success of today's Christian university rests upon its ability to be
fearless He encourages Christian schools to center student questions and experiences to pursue research that meets real
needs in the church and society and to participate boldly in their cultural contexts Hawthorne's proposal draws on his
decades of experience as a scholar and practitioner of Christian higher education combining insights from administration and
teaching roles in five different Christian universities with historical and sociological literature on conservative evangelicals
and their institution building *The Fearless Christian University* is essential reading for faculty administrators trustees donors
and alumni and offers a clarion call to all who care about the future of Christian higher education **The Idea of a**

Christian University Jeff Astley, Leslie J. Francis, John Sullivan, Andrew Walker, 2004 Today the academy is in a state of
turmoil torn apart by market driven pressures systematic underfunding by central government overworked and highly
stressed staff increased student numbers and an ever widening division between research led and teaching led institutions
All this is a far cry from the religiously inspired ideals of Christian higher education which underpinned the foundation of so
many centres of learning across the U K Europe North America and Australasia In this timely and provocative collection of
essays scholars from across the world re examine the idea of a Christian university and offer a radical alternative vision for
the future of the academy Theologians from Anglican Orthodox Catholic and Protestant traditions engage both with the

historic roots from which the idea of the Christian University emerges and with the contemporary challenges and opportunities faced by higher education today Contributors include Professor Sam Berry Professor David Carr Dr Gavin D Costa Dr Gerard Loughlin Dr Patricia Malone Professor Ian Markham Professor Adrian Thatcher and Dr Elmer Thiessen

The Christian College (RenewedMinds) William C. Ringenberg, 2006-04-01 When it first appeared in 1984 The Christian College was the first modern comprehensive history of Protestant higher education in America Now this second edition updates the history featuring a new chapter on the developments of the past two decades a major introduction by Mark Noll a new preface and epilogue and a series of instructive appendixes The Vocation of the Christian Scholar Richard T. Hughes, 2005-05-02 Richard T Hughes s highly praised book on the relationship between Christian faith and secular learning originally titled How Christian Faith Can Sustain the Life of the Mind is now available in this revised and expanded edition which speaks more directly to the subject of vocation In a substantial new preface Hughes recounts his own vocational journey telling how he drew on Christian theology to discover his talents and how best to use them Another new chapter explores the vocation of Christian colleges and universities including the purposes and goals of church related education Drawing from the Catholic Reformed Lutheran and Anabaptist traditions Hughes shows how the Christian scholar can embrace paradox rather than dogmatism His reflections provide a compelling argument that faith properly pursued nourishes the openness and curiosity that make a life of the mind possible Praise for the original edition In this beautifully written sermonic essay Richard Hughes defines the virtues needed for sound scholarship and good teaching As Hughes powerfully and persuasively argues the Christian scholar has ample Christian warrant to be humble in the face of diversity open to the challenge of competing perspectives and fully engaged in the cooperative rigorous and imaginative search for truth The Christian Century Following the examples of George Marsden and Mark Noll Hughes encourages Christians not to forsake their calling as scholars nor to be discouraged by the enormity of their task but to keep on integrating faith and contemporary culture Reformed Review In this book Richard Hughes mentors all of us who want to be both Christians and scholars But even for those who do not teach and would not wear the name scholar this book is a valuable model of what it means to serve God humbly in one s chosen vocation New Wineskins Everybody who is concerned with Christian education should read this little book Journal of Education and Christian Belief **Religion in Today's World** Melissa Wilcox, 2013-12-19 Religion is a major force in contemporary society It is also one of the least understood social and political influences on individuals and communities In this innovative collection of original essays and classic readings experts explore the significance of contemporary religiosity as a source of meaning and motivation how it unites and divides us and how it is used politically and culturally Readers will be introduced to the broad debates in ways that will equip them to analyze discuss and make their own judgments about religion and society This book should be read by anyone interested in understanding religion as a central source of meaning and politics and is ideally suited for undergraduate teaching on religion and social
