The Hungry Stream Essays On Emigration And Famine:

The Hungry Stream E. Margaret Crawford, 1997 *Trauma and the Memory of Politics* Jenny Edkins, 2003-07-31 In this interesting study Jenny Edkins explores how we remember traumatic events such as wars famines genocides and terrorism and questions the assumed role of commemorations as simply reinforcing state and nationhood Taking examples from the World Wars Vietnam the Holocaust Kosovo and September 11th Edkins offers a thorough discussion of practices of memory such as memorials museums remembrance ceremonies the diagnosis of post traumatic stress and the act of bearing witness She examines the implications of these commemorations in terms of language political power sovereignty and nationalism She argues that some forms of remembering do not ignore the horror of what happened but rather use memory to promote change and to challenge the political systems that produced the violence of wars and genocides in the first place This wide ranging study embraces literature history politics and international relations and makes a significant contribution to the study of memory

Literature and the Irish Famine 1845-1919 Melissa Fegan, 2002-08-08 The impact of the Irish famine of 1845 1852 was unparalleled in both political and psychological terms The effects of famine related mortality and emigration were devastating in the field of literature no less than in other areas In this incisive new study Melissa Fegan explores the famine s legacy to literature tracing it in the work of contemporary writers and their successors down to 1919 Dr Fegan examines both fiction and non fiction including journalism travel narratives and the Irish novels of Anthony Trollope She argues that an examination of famine literature that simply categorizes it as minor or views it only as a silence or an absence misses the very real contribution that it makes to our understanding of the period This is an important contribution to the study of Irish history and literature sharply illuminating contemporary Irish mentalities

The Great Famine Ciarán Ó Murchadha, 2011-06-02 Over one million people died in the Great Famine and more than one million more emigrated on the coffin ships to America and beyond Drawing on contemporary eyewitness accounts and diaries the book charts the arrival of the potato blight in 1845 and the total destruction of the harvests in 1846 which brought a sense of numbing shock to the populace Far from meeting the relief needs of the poor the Liberal public works programme was a first example of how relief policies would themselves lead to mortality Workhouses were swamped with thousands who had subsisted on public works and soup kitchens earlier and who now gathered in ragged crowds Unable to cope workhouse staff were forced to witness hundreds die where they lay outside the walls The next phase of degradation was the clearances or exterminations in popular parlance which took place on a colossal scale From late 1847 an exodus had begun The Famine slowly came to an end from late 1849 but the longer term consequences were to reverberate through future decades

The Hidden Famine Prof. Christine Kinealy, Gerard Mac Atasney, 2000-09-20 Between 1845 and 1852 Ireland was devastated by the Great Hunger the most severe famine in modern European history The view widely held by historians is that the impact of the Famine on the northern province of Ulster in particular the largely Protestant city of Belfast was minimal In the first

book on the Famine to focus specifically on Belfast Christine Kinealy one of Ireland's leading historians of the period and Gerard MacAtasney challenge this view and offer a new interpretation Drawing on a wealth of original research Kinealy and MacAtasney begin with an examination of society and social behaviour in Belfast prior to 1845 They then assess the official response to the crisis by the British government the response by the Church in both England and Ireland and the part played by the local administration in Ulster The authors examine the impact of the cholera epidemic on Belfast in 1849-50 the city's recovery after the Famine and the beginnings of open sectarianism among the business and landed classes of the province

Irish Nationalism and the British State Brian Jenkins, 2006-05-12 No detailed description available for Irish Nationalism and the British State

The Famine Irish Ciaran Reilly, 2016-04-04 From a range of leading academics and historians this collection of essays examines Irish emigration during the Great Famine of the 1840s From the mechanics of how this was arranged to the fate of the men women and children who landed on the shores of the nations of the world this work provides a remarkable insight into one of the most traumatic and transformative periods of Ireland's history More importantly this collection of essays demonstrates how the Famine Irish influenced and shaped the worlds in which they settled while also examining some of the difficulties they faced in doing so
