

The Idea

Alan G. Robinson, Dean M. Schroeder

The Idea:

The Idea-Driven Organization Alan G. Robinson, Dean M. Schroeder, 2020-04-07 Examples from all over the world make it fun to read convincingly demonstrate the power of incorporating frontline thinking into your organization Marshall Goldsmith 1 New York Times bestselling author of *Triggers* Too many organizations overlook or even suppress their single most powerful source of growth and innovation and it's right under their noses The frontline employees who interact directly with your customers make your products and provide your services have unparalleled insights into where problems exist and what improvements and new offerings would have the most impact In this follow up to their bestseller *Ideas Are Free* Alan G Robinson and Dean M Schroeder show how to align every part of an organization around generating and implementing employee ideas and offer dozens of examples of what a tremendous competitive advantage this can offer not just for revenue but for worker retention Their advice enables leaders to build organizations capable of implementing twenty fifty or even a hundred ideas per employee per year Citing organizations from around the world they explain what's needed to put together a management team that embraces grassroots ideas and describe the strategies policies and practices that enable them They detail exactly how high performing idea processes work and how to design one for your organization There's pressure today to do more with less But cutting wages and benefits and pushing people to work harder with fewer resources can go only so far Ironically the best solution resides with the very people who've been bearing the brunt of these measures With this book you can unleash a constant stream of great ideas that will strengthen every facet of your organization

The Idea of Labour Law Guy Davidov, Brian Langille, 2011-06-02 Labour law is widely considered to be in crisis by scholars of the field This crisis has an obvious external dimension labour law is attacked for impeding efficiency flexibility and development vilified for reducing employment and for favouring already well placed employees over less fortunate ones and discredited for failing to cover the most vulnerable workers and workers in the informal sector These are just some of the external challenges to labour law There is also an internal challenge as labour lawyers themselves increasingly question whether their discipline is conceptually coherent relevant to the new empirical realities of the world of work and normatively salient in the world as we now know it This book responds to such fundamental challenges by asking the most fundamental questions What is labour law for How can it be justified And what are the normative premises on which reforms should be based There has been growing interest in such questions in recent years In this volume the contributors seek to take this body of scholarship seriously and also to move it forward Its aim is to provide if not answers which satisfy everyone intellectually nourishing food for thought for those interested in understanding explaining and interpreting labour laws whether they are scholars practitioners judges policy makers or workers and employers

Development of the Idea of History in Antiquity Gerald A. Press, 2003-09-10 An extensive scholarly literature written in the past century holds that in ancient Greek and Roman thought history is understood as circular and repetitive a consequence of their anti temporal metaphysics in contrast with Judaeo

Christian thought which sees history as linear and unique a consequence of their messianic and hence radically temporal theology Gerald Press presents a more general view that the Graeco Roman and Judaeo Christian cultures were fundamentally alien and opposed cultural forces and that therefore Christianity's victory over paganism included the replacement or supersession of one intellectual world by another and then shows that contrary to this view there was substantial continuity between pagan and Christian ideas of history in antiquity rather than a striking opposition between cyclic and linear patterns He finds that the foundation of the Christian view of history as goal directed lies in the rhetorical rather than the theological motives of early Christian writers

The Problem of the Idea of Culture in John Paul II John Corrigan, 2019-11-13 In *The Problem of the Idea of Culture in John Paul II Exposing the Disruptive Agency of the Philosophy of Karol Wojtyla* John Corrigan provides a new lens with which to view and understand the philosophy of Karol Wojtyla John Paul II He exposes Wojtyla as a major player in contemporary philosophical debates The work reformulates the problem of experience in light of the questions surrounding our idea of culture Corrigan argues that for Wojtyla the drama of the problem of experience manifests in the apparently divergent accounts of the meaning of human experience as presented by the philosophies of being and of consciousness Solving this conundrum results in an idea of the person capable of explaining human experience in relation to human culture unfolding the experiences of self knowledge conscience and the ontic causal relationship of the person to human culture The first part of the book concerns formal considerations regarding the constitutive aspects of Wojtyla's approach while the second part deals with pragmatic considerations drawn from his comments on culture

