the triumph of capitalism's driver consumerism **The Gilson Lectures on Thomas Aquinas**, 2008 Few men of modern times have influenced the study of the medieval past as profoundly as Professor Etienne Gilson By the encyclopaedic range of his writings teaching lectures and personal contacts by his sensitive vision of Christian culture present and past and by the brave new ventures on which he embarked he as few others is responsible for the strength and diversity of medieval studies in North America and Europe In recognition of his achievement and to continue his work the Pontifical Institute of Mediaeval Studies commissioned an annual lecture to develop areas of his interest and expertise Since 1979 there have been twenty four lectures given by senior medievalists Among the distinguished contributors to the series are fellows of the Institute past and present Leonard E Boyle Jocelyn Hillgarth Edouard Jeuneau James K McConica M Mich le Mulchahey Joseph Owens Walter H Principe James P Reilly Brian Stock Edward A Synan and James A Weispheipl as well as such eminent scholars from Canada Europe and the United States as Marcia Colish Giles Constable William J Courtenay Paul Dutton Mark D Jordan F Donald Logan Karl F Morrison John D North Francis Oakley Jaroslav Pelikan Otto Hermann Pesch Kenneth Schmitz and John F Wippel To mark the thirtieth anniversary of Gilson's death and seventy five years of scholarly publishing at the Institute we are reprinting the nine Gilson lectures devoted to Thomas Aquinas The Cambridge Companion to Reformation Theology

David Bagchi, David C. Steinmetz, 2004-11-18 The European Reformation of the sixteenth century was one of the most formative periods in the history of Christian thought and remains one of the most fascinating events in Western history The Cambridge Companion to Reformation Theology provides a comprehensive guide to the theology and theologians of the Reformation period Each of the eighteen chapters is written by a leading authority in the field and provides an up to date account and analysis of the thought associated with a particular figure or movement There are chapters focusing on lesser reformers such as Martin Bucer and on the Catholic and Radical Reformations as well as the major Protestant reformers A detailed bibliography and comprehensive index allows comparison of the treatment of specific themes by different figures This authoritative and accessible guide will appeal to students of history and literature as well as specialist theologians

Changing Churches Mickey L. Mattox, A. G. Roeber, 2012-02-27 Sharp controversies about biblical authority the ordination of women evangelical worship styles and the struggle for homosexual inclusion have rocked the Lutheran church in recent decades In Changing Churches two men who once communed at the same Lutheran Eucharistic table explain their similar but different decisions to leave the Lutheran faith tradition one for Orthodoxy the other for Roman Catholicism Here Mickey L Mattox and A G Roeber address the most difficult questions Protestants face when considering such a conversion including views on justification grace divinization the church and its authority women and ministry papal infallibility the role of Mary and homosexuality They also discuss the long standing ecumenical division between Rome and the Orthodox patriarchates acknowledging the difficult issues that still confront those traditions from within and divide them from one another *Enemies of the Cross* Vincent Everer, 2021 Enemies of the Cross examines how suffering and truth were aligned

in the divisive debates of the early Reformation Vincent Everer draws on seldom used sources and describes how Protestants and radicals brought medieval mystical teachings into new frameworks that rejected spiritual hierarchy

Humanism and Renaissance Civilization Charles G. Nauert, 2023-04-21 The essays collected in this volume represent many years of Professor Nauert's research and teaching on the history of Renaissance humanism and more particularly on humanism north of the Alps Much of the early work involved the significant but often overlooked history of humanism at the University of Cologne notoriously the most anti humanist of the German universities Later essays deal with the most famous humanist of the early sixteenth century Erasmus of Rotterdam and natural philosophy a broad term covering many subjects now associated with natural science is the topic of three of the pieces published here Taken as a whole the book presents a detailed study of intellectual development among European elites

Athens and Wittenberg James A. Kellerman, R. Alden Smith, Carl P.E. Springer, 2022-12-05 Scholarship has tended to assume that Luther was uninterested in the Greek and Latin classics given his promotion of the German vernacular and his polemic against the reliance upon Aristotle in theology But as *Athens and Wittenberg* demonstrates Luther was shaped by the classical education he had received and integrated it into his writings He could quote Epicurean poetry to non Epicurean ends he could employ Aristotelian logic to prove the limits of philosophy's role in theology This volume explores how Luther and early Protestantism especially Lutheranism continued to draw from the classics in their quest to reform the church In particular it examines how early Protestantism made use of the philosophy and poetry from classical antiquity Contributors to this volume Joseph Herl Jane Schatkin Hettrick E J Hutchinson Jack D Kilcrease E Christian Kopf John G Nordling Piergiacomo Petrioli Eric G Phillips Richard J Serina Jr R Alden Smith Carl P E Springer Manfred Svensson William P Weaver and Daniel Zager

Practical Predestinarians in England, c. 1590-1640 Leif Dixon, 2016-04-08 The belief that God eternally and unalterably decrees the election of one part of humankind and the reprobation of the rest has not aged well but in the sixteenth and seventeenth centuries the doctrine of predestination was publicised and popularised to an extent unparalleled in the history of Christianity Why was this How successfully was the doctrine able to mix with other ideas and to what effect And did belief in predestination encourage confidence or despair *Practical Predestinarians* is a study of the ways in which the doctrine of predestination was understood and communicated by churchmen in late Tudor and early Stuart England It connects with debates about the popularity of Protestantism during England's long reformation as well as with the question of whether predestination tended toward inclusive or divisive and conformist or subversive applications Intersecting with recent debates about the popular reception of Protestant preaching this book focusses upon the pastoral message itself it is therefore an investigation into the public face of English Calvinism

Christian Faith as Religion Paul E.

Capetz, 2011-05-26 *Christian Faith as Religion* investigates the theologies of John Calvin and Friedrich Schleiermacher with respect to the questions What is Religion and What is Christian Religion The author argues that the classical and liberal exemplars of Protestant theology are best compared when these two questions are thoroughly examined and calls into question the contention of neo orthodox theologians Karl Barth and Emil Brunner that Schleiermacher's theological use of the category religion signifies a departure from the tradition of the Reformation He offers a revised comparative framework that discloses the material and formal similarities between Calvin and Schleiermacher with respect to their employment of the categories religion and revelation and allows the historical theologian to delineate the trajectory that accounts for both continuity and discontinuity in the transition from classical to modern Protestant theology This allows the systematic hermeneutical question of a contemporary Protestant theology informed by the historical and philosophical study of religion to be taken up anew

Beyond Dordt and De Auxiliis Jordan Ballor, Matthew Gaetano, David Sytsma, 2019-09-02 *Beyond Dordt and De Auxiliis* explores post Reformation inter confessional theological exchange on soteriological topics including predestination grace and free choice These doctrines remained controversial within confessional traditions after the Reformation as Dominicans and Jesuits and later Calvinists and Arminians argued about these critical issues in the Augustinian theological heritage Some of those involved in condemning Arminianism at the Synod of Dordt 1618 1619 were inspired by Dominican followers of Thomas Aquinas in Spain who had recently opposed the vigorous defense of free choice by Jesuit Molinists in the Congregatio de auxiliis 1598 1607 This volume appearing on the 400th anniversary of the closing of the Synod of Dordt brings together a group of scholars working in fields that only rarely speak to one another to address these theological debates that cross geographical and confessional boundaries
