The Idea Of China Myth And Theory In Geographic Thought:

The Idea of China Andrew L. March, 1974 From War to Nationalism Arthur Waldron, 2003-10-16 This book investigates the warlord period in China focusing on the pivotal year 1924 *"Race," Rights and the Law in the Supreme Court of Canada* James W. St.G. Walker, 2006-01-01 Four cases in which the legal issue was race that of a Chinese restaurant owner who was fined for employing a white woman a black man who was refused service in a bar a Jew who wanted to buy a cottage but was prevented by the property owners association and a Trinidadian of East Indian descent who was acceptable to the Canadian army but was rejected for immigration on grounds of race drawn from the period between 1914 and 1955 are intimately examined to explore the role of the Supreme Court of Canada and the law in the racialization of Canadian society With painstaking research into contemporary attitudes and practices Walker demonstrates that Supreme Court Justices were expressing the prevailing common sense about race in their legal decisions He shows that injustice on the grounds of race has been chronic in Canadian history and that the law itself was once instrumental in creating these circumstances The book concludes with a controversial discussion of current directions in Canadian law and their potential impact on Canada's future as a multicultural society **Passport to Peking** Patrick Wright, 2010-10-28 This delightfully eclectic book part comedy part travelogue and part cultural history uncovers the story of the British delegations that were invited to China in 1954 a full eighteen years before President Nixon's more famous 1972 mission *Oil and Water* Tom Cliff, 2016-06-10 Xinjiang is like Tibet one of China's autonomous regions Despite the overwhelming attention scholars and activists have given to Tibet Xinjiang has garnered relatively little attention Never a quiescent place however it has seen one uprising after another most recently in violent flare ups over the cultural repression and economic exclusion of the local Muslim Uyghurs *Oil and Water* by anthropologist and photographer Tom Cliff is the first book to turn the lens onto Han Chinese settlers Using ethnographic vignettes life histories and arresting photographs Cliff shows how large scale social and institutional structures historical narratives and national political imperatives have shaped the lives of ordinary Han settlers in Xinjiang The book weaves together the individual threads of life histories to show what it means to be Han in this frontier zone Along the way Cliff makes a number of surprising points for example that the Communist Party is in fact more concerned with stability among the Han in frontier regions than Uyghur cooperation itself or that the frontier is simultaneously seen as backward and ahead in that it is the testing ground for policies and practices that may later be put to use in the core Most important by shifting the focus away from often studied state actions and Uyghur reactions and onto the daily experience of diverse Han settlers *Oil and Water* provides the first behind the scenes look into the colonial enterprise that China has tried to hide from the world since it took power sixty years ago Fateful Ties Gordon H. Chang, 2015-04-13 Americans look to China with fascination and fear unsure whether the rising Asian power is friend or foe but certain it will play a crucial role in America's future This is nothing new Gordon Chang says For centuries Americans have been convinced

of China's importance to their own national destiny *Fateful Ties* draws on literature art biography popular culture and politics to trace America's long and varied preoccupation with China China has held a special place in the American imagination from colonial times when Jamestown settlers pursued a passage to the Pacific and Asia In the eighteenth and nineteenth centuries Americans plied a profitable trade in Chinese wares sought Chinese laborers to build the West and prized China's art and decor China was revered for its ancient culture but also drew Christian missionaries intent on saving souls in a heathen land Its vast markets beckoned expansionists even as its migrants were seen as a yellow peril that prompted the earliest immigration restrictions A staunch ally during World War II China was a dangerous adversary in the Cold War that followed In the post Mao era Americans again embraced China as a land of inexhaustible opportunity playing a central role in its economic rise Through portraits of entrepreneurs missionaries academics artists diplomats and activists Chang demonstrates how ideas about China have long been embedded in America's conception of itself and its own fate *Fateful Ties* provides valuable perspective on this complex international and intercultural relationship as America navigates an uncertain new era

Design and Modernity in Asia Yunah Lee, Megha Rajguru, 2022-10-20 This new edited volume of critical essays examines designs for modern living in Asia between 1945 and 1990 Focusing particularly on the post World War II and postcolonial years this book advances multidisciplinary knowledge on approaches to and designs for modern living Developed from extensive primary research and case studies each essay illuminates commonalities and particularities of the trajectories of Modernism and notions of modernity their translation and manifestation in life across Asia through design Authors address everyday negotiations and experiences of being modern by studying exhibitions architecture modern interiors printed ephemera literary discourses healthy living movements and transnational networks of modern designers They examine processes of exchange between people institutions and with governments in and across Asia as well as with the USA and countries in Western Europe This book highlights the ways in which the production and discourses of modern design were underscored by economic advancement and modernization processes and fuelled by aesthetic debates on modern design Critically exploring design for modern living in Asia this book offers fresh perspectives on Modernism to students and scholars

Somewhere in Asia Prue Torney-Parlicki, 2000 From 1941 to 1975 as a series of military conflicts gripped Asia and the Pacific Australian journalism was dominated by war reporting from the region Torney Parlicki history U of Melbourne argues that the reporting went beyond the usual discussion of military strategy and in an important way

Borders of Chinese Civilization Douglas Howland, 1996-04-25 D R Howland explores China's representations of Japan in the changing world of the late nineteenth century and in so doing examines the cultural and social borders between the two neighbors Looking at Chinese accounts of Japan written during the 1870s and 1880s he undertakes an unprecedented analysis of the main genres the Chinese used to portray Japan the travel diary poetry and the geographical treatise In his discussion of the practice of *brush-talk* in which Chinese scholars communicated with the Japanese by exchanging ideographs

Howland further shows how the Chinese viewed the communication of their language and its dominant modes history and poetry as the textual and cultural basis of a shared civilization between the two societies With Japan s decision in the 1870s to modernize and westernize China s relationship with Japan underwent a crucial change one that resulted in its decisive separation from Chinese civilization and according to Howland a destabilization of China s worldview His examination of the ways in which Chinese perceptions of Japan altered in the 1880s reveals the crucial choice faced by the Chinese of whether to interact with Japan as kin based on geographical proximity and the existence of common cultural threads or as a barbarian an alien force molded by European influence By probing China s poetic and expository modes of portraying Japan *Borders of Chinese Civilization* exposes the changing world of the nineteenth century and China s comprehension of it This broadly appealing work will engage scholars in the fields of Asian studies Chinese literature history and geography as well as those interested in theoretical reflections on travel or modernism The Idea of China; Myth and Theory in Geographic Thought