Collingwood's The Idea of History Peter Johnson, 2012-12-27 *The Idea of History* is the best known work of the Oxford philosopher and historian RG Collingwood Published posthumously in 1946 it is in effect two books a historiography and a philosophy of history Students look to Collingwood for a history of thinking about history and to discover his ideas about the nature of historical understanding It is an indispensable text for historians and philosophers yet it is also highly challenging and many of Collingwood's innovations have been seriously misunderstood The primary focus of this book is on Collingwood's actual arguments especially the most radical of these with the aim of elucidating their construction and appraising them in the clearest possible way This guide is the ideal companion to Collingwood's classic text both for students coming to it for the first time and for those wishing to consider its arguments afresh It offers clear and concise accounts of the book's composition the intellectual context of Collingwood's ideas its central arguments concerning the nature of history and its reception and influence

The Idea of a Political Liberalism Clark Wolf, Victoria Davion, 1999-12-22 In this unique volume some of today's most eminent political philosophers examine the thought of John Rawls focusing in particular on his most recent work These original essays explore diverse issues including the problem of pluralism the relationship between constitutive commitment and liberal institutions just treatment of dissident minorities the constitutional implications of liberalism international relations and the structure of international law The first comprehensive

study of Rawls's recent work *The Idea of Political Liberalism* will be indispensable for political philosophers and theorists interested in contemporary political thought Hegelian Reflections on the Idea of Nuclear War Hayo B.E.D.

Krombach, 1991-06-18 Applying Hegelian dialectical method Krombach attempts to demonstrate how Hegelian thinking provides a method to traverse the gulf between the history of philosophy and the idea of nuclear war as well as showing its direct implications for conceptualizing environmental issues Photo Archives and the Idea of Nation Costanza

Caraffa, Tiziana Serena, 2014-12-16 Das lange 19. Jahrhundert der Nationalstaatenbildung ist auch das Jahrhundert der Erfindung der Fotografie wie auch der Geburt der modernen Archivwissenschaften Die Fotografie wurde bald von den Nationalstaaten in ihrem Bedürfnis nach bildlicher Visualisierung in den Dienst genommen Nach dem II Weltkrieg dem Zerfall der kolonialistischen Systeme und schließlich dem Fall der Berliner Mauer erlangten nationale Fragen erneut Aktualität nun in einem globalen Rahmen Die Beiträge in diesem Band untersuchen den Zusammenhang zwischen Fotografie Fotoarchiven und der Idee der Nation wobei das Objektiv sich nicht auf einzelne Ikonen sondern auf die weitreichende Dimension des Archivs richtet *Walter Benjamin and the Idea of Natural History* Eli Friedlander, 2024-01-16 In this

incisive new work Eli Friedlander demonstrates that Walter Benjamin's entire corpus from early to late comprises a rigorous and sustained philosophical questioning of how human beings belong to nature Across seemingly heterogeneous writings Friedlander argues Benjamin consistently explores what the natural in the human comes to that is how nature is transformed actualized redeemed and overcome in human existence The book progresses gradually from Benjamin's philosophically fundamental writings on language and nature to his Goethean empiricism from the presentation of ideas to the primal history of the Paris arcades Friedlander's careful analysis brings out how the idea of natural history inflects Benjamin's conception of the work of art and its critique his diagnosis of the mythical violence of the legal order his account of the body and of action of material culture and technology as well as his unique vision of historical materialism Featuring revelatory new readings of Benjamin's major works that differ sometimes dramatically from prevailing interpretations this book reveals the internal coherence and philosophical force of Benjamin's thought **The Idea of a Social Studies Education** James A.

Duplass, 2017-09-22 Offering a fresh take on the purpose of social studies today James A. Duplass positions philosophical counseling as a way for teachers to engage students in thinking deeply about what it means to be a citizen in a democratic society *The Idea of a Social Studies Education* takes a uniquely humanistic approach to the idea of a social studies education to show how teachers can act as philosophical counselors in preparing students for active civic engagement Duplass reminds the reader of the needs of students in modern society who seek to develop an identity worth living and the role social studies can play in students achieving that process By focusing on the cultivation of students' autonomy authenticity efficacy and agency Duplass' approach avoids political biases and instead encourages critical thinking to decipher what a democratic ideology truly is

Delve into the emotional tapestry woven by Emotional Journey with in **The Idea** .
