Image Guidance Elizabeth-Anne Stewart, **Ordinary Matters** Lorraine Sim, 2016-10-20 Shortlisted for the 2017 AUHE Prize for Literary Scholarship Ordinary Matters is the first major

interdisciplinary study of the ordinary in modernist women's literature and photography. It examines how women photographers and writers including Helen Levitt, Lee Miller, Virginia Woolf and Dorothy Richardson envision the sphere of ordinary life in light of the social and cultural transformations of the period that shaped and often radically re-shaped it, for example urbanism, instrumentalism, the Great Depression and war. Through a series of case studies that explore such topics as the street, domestic things, gesture and the face, Sim contends that the paradigmatic shifts that define early twentieth-century modernity not only inform modernist women's aesthetics of the everyday but their artistic and ethical investments in that sphere. The everyday has been noted as a keynote of the New Modernist Studies. Todd Avery's *Ordinary Matters* comprises a vital contribution to recent scholarship on the topic and will be of value to scholars working in British and American modernism, multimedia modernisms, photography, twentieth-century literature and critical and cultural histories of the everyday.
