Blass,2012-02-01 The Freudian claim that dreams are meaningful and that their meanings can be discovered through dream interpretation has in recent times come under harsh attack from both scientific and hermeneutic psychoanalytic circles In a forceful response to these critiques Rachel Blass demonstrates that while Freud and his followers have thus far failed to provide adequate justification for his dream theory such justification may now be found through an alternate and legitimate yet neglected route one that establishes both scientifically and philosophically the relationship between the self of the dreamer and that of the awake individual The implications of this argument are both practical and theoretical by providing sorely absent scientific and philosophical grounding to the very foundations of dream interpretation the book clarifies and broadens the possibilities of dream interpretation within the clinical setting and breaks new ground in the field of psychoanalytic epistemology and the philosophy of the human sciences **Dreams and Dream Reports in the Writings of Josephus** Gnuse,2018-07-17 This volume analyzes the understanding of dreams and the corresponding literary forms used by Josephus in his writings Josephus reports dreams as either auditory message dreams

symbolic visual dreams or dream image appearances In this regard he uses the format for auditory and visual dreams found in ancient Near Eastern and biblical texts while his dream image appearance reports show familiarity with traditional Greek modes of reporting dreams Close attention is given to the following topics 1 the development of dream reports in the ancient Near East the Bible and the Hellenistic world 2 Josephus views on dreams and prophecy 3 a form critical assessment of Josephus dream reports and 4 an evaluation of Josephus dream reports which exhibit a more complex traditional historical development
